Anthroposophical Leading Thoughts Rudolf Steiner.1998 Leading thoughts and letters for members of the Anthroposophical Society (CW 26) The leading thoughts here given are meant to open up subjects for study and discussion. Points of contact with them will be found in countless places in the anthroposophic books and lecture courses, so that the subjects thus opened up can be enlarged upon and the discussions in the groups centered around them. -- Rudolf Steiner This key volume contains Rudolf Steiner's leading thoughts, or guiding principles, and related letters to members of the Anthroposophical Society. Using brief, aphoristic statements, Steiner succinctly presents his spiritual science as a modern path of knowledge, accompanied by letters that expand and contextualize the guiding thought. These 185 thoughts constitute invaluable, clear summaries of Steiner's fundamental ideas--indeed, they contain the whole of Anthroposophy. They are intended not as doctrine, but to stimulate and focus one's study and discussion of spiritual science. Anthroposophy is a path of knowledge to guide the Spiritual in the human being to the Spiritual in the universe.... Anthroposophy communicates knowledge that is gained in a spiritual way.... There are those who believe that with the limits of knowledge derived from sense perception the limits of all insight are given. Yet if they would carefully observe how they become conscious of these limits, they would find in the very consciousness of the limits the faculties to transcend them. -- Rudolf Steiner This volume is a translation of Anthroposophische Leitsätze, Der Erkenntnisweg der Anthroposophie--Das Michael-Mysterium (GA 26).

The Seven Spiritual Weapons Catherine of Bologna.2011-07-18 St. Catherine of Bologna, much venerated in her own city, has been little known outside of her native region but interest in her is now increasing. The outline of her life is clear and her own work, The Seven Spiritual Weapons, tells a good deal about her inner experiences and early years in the cloister. The introduction to this translation situates her life in the history of Ferrara and Bologna and studies how the external history of the community impinged on Catherine's own religious experience and how it was interwoven with her successful struggle against depression.

C.G. Jung Marie-Louise von Franz.1998 Both a unique biographical portrait of Jung, as a person and as an intellectual pioneer, and a history of the growth and development of one person's creative powers, this book is a facsimile edition of a volume originally published in 1975.

Necronomicon H.P. Lovecraft.2008-09-18 WIKIPEDIA says: 'H.P. Lovecraft's reputation has grown tremendously over the decades, and he is now commonly regarded as one of the most important horror writers of the 20th century, exerting an influence that is widespread, though often indirect.' His tales of the tentacled Elder God Cthulhu and his pantheon of alien deities were initially written for the pulp magazines of the 1920s and '30s. These astonishing tales blend elements of horror, science fiction and cosmic terror that are as powerful today as they were when they were first published. THE NECRONOMICON collects together the very best of Lovecraft's tales of terror, including the complete Cthulhu Mythos cycle, just the way they were originally published. It will introduce a whole new generation of readers to Lovecraft's fiction, as well as being a must-buy for those fans who want all his work in a single, definitive volume.

Alchemical Studies C.G. Jung.2014-12-18 The psychological and religious implications of alchemy were Jung's major preoccupation during the last thirty years of his life. The essays composing the present volume complete the publication of his alchemical researches, to which three entire volumes have been devoted ^DDL the monumental *Mysterium Coniunctionis*, *Psychology and Alchemy*, and *Aion* ^DDL besides shorter papers in other volumes. This collection of shorter Alchemical Studies has special value as an introduction to Jung's work on alchemy. The first study, on Chinese alchemy, marked the beginning of his interest in the subject, and was originally published in a volume written jointly with Richard Wilhelm. The other four are now published for the first time completely in English.

