The Cherokee Project Tennessee Valley Authority.1946
Cherokee is the tenth major hydro project authorized for construction of the Tennessee Valley Authority and the seventh to be completed. The dam is located at mile 52.3 on the Holston River which unites with the French Broad River just above Knoxville to form the Tennessee River. This main tributary project was the first of several TVA dams authorized under World War II emergency program and constructed on an emergency basis. Although operated primarily for power during the war emergency, Cherokee forms an integral unit in the overall system of water control projects in the Tennessee Valley, and under normal multiple purpose operation aids in reducing main-river flood stages and in stabilizing low water flows.

The Reader's Companion to American History Eric Foner,John A. Garraty.2014-01-14 An A-to-Z historical encyclopedia of US people, places, and events, with nearly 1,000 entries “all equally well written, crisp, and entertaining” (Library Journal). From the origins of its native peoples to its complex identity in modern times, this unique alphabetical reference covers the political, economic, cultural, and social history of America. A fact-filled treasure trove for history buffs, *The Reader’s Companion* is sponsored by the Society of American Historians, an organization dedicated to promoting literary excellence in the writing of biography and history. Under the editorship of the eminent historians John A. Garraty and Eric Foner, a large and distinguished group of scholars, biographers, and journalists—nearly four hundred contemporary authorities—illuminate the critical events, issues, and individuals that have shaped our past. Readers will find everything from a chronological account of immigration; individual entries on the Bull Moose Party and the Know-Nothings as well as an article on third parties in American politics; pieces on specific religious groups, leaders, and movements and a larger-scale overview of religion in America. Interweaving traditional political and economic topics with the spectrum of America’s social and cultural legacies—everything from marriage to medicine, crime to baseball, fashion to literature—the Companion is certain to

engage the curiosity, interests, and passions of every reader, and also provides an excellent research tool for students and teachers.

Fixing Broken Cities John Kromer.2023-03-28 *Fixing Broken Cities* explores the planning, execution, and impact of urban repopulation and investment strategies that were launched in the wake of two crises: late twentieth-century economic disinvestment and the outbreak of the COVID-19 pandemic. Because past practices could no longer serve as a reliable guide to future outcomes in this uncertain environment, any new initiatives had to involve a significant level of risk-taking. Based on the author’s experience as a policymaker and practitioner, this book provides detailed insights into the origins and outcomes of these high-risk strategies, along with an explanation of why they succeeded or failed. This new edition examines policy initiatives from a fresh perspective, based on an awareness that (1) real estate ventures are best evaluated over the long term, rather than shortly after the completion of construction activity; (2) policies that had guided the allocation of public-sector resources during past decades of urban disinvestment need to be reconsidered in light of the economic resurgence that many American cities are now experiencing; and (3) the places described in this book are representative of other municipalities, of all kinds, where the pandemic has led to a fundamental rethinking of the relationship between home and workplace. A key theme of the book is equitable development, the question of who should benefit from the allocation of scarce public capital, and what investment policies are most likely to support this principle over the long term. The author provides realistic guidance about pursuing the

best opportunities for improvement in highly disadvantaged, resource-starved urban areas, with reference to several key issues that are pressing concerns for members of urban communities: enlivening downtown and neighborhood commercial areas, stabilizing and strengthening residential communities, eliminating industrial-age blight, and providing quality public education options. This new edition will be of great use to planning, housing and community development professionals, both regionally and nationally, as well as to students on Urban Politics and Planning courses.
