Informe mundial sobre las drogas 2015 United Nations Office on Drugs and Crime.2019-04-11 El Informe Mundial sobre las Drogas presenta un panorama completo anual de las últimas novedades habidas en los mercados de drogas ilícitas del mundo. El informe se centra en la producción, el tráfico y el consumo de los principales tipos de drogas ilícitas, así como en las consecuencias para la salud de ese consumo. El capítulo 1 del Informe Mundial sobre las Drogas 2015 ofrece una visión general de la situación de la oferta y la demanda de opiáceos, cocaína, cannabis, estimulantes de tipo anfetamínico y nuevas sustancias psicoactivas (NSP), así como de sus efectos para la salud; también se analizan los datos científicos relacionados con las estrategias de prevención del consumo de drogas y se examinan los principios generales de una respuesta eficaz al tratamiento del consumo de drogas. El capítulo 2 se centra en el modo en que el desarrollo alternativo, en el contexto más amplio de la agenda para el desarrollo, tiene por objeto romper el círculo vicioso del cultivo ilícito, proporcionando a los agricultores medios de vida alternativos.

LOS PROYECTOS DE LA ILUSTRACIÓN EN TIERRAS DE HUELVA MUÑOZ BORT, DOMINGO.2016-05-24 Las ¿colonizaciones agrarias? fueron las realizaciones más famosas de la Ilustración Española pero también la ruina personal y moral de su principal valedor y ejecutor, Pablo de Olavide. Este célebre indiano no se conformó en realizar sólo el proyecto marcado por el Ministerio de Hacienda en los páramos de Sierra Morena y Andalucía paralelos a la vía terrestre de Madrid-Sevilla, sino que quiso poner en práctica su gran proyecto de reforma agraria donde hubiese tierras baldías y buscó y apoyó a ciudadanos emprendedores capaces de acometer y desarrollar sus ideales agrarios; aspecto éste poco estudiado. Esta obra contempla y analiza el proyecto, hasta hoy desconocido, de un grupo de comerciantes e industriales sevillanos de colonizar los inmensos baldíos del actual espacio natural de Doñana, dotándolo de un canal navegable entre los ríos Tinto y Guadalquivir, de un puerto en la actual aldea del Rocío y de una población estable, numerosa y sostenida a semejanza de los pueblos que iban naciendo en Sierra Morena. También es todo un ejemplo de las contradicciones y reticencias del equipo ilustrado del ejecutivo ministerial y del propio reinado de Carlos III: reformas emprendidas y reformas frenadas; el lastre de la tradición secular española. En el mismo espacio concreto pero doscientos años pasados, la FAO desarrolló el Plan Almonte-Marismas de Regadíos que hoy genera miles de empleos directos bajo una muy estricta vigilancia medioambiental.

Finanzas municipales Catherine D. Farvacque-Vitkovic,Mihaly Kopanyi.2015-10-26 Desde Detroit hasta Lahore, la mayoría de las ciudades del mundo enfrentan problemas financieros, y aun así se espera que lleven a cabo sus funciones cada vez más complejas. Finanzas municipales - Manual para los gobiernos locales toma partido. Se pone del lado de los alcaldes y de los responsables de los asuntos municipales. Son escasas las publicaciones sobre este tema dirigidas tan directa y pragmáticamente a las autoridades decisorias y al personal financiero a nivel local. El contenido y los mensajes principales procuran responder a las inquietudes y a las cuestiones que enfrentan diariamente las ciudades y los municipios en la

administración de sus finanzas. Finanzas municipales - Manual para los gobiernos locales asume una posición. En ocho capítulos, en esta obra se pasa revista a las lecciones aprendidas sobre relaciones intergubernamentales; finanzas de las áreas metropolitanas; gestión financiera, de los ingresos, de los gastos y de los activos públicos; financiamiento externo, y medición del desempeño de las finanzas municipales. Abarca temas tales como la descentralización, la transparencia y la rendición de cuentas, y aborda temas menos explorados como la gestión de activos, la capacidad crediticia, la respuesta frente a crisis financieras y los mecanismos de presentación de informes a los diversos niveles de gobierno y a la ciudadanía. Finanzas municipales - Manual para los gobiernos locales hace un llamado a la acción. No solo aporta conocimientos de avanzada en muchas cuestiones técnicas, sino que también guía a los gobiernos locales en el laberinto de los instrumentos existentes. En particular, la autoevaluación de las finanzas municipales que se propone en el capítulo 8 debería ayudar a los municipios a evaluar su propia situación y a avanzar en la senda de las reformas.

Terminal evaluation of the project “Decision Support for Mainstreaming and Scaling Up of Sustainable Land Management” Food and Agriculture Organization of the United Nations. 2020-02-28 Land degradation reduces food productivity and security, disrupts vital ecosystem functions and increases carbon emissions and vulnerability to climate change. 52 percent of the land used for agriculture worldwide is estimated to already be affected. Studies indicate that land degradation directly affects 1.5 billion people around the world. Despite the seriousness of the issue, there is still limited access to resources and planning tools for sustainable land management. Between 2015 to 2019, FAO implemented the project "Decision support for mainstreaming and scaling up of sustainable land management (DS-SLM)" at a global level across 15 countries. The aim of the project was to improve access to information on land management best practices. The final evaluation examines the impacts and sustainability of the project results. What has contributed to, or hindered, the implementation of the planned activities? What has been the effect of linkages and partnerships between the project and other major country initiatives?