The Solar System Lieut.-Col. Arthur E. Powell.2018-02-27 "The aim of the present volume is to give a co-ordinated and coherent view of the "forest" rather than to describe in detail each particular "tree." The student may then, as his leisure permits, and his tastes impel, study for himself the histories of the separate trees, bushes, thickets, and so on, which, collectively, make up the gigantic forest of lives which populate the amazing world, or rather series of worlds, in which we have our being and evolve. "The work is planned in three main sections. First, the field, in which evolution takes place, is described. This involves a study of the various globes, their successive periods of activity and obscurity, the chains, and schemes of evolution. It is the form-side of our subject, a description of the places where life evolves. The second section deals with the various streams of life which are poured into the prepared field, and the method by which those streams steadily evolve and pass through the various stages or levels of attainment or growth. These processes are here dealt with in, broad outline only, giving the student a bird's-eye view of the whole stately march of events. "The third section describes in much more detail the progress of the component parts of certain of the kingdoms of life, more especially the human races and sub-races. In this section, however, as already stated, full elaboration of detail is avoided, the object being, not so much to give the student an encyclopedic mass of information, as to enable him to perceive and understand the principles determining the mighty plan in obedience to which everything is ordered in this superbly ordered universe, in which "not a sparrow falls on the ground" save by the will of the Father of the

System to which we have the honour to belong.” (Lieut.-Col. Arthur E. Powell)

Embraced by the Light Betty J. Eadie.2002-10-29 #1 NEW YORK TIMES BESTSELLER • The groundbreaking account of life after death that has become a source of comfort, inspiration, and solace to millions “I felt a surge of energy, and my spirit was suddenly drawn through my chest and pulled upward. My first impression is that I was free. . . .” On the night of November 19, 1973, following surgery, thirty-one-year-old wife and mother Betty J. Eadie died. This is her extraordinary story of the events that followed, her astonishing proof of life after physical death. She saw more, perhaps than any other person has seen before and shares her almost photographic recollections of the remarkable details. Compelling, inspiring, and infinitely reassuring, her vivid account gives us a glimpse of the peace and unconditional love that awaits us all. More important, Betty's journey offers a simple message that can transform our lives today, showing us our purpose and guiding us to live the way we were meant to—joyously, abundantly, and with love. Praise for Embraced by the Light “The most detailed and spellbinding near-death experience I have ever heard.”—Kimberly Clark-Sharp, president, Seattle International Association of Near-Death Studies

L'energia dei 7 chakra. Guida alla ricerca del benessere di corpo e mente. Ediz. illustrata E. D'Uffizi.2018

Kundalini Lilian Silburn.1988-10-18 Kundalini's power lies dormant in humans until it is awakened. The awakened Kundalini expresses the primal divine impulse and ultimately joins the individual with the divine. The development of the book parallels the development of the Kundalini within. Part One exposes the awakening and unfolding of the Kundalini; Part Two describes the piercing of the energy centers and the stages of ascent through the body; and Part Three examines Kundalini's relation to sexual expression. The book provides a deep understanding of Tantra and of the underlying purpose of Tantracism. The author carefully considers the Caryakrama practices of sexual expression as a means of awakening and controlling Kundalini. Silburn draws together passages from the Trika, Krama, and Kaula systems ranging through Abhinavagupta and Lalla and provides both translation and commentary for them. Chapters on the Chakras, the Nadis, and on mantras further elucidate the topic and lead to a forceful conclusion: Kundalini is the source of ultimate human knowledge and power.

FENG SHUI Pierfrancesco Ros, Stefano Parancola.2020-06-09 Feng Shui, the art of Wind and Water, emerged 3,000 years ago in China and gradually evolved over time as new theories and new models were introduced. While its development was driven by the primary needs of survival and

defence, it would later be enhanced with concepts relating to culture, philosophy, the climate and the territory. Thanks to the work of Pierfrancesco Ros' Accademia Italiana di Architettura Feng Shui, Feng Shui has been further expanded with ancient and modern knowledge relating to environmental well-being. Feng Shui Architecture offers the reader project guidelines for use in town planning, architecture, interior design and ecodesign. The first volume examines the key issues of the earth way and the sky way. The second and final volume, produced with the contribution of the Accademia di Psico Architettura, looks at the man way, establishing a global approach to various types of environmental analysis and design for a complete understanding of Holistic Architecture.

