**The Great Goddess** Jean Markale.1999-09-01 • A study of the primordial figure of the Great Goddess and her continued worship through time as shown by the myths, shrines, and sanctuaries around the world that honor this powerful symbol of creation. • A noted historian on pre-Christian societies provides an extensive worldwide listing of sites and sanctuaries associated with goddess worship. • Explores goddess worship in cultures around the world, including Native American, Egyptian, Indian, and Oriental civilizations. • Demonstrates that although her worship has sometimes been forced underground it has never disappeared. In ancient Babylon she was Anat, in Egypt, Isis and Hathor, Dana in Celtic Ireland, Rhea and Demeter in Greece, and in India, Anapurna the Provider. She is the Great Goddess, the Goddess of Beginnings, the symbol of Earth and the giver of life, the Vast Mother, who represents all the powers and mysteries of creation for early humanity. Shifting her solar association onto masculine deities and blackening those of her symbols that, like the serpent, could not be assimilated, patriarchal societies forced the preeminent power of the feminine into an obscure and subservient position. Yet, as shown by noted scholar Jean Markale, the Goddess did not simply disappear when her position was usurped, and the power she represents has been the source of continuous religious devotion from ancient times through the Middle Ages up to the present day. In looking at the plethora of myths, sites, and sanctuaries devoted to this powerful figure, The Great Goddess provides abundant evidence of the extraordinary permanence of her worship--even at the heart of those religions that tried to destroy her.

Labels and Libels Letha Böhringer,Jennifer Kolpacoff Deane,Hildo Engen.2014 This volume investigates the diverse meanings assigned to and adopted by lay religious women in northern Europe between the thirteenth and sixteenth centuries. While many outstanding studies have unearthed

the local or regional significance of such women, little comparative or transregional scholarship exists to date. Moreover, traditional emphasis on medieval ecclesiastical condemnation of beguines has obscured the extent to which their communities were intertwined with supportive local social structures. Exploring the multiplicity of contemporary perspectives in the Belgian, Dutch, French, and German contexts over time, the volume traces not only the women's relationships to various authorities and institutions, but also the specific terms used to represent and respond to 'beguines'. Illuminating the kaleidoscopic ways in which medieval people categorized, described, and engaged with such women, the collected essays also underscore the extent to which simple dualities of 'clerical' and 'lay', 'elite' and 'popular', and 'orthodox' and 'heretical' are insufficient constructs with which to map intersections of medieval gender, lay religiosity, and society. In doing so, they propose new avenues and coordinates for exploring the sociospiritual topography of medieval Europe.

The Bureau of Weights and Measures Anne-Gaëlle Balpe.2017-08 The Bureau of Weights and Measures is an amazing place. It's where everything in the world is measured to make sure it is the right size, weight, temperature and so on. The engineer Marcel Gramme does this important work. One day, Marcel's son returns home with something he can't measure - his mood. There's only one thing for it: they'll have to invent a new machine to measure it! Brought to life by Vincent Mahe's ingenious retro illustrations, this is a celebration of science and invention which also suggests there are still some things science can't measure.

The contributors critically analyze the influence of culture and history on the way apparently similar developed democracies handle the same problems; they examine the center-state relationship as it applies to EU member countries in contrast to states within the United States; they look at the challenge of transboundary, international, and global environmental problems, and how these relate to the still-emerging geopolitical reconfigurations involved in such structures as NAFTA and the EU; and they examine how transnational resources are handled in the North American and EU contexts. Randall Baker has assembled leading experts who examine significant issues for policymakers and environmentalists in North America and Western Europe.

