Critical Studies in Indian Grammarians I Madhav Deshpande.2020-08-06 In the historical study of the Indian grammarian tradition, a line of demarcation can often be drawn between the conformity of a system with the well-known grammar of Pāṇini and the explanatory effectiveness of

that system. One element of Pāṇini's grammar that scholars have sometimes struggled to bring across this line of demarcation is the theory of homogeneity, or sāvārṇya, which concerns the final consonants in Pāṇini's reference catalog, as well as phonetic similarities between sounds. While modern Sanskrit scholars understand how to interpret and apply Pāṇini's homogeneity, they still find it necessary to unravel the history of varying interpretations of the theory in subsequent grammars. Madhav Deshpande's *The Theory of Homogeneity* provides a thorough account of the historical development of the theory. Proceeding first to study this conception in the Pāṇinian tradition, Deshpande then passes on to other grammatical systems. Deshpande gives attention not only to the definitions of homogeneity in these systems but also the implementation of the theory in those respective systems. Even where definitions are identical, the concept may be applied quite differently, in which cases Deshpande examines by considering the historical relationships among the various systems.

Educational Change Amongst English Language College Teachers in China Yulong Li. 2020-04-15 This open access book provides anthropological insights into the arduous yet rewarding journeys involved in selected TESOL teachers' pedagogical transition to teaching English for Academic Purposes (EAP) at universities in Shanghai, the largest metropolitan area in China. Applying a unique combination of ethnography and phenomenology, the book offers innovative new perspectives on teacher education research. Drawing on the latest language education theory, it outlines a practitioner-friendly approach to EAP literacy. Teacher readers will especially benefit from the case studies presented here, which provide role models for teacher change in educational reform, as well as advice on their academic careers. In addition to addressing a timely and important research gap on EAP teachers in non-Western countries, the book is the ideal choice for readers

interested in an update on English education in China.

Academic Ableism Jay T. Dolmage.2017-11-22 Academic Ableism brings together disability studies and institutional critique to recognize the ways that disability is composed in and by higher education, and rewrites the spaces, times, and economies of disability in higher education to place disability front and center. For too long, argues Jay Timothy Dolmage, disability has been constructed as the antithesis of higher education, often positioned as a distraction, a drain, a problem to be solved. The ethic of higher education encourages students and teachers alike to accentuate ability, valorize perfection, and stigmatize anything that hints at intellectual, mental, or physical weakness, even as we gesture toward the value of diversity and innovation. Examining everything from campus accommodation processes, to architecture, to popular films about college life, Dolmage argues that disability is central to higher education, and that building more inclusive schools allows better education for all.

[A Casebook of Inclusive Pedagogical Practices for Second Language Teacher Education](#) Amy B.

Gooden.2021-02-05 This casebook is designed to broaden L2 teacher knowledge, thinking, and practice with regard to making language and learning accessible to all students. Language teachers are especially accountable for promoting socially just, inclusive, decolonizing, and multicultural pedagogical practices and curricula; at this critical juncture in history, this book is intended to raise language teachers' awareness of the importance of critically examining and reflecting on the intersectionality of language education and inclusive pedagogical practices. Language teacher educators can use this text in their courses and workshops to build on and extend theoretical foundations, while making critical practical connections. The 12 cases presented here cover a range of inclusive language teaching and learning issues that practitioners are likely to face in their respective teaching contexts. All the cases are based on real-life dilemmas faced by practitioners in the field and have been informed by discussions with pre-service and in-service student teachers. The cases represent a range of classroom contexts: K-12 ESL/sheltered English immersion, world language, and post-secondary EAP; private, charter, and public schools; and urban and suburban settings. The cases are accompanied by pre- and post-problem sets and in-class discussion questions. This volume applies the case-based pedagogy often used in some fields to that of second language teacher education to encourage pre- and in-service teachers to grapple with the types of dilemmas and decisions teachers confront every day. The cases here are not intended as exemplars of practice to be emulated or illustrations of existing theories; instead, they are problem-based narratives that resist clear-cut answers or solutions and remain open ended to stimulate further investigation and reflection. The goal is to mimic the complexity of the classroom where teachers confront a range of pedagogical and learning challenges, and the ensuing experience requires critical, real-time decisions that demand keen professional discernment.

Academic Writing Genres: Essays, Reports & Other Genres Sheldon Smith. 2019-04-19 Overview of EAP Foundation: Academic Writing Genres Students at university are expected to write in a range of forms, from essays to reports and other genres. EAP Foundation: Academic Writing Genres, part of the EAP Foundation series of books, examines frequently encountered forms of academic writing, identifying common features such as structure and language, and providing clear models, in order to scaffold learning and provide a way for students to master each one. Contents of the book The first section of the book looks in detail at essay writing, the most common genre for academic study. It begins by looking at the content and structure of a typical essay, then looks at different essay types,