The Heart's Code Paul P. Pearsall.1999-03-10 A fascinating synthesis of ancient wisdom, modern medicine, scientific research, and personal experiences that proves that the human heart, not the brain, holds the secrets that link body, mind, and spirit. You know that the heart loves and feels, but did you know that the heart also thinks, remembers, communicates with other hearts, helps regulate immunity, and contains stored information that continually pulses through your body? In *The Heart's Code*, Dr. Paul Pearsall explains the theory and science behind energy cardiology, the emerging field that is uncovering one of the most significant medical, social, and spiritual discoveries of our time: The heart is more than just a pump; it conducts the cellular symphony that is the very essence of our being. Full of amazing anecdotes and data, *The Heart's Code* presents the latest research on cellular memory and the power of the heart's energy and explores what these breakthroughs mean about how we should live our lives. By unlocking the heart's code we can discover new ways of understanding human healing and consciousness and create a new model for living that leads to better health, happiness, and self-knowledge.

Architecture, Mysticism and Myth W. R. Lethaby.2019-01-09 This classic explores the symbolism of classical architecture. A milestone in relating mysticism to design, it shows the correlation between mythology and the design of St. Paul's Cathedral, the Taj Mahal, the Palace of Versailles, and other architectural masterpieces. This delightful book describes the symbolism of real-world architecture, as well as architecture described in fiction, myth and folklore. Lethaby believed that architecture reflected the macrocosm. He speculated that many of the seemingly ornamental details of classical buildings actually represented aspects of the land, the sea and the sky. This is one of those books like the *Golden Bough* or the *White Goddess* (albeit shorter and a less challenging read) that will turn you on to the mythopoetic side of reality, no matter whether you agree with its conclusions.

Prayers for Parents and Children Rudolf Steiner.2013-11-06 This collection of special prayers is a wonderful companion for parents and carers seeking to help children on their journey through childhood. There are verses for every occasion: for the mother to speak as the incarnating soul prepares to be born; for the baby after its birth; for very young and older children; as well as prayers for morning and evening, and graces to be spoken at the table. Vibrational Waters Fabio Nocentini,Lara Cox.2012-11-01 *Vibrational Waters. The Therapeutical Properties of Sacred Springs* By Fabio Nocentini This book addresses in detail the subject of vibrational waters: waters that flow in locations of high energy and that can be used in a similar way to homeopathic and Bach flower remedies to promote mental and physical wellbeing. Some of them are also called Marian Waters or Holy Waters, when they originate in a place dedicated to the Catholic faith, yet they are all considered vibrational remedies in every respect, as they have specific energy frequencies. Available in many countries, these waters can be found in shrines or temples of various religions, but also in archaeological or naturalist sites: from Lourdes to the Japanese temple of Kibune, from Fatima and Santa Lucia to Machu Picchu, from the River Ganges and River Jordan to grottos and monasteries. 50 different waters have been studied, using techniques such as dowsing and kinesiological testing. Each water is accurately described in an individual Descriptive Profile, that contains a large amount of information on the curative properties of the water for emotional and mental problems, how it can improve the related physical disturbances, its special uses (for example, application on the body or purification of the environment), the meridians (Traditional Chinese Medicine) and chakras on which it acts and the analogy with Bach flower remedies. Other chapters are dedicated to the ways of using vibrational waters, the procedure to faithfully reproduce them and the methods adopted to discover their characteristics. The final chapter reports some Summarizing Tables to find the most appropriate waters in relation to different problems. LIST OF THE 50 WATERS PRESENTED IN THE E-BOOK: Banneux (Belgium), Boa Vontade (Brazil), Shrine of Caravaggio (Italy), Chalice Well (United Kingdom), Collevalenza (Italy), Delphi (Greece), Einsiedeln (Switzerland), Ephesus (Turkey), Fatima (Portugal), Fonte delle Fate (Italy), Gallinara (Italy), River Ganges (India), Gibilmanna (Italy), River Jordan (Israel), Kibune (Japan), Saint Konrad (Germany), La Salette (France), Lichen (Poland), Loreto (Italy), Lourdes (France), Machu Picchu (Peru), Madonna del Sasso (Italy), Maranatha (USA), Maria SS. della Fontenova (Italy), Maria SS. dello Splendore (Italy), Medjugorje (Bosnia and Herzegovina), Montichiari (Italy), Notre-Dame du Folgoët (France), Notre-Dame de la Guérison (Italy), Omiwa (Japan), Oropa (Italy), Otto (Italy), Our Lady of Knock (Ireland), Shrine of Padre Pio (Italy), Sacro Speco (Italy), Saint Ann (USA), Saint Columba (United Kingdom), Saint Nectan (United Kingdom), Saint Paraskevi (USA), Saint-Sulpice (France), San Damiano (Italy), San Filippo Benizi (Italy), San Lazzaro degli Armeni (Italy), Santa Lucia (Italy), Santa Maria alla Fontana (Italy), Santa María de Guadalupe (Mexico), Santa Maria della Salute (Italy), Santa Maria in Via (Italy), Santiago de Compostela (Spain), Su Tempiesu (Italy). The book also contains: some photos of the places where the sacred springs are located; the pattern of the regular decagon to enhance and reproduce vibrational remedies; other illustrations about dowsing, kinesiological testing, aura and chakras.

