Toy Stories Tanya Jones.2017-04-11 Toys--those celebrated childhood cohorts and lead actors in children's imaginative play--have a fantastic history of heroism in fiction. From teddy bears that guard sleeping babies to plastic soldiers and cowboys who lay siege to wooden block castles, toys are often the heroes of the stories children inspire authors to tell. In this collection of new essays, scholars from a great range of disciplines examine fictional toys as protectors of the children they love, as heroes of their own stories, and as champions for the greater good in the writings of A.A. Milne, Hans Christian Andersen, William Joyce, John Lasseter and many others.

Maidy June Houghton Gatewood.2023-10-11 Maily Houghton entered the world in the city of Plymouth, Devon. German airplanes dropped building-shattering bombs over the southern part o England. Her first cries echoed the blare of the warning sirens. Born to a British nurse and Mexican father, who was serving in the Royal Air Force, Black Swan, Squadron 103. Maily's journey began in hope, but led through pain, reconciliation, and redemption. War had badly affected her family. They had a strong sense of Independence through fear, with empty hearts. It suffocated their inner needs, and left them expressing no love or emotion. June Maily Houghton, remembers the blinding hate that captures the miseries of her childhood: a mother bestowing mental and physical abuse, forcing her to spend eleven years in an orphanage. When she finally came home, the sexual abuse from her stepfather, and finally, her decadelong hatred of Germany and the Nazi who killed her father. Where there is war, there is no peace. This is her story

Up Spirits Peter Broadbent.2016-03-09 Until that fateful day in 1970 when the Royal Navy abolished the rum ration, the one thing that every Royal

Navy sailor could rely on was that 'Up Spirits' would be piped at approximately 11:45 each day. 'Tot-time' was the cue for plenty of banter and lamp-swinging, but also for baffling negotiations as to who might have sippers, wets, gulpers, halfers, sandy bottoms, or their share of 'Queen's'. With the same humour, affection and story-telling ability that characterised his earlier naval memoirs, including HMS Ganges Days and HMS Bermuda Days, Peter Broadbent tells the tale of his nine months as an Able Seaman on board HMS Gurkha, touring the Persian Gulf with a few detours to the Seychelles, Kenya and the Mozambique channel. Along the way he coxswains Royal Marines on a RIB to track down smugglers, pits his wits against a line-up of ultra-intelligent dolphins, persuades dozens of girls from a jam factory in Leeds to write to 'lonely sailors', is one of the transfer team that initiated the 'Beira Bucket' when used to trade its contents for desperately needed toilet paper from HMS Eskimo, and makes it to Gibraltar in time to celebrate England winning the 1966 World Cup. City Notebook: A Reporter's Portrait of a Vanishing New York McCandlish Phillips.1974-01-01 McCandlish Phillips, whose by-line has been familiar to readers of The New York Times since 1955, has looked into just about every corner of the city and has written about nearly every aspect of its life. New York is not the same city today as it was yesterday. You cannot set foot in the same New York twice. Yet you can capture its momentary essence in City Notebook. One of the best metropolitan reporters of the 1950s, 60s, and 70s has brought together his best pieces on the City's life. You will learn, for example, about the "rainbow rain" that sometimes falls on the City, about the Great Bee Roundup, the Case of the Garrulous Parrot, the Small World of Melvin Krulewitch, and the fate of the Gowanus Canal. The reality of New York is made up of millions of such instances, a mosaic of people, places, and things. The ones in this book have been chosen because they are compulsively fascinating, utterly irreplaceable, or just very funny. Gay Talese has called McCandlish Phillips "one of the best reporters" on The Times. People who know his byline relish his crisp style and dry wit.

Colonizing Madness Jacqueline Leckie.2019-12-31 In *Colonizing Madness* Jacqueline Leckie tells a forgotten story of silence, suffering, and transgressions in the colonial Pacific. It offers new insights into a history of Fiji by entering the Pacific Islands' most enduring psychiatric institution—St Giles Psychiatric Hospital—established as Fiji's Public Lunatic Asylum in 1884. Her nuanced study reveals a microcosm of Fiji's indigenous, migrant, and colonial communities and examines how individuals and communities lived with the label of madness in an ethnically complex island society. Tracking longitudinal change from the 1880s to the present in the construction and treatment of mental disorder in Fiji, the book emphasizes the colonization of madness across and within the divides of culture, ethnicity, religion, gender, economics, and power. Colonization of madness in Fiji was forged by the entanglement of colonial institutions and cultures that reflected tensions and prejudices within homes, villages, workplaces, and churches. Mental despair was equally an outcome of the destruction and displacement wrought by migration and colonialism. Madness was further cast within the wider world of colonial psychiatry, Western biomedicine, and asylum building. One of the chapters explores medical discourse and diagnoses within colonial worlds and practices. The "community within" the asylum is a feature in Leckie's study, with attention to patient agency to show how those labeled insane resisted diagnoses of their minds, confinement, and constraints—ranging from straitjackets to electric shock treatments to drug therapies. She argues that madness in colonial Fiji reflects dynamics between the asylum and the community, and that "reading" asylum archives sheds new light on race/ethnicity, gender, and power in colonial Fiji. Exploring the meaning of madness in Fiji, the author does not shy away from asking controversial questions about how Pacific cultures define normality and abnormality and also how communities respond. Carefully researched and clearly written, *Colonizing Madness* offers an engaging narrative, a superb example of an intersectional history with a broad appeal to understanding global developments in mental health. Her theses address the contradictions of current efforts to discard the asylum model and to make mental health a reality for all in postcolonial societies.

Dig David Nichols.2016-10-11 David Nichols tells the story of Australian rock and pop music from 1960 to 1985 - formative years in which the nation cast off its colonial cultural shackles and took on the world. Generously illustrated and scrupulously researched, Dig combines scholarly accuracy with populist flair. Nichols is an unfailingly witty and engaging guide, surveying the fertile and varied landscape of Australian popular music in seven broad historical chapters, interspersed with shorter chapters on some of the more significant figures of each period. The result is a compelling portrait of a music scene that evolves in dynamic interaction with those in the United States and the UK, yet has always retained a strong sense of its own identity and continues to deliver new stars - and cult heroes - to a worldwide audience. Dig is a unique achievement. The few general histories to date have been highlight reels, heavy on illustration and short on detail. And while there have been many excellent books on individual artists, scenes and periods, and a couple of first-rate encyclopedias, there's never been a book that told the whole story of the irresistible growth and sweep of a national music culture. Until now . . .