namely comparison and contrast, cause and effect, problem-solution, classification, argument, discussion, definition, process, exemplification, and description. The second section of the book looks at report writing, the next most common genre for academic study, beginning with an overview of report writing, followed by a detailed look at the two most common report types, namely laboratory reports and business reports. Other report types are also covered. The third section covers other genres which do not fit into the essay or report category. They are posters, reflective writing, book reviews, research proposals, and theses/dissertations. The fourth and final section considers genre elements. These are types of writing which can form part of other genres, but can also be stand-alone pieces of writing, and need looking at in detail. They are abstracts and literature reviews. About the EAP Foundation series The EAP Foundation series of books is written for students who are preparing for, or currently studying at, a Western university, including those on foundation or pre-sessional courses. The units focus on presenting practical information in a straightforward and readable manner. There are additional tips in each unit to help students perform well, and numerous 'In short' boxes which give a summary of the main points, for quick previewing and reviewing of the unit. Each unit contains a checklist, which can be used to give feedback on writing (self or peer). Each unit concludes with a range of exercises to check comprehension and deepen understanding. Full answers to exercises are provided at the end of the book. All books in the series come with free additional online resources, accessed via the code given in the Appendices. In short Whatever your course of study, this book will provide an indispensable guide to all forms of writing you will encounter.

Access EAP Sue Argent,Olwyn Alexander.2014-02-27 Access EAP: Frameworks Access EAP: Frameworks is nominated for the Excellence in Course Innovation award at the 2014 ELTons.

Written by the authors of the highly successful EAP Essentials, the second part of this two-level course teaches academic language and competence to Upper Intermediate to Advanced learners. Access EAP: Frameworks is designed for students who are about to enter higher education studies in an English-speaking institution. The course is based on real student life and prepares students for the tasks they will face when studying in an English-medium higher education institution. The reader follows students at university as they have discussions, listen to lectures, read texts, work on assignments and make choices about how to study. The book builds language and competence across key academic themes such as academic integrity, argument and research, applying the concept of Graduate Attributes – skills, personal qualities and understanding that are developed through the higher education experience – to frame activities and tasks. The book has ten units, each framed around a key academic theme. Within each unit, the first section introduces the theme and subsequent sections develop the associated concepts, language and competence further or in a different context. The units are free standing, but within them the language skills and study competence are integrated, reflecting the reality of academic study. Key academic words are listed by the texts in which they are presented, and regular tasks help understanding, support learning and practise using these key words. Students will learn the important language and grammar patterns needed for understanding and producing academic texts. They will also discover essential aspects of academic study, including the ability to read critically and integrate ideas from sources into essays or reports. See accompanying Course Book.

Power and Meaning Making in an EAP Classroom Christian W. Chun. 2015-01-13 This book examines how critical literacy pedagogy has been implemented in a classroom through a year-long collaboration between the author (a researcher) and an EAP teacher. It details the teacher's introduction to functional grammar and accompanying critical literacy approaches to EAP, and her growing critical language and discourse awareness of power and meaning making in the classroom. The book traces her evolving classroom practices and addresses how powerful discourses in social circulation found their way into the classroom via the curriculum materials the students encountered. The main themes of the book are threefold: narrowing the divide between critically-oriented researchers and practitioners; how critical literacy is actually implemented in a teacher's classroom; and how people (students and the teacher) engage in and with the representations and discourses of the everyday world that include neoliberal globalization, racial and cultural identities, and consumerism. It will be of interest to both researchers and practitioners for the ethnographic

and pedagogical issues it raises as well as its accessible theoretical frameworks illustrated by relevant classroom interactional data, mediated, multimodal and critical discourse analysis. *Cambridge Academic English C1 Advanced Class Audio CD and DVD Pack* Martin Hewings, Craig Thaine. 2012-07-19 A three-level (B1+ to C1) integrated skills course for higher education students at university or on foundation courses. The Future of Teaching English for Academic Purposes Tijen Akşit, Hande Işıl Mengü. 2020-12-01 As a result of current global and international forces, teaching English for academic purposes (EAP) is going through the most dynamic period in its rather short history. The internationalization of higher education, English further solidifying its role as the lingua franca every single day, and the increasing number of higher education institutions around the globe opting for instruction in the medium of English (EMI) are all contributing forces behind this book. The text disentangles the conflicting views and beliefs regarding the standards, provision and practices of EAP. Across its chapters, it closely looks at the world of EAP through the lenses of academic practice, learners, curriculum development, program implementation, and teaching and assessment practices. This book will guide all stakeholders of EAP settings to better understand ways in which

research and teaching interact, and inform each other from a number of vital and relevant perspectives.

Developing Educators for The Digital Age Paul Breen.2018-02-21 Evaluating skills and knowledge capture lies at the cutting edge of contemporary higher education where there is a drive towards increasing evaluation of classroom performance and use of digital technologies in pedagogy. *Developing Educators for the Digital Age* is a book that provides a narrative account of teacher development geared towards the further usage of technologies (including iPads, MOOCs and whiteboards) in the classroom presented via the histories and observation of a diverse group of teachers engaged in the multiple dimensions of their profession. Drawing on the insights of a variety of educational theories and approaches (including TPACK) it presents a practical framework for capturing knowledge in action of these English language teachers - in their own voices - indicating how such methods, processes and experiences shed light more widely on related contexts within HE and may be transferable to other situations. This book will be of interest to the growing body of scholars interested in TPACK theory, or communities of practice theory and more widely anyone concerned with how new pedagogical skills and knowledge with technology may be incorporated in better practice and concrete instances of teaching.