The Force of Character James Hillman.2012-11-07 In his bestselling *The Soul's Code*, James Hillman restored passion and meaning to the concept of identity, arguing that each of us is born with an innate character, the daimon or spirit that calls us to what we are meant to be. Now, in *The Force of Character*, Hillman brings the idea of character full circle, offering a revolutionary new vision of life's most feared and misunderstood chapter: old age. Aging is no accident, Hillman writes. It is necessary to the human condition, intended by the soul. We become more characteristic of who we are simply by lasting into later years; the older we become, the more our true natures emerge. Thus the final years have a very important purpose: the fulfillment and confirmation of one's character. Contrary to the current genetic determinism that sees increased longevity as a wasted aberrance created by civilization, *The Force of Character* presents an explosive new thesis: The changes of old age, even the debilitating ones, have purposes and values organized by the psyche. Memory for recent events may falter, offering more place for long-term recollections. A heart condition in later life brings an opportunity to remove blockages from constricted relationships, while changes in sleep patterns allow the old to experience the profound elements of nighttime that we usually overlook. As Hillman says, Aging makes metaphors of biology. In this empowering and original work, James Hillman resurrects the ancient, widespread, and socially effective idea of the old person as ancestor, a model for the young, the bearer of a society's cultural memory and traditions. America disregards old people who aren't young-acting and young-looking. We don't realize that oldness is an archetypal state of being that can add value and luster to things we treasure, places we revere, and people's character. When we open our imaginations to the idea of the ancestor, aging can free us from convention and transform us into a force of nature, releasing our deepest beliefs for the benefit of society. For all who read it, *The Force of Character* will be a seminal, life-affirming experience.

The Wisdom of Jesus and the Yoga Siddhas Marshall Govindan.2006-01-01 This book is addressed to serious Biblical students, Christians who are interested in comparing Eastern spiritual teachings with those of Christianity, and students of spiritual Yoga, otherwise known as Classical Yoga and Tantra, as well as students and practitioners of meditation and other spiritual disciplines. The discoveries of ancient manuscripts, and their analysis by independent critical scholars using scientific methods, provide much insight into the original teachings of Jesus. The sayings of Jesus, circulated

orally during the first decades following his crucifixion are probably the most authentic source of his teachings that we have available today. These sayings are limited to a few dozen parables, aphorisms and sharp retorts, which were repeated in the oral tradition for two or three decades before they were eventually recorded by the anonymous writers of the Gospels. Remarkably, what Jesus taught through his parables and sayings exactly parallels the yogic teachings of the Yoga Siddhas. For those seeking to apply the wisdom of these sayings in their own life, the implications are clear. Seek not to know about God; instead, seek to know God through higher states of consciousness.

Art and Nationalism in Colonial India, 1850-1922 Partha Mitter.1994 Partha Mitter's book is a pioneering study of the history of modern art on the Indian subcontinent from 1850 to 1922. The author tells the story of Indian art during the Raj, set against the interplay of colonialism and nationalism. The work addresses the tensions and contradictions that attended the advent of European naturalism in India, as part of the imperial design for the westernisation of the elite, and traces the artistic evolution from unquestioning westernisation to the construction of Hindu national identity. Through a wide range of literary and pictorial sources, Art and Nationalism in Colonial India balances the study of colonial cultural institutions and networks with the ideologies of the nationalist and intellectual movements which followed. The result is a book of immense significance, both in the context of South Asian history and in the wider context of art history.