Dealing with Peace Simon Granovsky-Larsen.2019-05-06 *Dealing with Peace* presents the struggles of the Guatemalan campesino (peasant) social movement during the country's post-conflict transition from 1996 to the present, focusing on efforts to obtain land and improve livelihoods within a shifting, yet consistently hostile, political-economic environment. With special focus on the relationship between the movement and the neoliberal state, Simon Granovsky-Larsen asks whether the acceptance of neoliberal resources - in this case, support for land access in Guatemala provided by the World Bank-funded Fondo de Tierras - reduces the potential for social movements to continue to work for transformative change. Positioned in contrast to studies warning that social movements cannot maintain their original vision after accepting such support, this book argues that organizations within the Guatemalan campesino movement have engaged strategically with neoliberalism, utilizing available resources to advance visions of social change. Using a wealth of primary data collected over more than a year of fieldwork, it contributes significantly to the study of Guatemalan politics and advances understandings of the grounded operation of neoliberalism. Exploring both the dynamics of a national neoliberal transition and the ways in which these play out within civil society, *Dealing with Peace* reveals the long-term and often contradictory negotiation of political and economic transitions.

Restitución de tierras, política de vivienda y proyectos productivos Bolívar Jaime, Aura, Botero, Angie Paola, Gutiérrez, Laura Gabriela.2017-10-12 Este documento pretende examinar los resultados del proceso de restitución de tierras, haciendo énfasis en su articulación con las políticas de vivienda y generación de ingresos, componentes centrales que la restitución y el retorno requieren para garantizar a las víctimas restituidas condiciones de vida digna en términos de habitabilidad y sostenibilidad económica. Así lo ha reconocido la Corte Constitucional, órgano que en múltiples sentencias ha señalado que es deber del Estado otorgar a las víctimas un trato especial, preferente y prioritario, puntualmente en lo que respecta al derecho fundamental a la vivienda digna y a la implementación de políticas dirigidas a generar condiciones de sostenibilidad económica, teniendo en cuenta que el delito del desplazamiento supone el abandono forzado del lugar de residencia y la pérdida de condiciones para autosostenerse. En consecuencia, este documento parte de la tesis según la cual la sostenibilidad del proceso de restitución depende de la implementación, articulación y complementariedad de esta política con otros esfuerzos dirigidos a fomentar condiciones para el retorno de las víctimas y su reintegración a la vida productiva en el campo, sin los cuales no sería posible garantizar el retorno en condiciones dignas y duraderas y lograr un desarrollo económico e inclusión social democrática. Este texto hace parte de la colección 'Ideas para construir la paz' que cuenta con diez volúmenes, a través de los cuales Dejusticia busca aportar una serie de documentos temáticos para ofrecer diagnósticos y propuestas sobre algunos de los retos institucionales centrales de esta nueva etapa.

El paisaje de la arquitectura / The Landscape of Architecture Mayka García-Hípola.2017-12-13 Para El paisaje de la arquitectura la autora ha superado notablemente la contradicción entre una exposición necesariamente lógico-lineal, que facilite la inteligibilidad del contenido, y la extensa complejidad de éste. Complejidad ineludible para una solvente descripción y análisis del conocimiento contemporáneo. Comprometerse con nuestro tiempo histórico conlleva asumir que el paradigma positivista-lógico ha sido envuelto, que no desplazado, por el paradigma de la complejidad. El principio de la causalidad, y la independencia de "causa-efecto" del observador, es cuestionado por el paradigma complejo, para el que en la gestión del conocimiento el propio observador está imputado como un dato o suceso en el propio proceso. La profesora García-Hípola nos conduce por su ensayo a escenarios teórico-críticos a través de su propia experiencia, incluso de su protagonismo en los procesos, reflexiones y cuestiones que analiza. Es desde esa complejidad desde la que reivindica implícitamente en su texto la transversalidad entre autor, espectador, docente y creador, literalmente en las citas referidas a experiencias sobre la obra de El Bosco, o en las que somete al arquitecto a nuevos roles que devienen del comportamiento de la materia como un auténtico ecólogo o los del propio antropólogo que explora la acción del ser humano y sus detritus en el paisaje, como en su proyecto para Villajoyosa, verdadero tratado de "arquitectura de campo". In The Landscape of Architecture the author has remarkably surpassed the contradiction between a necessarily logical-linear explanation, to facilitate the intelligibility of the content, and its vast complexity. This is an inescapable complexity for a trustworthy description and analysis of contemporary knowledge. Commitment to our historical time involves assuming that the logical positivist paradigm has been wrapped, not displaced, by the paradigm of complexity. The principle of causality, and the independence between "cause and effect" of the observer, is questioned by the complex paradigm, for which, in the management of knowledge, the observer is ascribed as data or event of the process itself. In her essay professor García-Hípola leads us to theoretical-critical scenarios through her own experience, including her protagonism in the processes, reflections, and issues that she analyzes. From this complexity, the transversality between author, spectator, teacher and creator is claimed, literally in the quotes of the experiences about Hieronymus Bosch's work, or in those where the architect is subjected to new roles that come from matter's behavior, as a true ecologist, or those of the anthropologist who explores human action and its detritus in the landscape, as in her project for Villajoyosa, veritable treatise of "field architecture".