A Brief Eternity Pascal Bruckner.2021-02-03 There is one fundamental thing that has changed in our societies since 1950: life has got longer. Over the last few generations, 20 or 30 years have been added to the duration of our lives. But after the age of 50, human beings experience a kind of suspension: no longer young, not really old, they are, as it were, weightless. It is a reprieve that leaves life open like a swinging door. The increase in life expectancy is a tremendous step forward that upsets everything: relations between generations, patterns of family life, the very meaning of our identity and our destiny. This reprieve is both exciting and frightening. The deadlines are getting shorter, the possibilities are shrinking, but there are still discoveries, surprises and upsetting love affairs. Time has become a paradoxical ally: instead of killing us, it carries us forward. What to do with this ambiguous gift? Is it only a question of living longer or living more intensely? To continue along the same path or to branch out and start again? What about remarriage, a new career? How to avoid the weariness of living, the melancholy of the twilight years, how to get through great joys and great pains? Nourished by both reflections and statistics, drawing on the sources of literature, the arts and history, this book proposes a philosophy of longevity based not on resignation but on resolution. In short, an art of living this life to the full. Is there not a profound joy in being alive at the age when our ancestors already had one foot in the grave? This book is dedicated to all those who dream of a new spring in the autumn of life, and want to put off winter as long as they can.

**All Over the Map** Ron James. 2022-11-01 NATIONAL BESTSELLER Canada's most verbally virtuosic comic makes his literary debut—and he's just as richly, gloriously funny on the page as on stage. His legion of fans—the ones who ensure his every show the length and breadth of Canada is sold out—recognize Ron James as one of the great stand-ups of his generation. His seemingly improvisational flights of fancy—no two shows are ever the same—are crammed with inventive phrase-making, feature a voluminous vocabulary, and put every word into the service of uproarious comedy. He sounds like a man born to write a great book—and now at last he has. But this is a book he has been writing for most of his life, in his head, in his car, while driving from gig to gig. In *All Over the Map*, Ron has brilliantly captured the voice that has enthralled millions on stage and screen. He also lets up a little on the usually relentless laughs (though there are still plenty of those) to reveal a new dimension to his beloved showbiz character. His hilarious reminiscences of growing up in Nova Scotia and his early struggles as an aspiring comic, his reveries on such topics as family, country, celebrity and lessons learned from myriad chance encounters will deepen our appreciation for this great comic and win him many new fans in his new role as author.

**Love Me Tender** Constance Debre. 2022-09-27 A novel of lesbian identity and motherhood, and the societal pressures that place them in opposition. The daughter of an illustrious French family whose members include a former Prime Minister, a model, and a journalist, Constance Debré abandoned her marriage and legal career in 2015 to write full-time and begin a relationship with a woman. Her transformation from affluent career woman to broke single lesbian was chronicled in her 2018 novel *Play boy*, praised by Virginie Despentes for its writing that is at once “flippant and consumed by anxiety.” In *Love Me Tender*, Debré goes on to further describe the consequences of that life-changing decision. Her husband, Laurent, seeks to permanently separate her from their eight-year old child. Vilified in divorce court by her ex, she loses custody of her son and is allowed to see him only once every two weeks for a supervised hour. Deprived of her child, Debré gives up her two-bedroom apartment and bounces between borrowed apartments, hotel rooms, and a studio the size of a cell. She involves herself in brief affairs with numerous women who vary in age, body type, language, and lifestyle. But the closer she gets to them, the more distant she feels. Apart from cigarettes and sex, her life is completely ascetic: a regime of intense reading and writing, interrupted only by sleep and athletic swimming. She shuns any place where she might observe children, avoiding playgrounds and parks “as if they were cluster bombs ready to explode, riddling her body with pieces of shrapnel.” Writing graphically about sex, rupture, longing, and despair in the first person, Debré’s work is often compared with the punk-era writings of Guillaume Dustan and Herve Guibert, whose work she has championed. As she says of Guibert: “I love him because he says I and he’s a pornographer. That seems to be essential when you write. Otherwise you don’t say anything.” But in *Love Me Tender*, Debré speaks courageously of love in its many forms, reframing what it means to be a mother beyond conventional expectations.
