The Emergence of Culture Philip Chase.2006-09-27 This book describes the emergent nature of human culture, based on the human ability to create and pass on social codes through instruction and example. It proposes hypotheses to explain how a phenomenon that is potentially maladaptive for individuals could have evolved, and to explain why culture plays such a pervasive role in human life. It then reviews the primatological, fossil, and archaeological data to test these hypotheses.

Prehistoric Figurines Douglass Bailey.2005-11-03 Fully illustrated, Prehistoric Figurines brings a radical new approach to one of the most exciting, but poorly understood artefacts from our prehistoric past. Studying the interpretation of prehistoric figurines from Neolithic southeast Europe, Bailey introduces recent developments from the fields of visual culture studies and cultural anthropology, and investigates the ways in which representations of human bodies were used by the pre-historic people to understand their own identities, to negotiate relationships and to make subtle political points. Bailey examines four critical conditions: * figurines as miniatures * figurines as three-dimensional representations * figurines as anthropomorphs * figurines as representations. Through these conditions, the study travels beyond the traditional mechanisms of interpretation and takes the debate past the out-dated interpretations of figurines as Mother-Goddess as Bailey examines individual prehistoric figurines in their original archaeological contexts and views them in the light of modern exploitations of the human form. Students and scholars of History and Archaeology will benefit immensely from Bailey's close understanding of the material culture and pre-history of the Balkans.

The Yankee Comandante Gani Jakupi.2019-06-12T00:00:00+02:00 This is the true story of William Alexander Morgan, the Yankee Comandante, an idealistic young American who found fame fighting in the Cuban Revolution. The blond American didn't speak a word of Spanish, but he felt his rightful place was among the guerilleros of the Escambray Mountains, fighting to bring down dictator Fulgencio Batista. Morgan was among Havana's liberators in 1959, an act that led FBI director Edgar Hoover to strip him of his American citizenship. There was a time when Morgan was international front-page news, on a level with Che Guevara. Yet el comandante yanqui has largely disappeared from the history of the Cuban Revolution. Author Gani Jakupi recounts a forgotten tale from one of the greatest military and political events of the 20th century.

The Ghost Rider Ismail Kadare.2010-05-20 An old woman is awoken in the dead of night by knocks at her front door. The woman opens it to find her daughter, Doruntine, standing there alone in the darkness. She has been brought home from a distant land by a mysterious rider she claims is her brother Konstandin. But unbeknownst to her, Konstandin has been dead for years. What follows is chain of events which plunges a medieval village into fear and mistrust. Who is the ghost rider?

Insurgent Public Space Jeffrey Hou.2010-04-21 Winner of the EDRA book prize for 2012. In cities around the world, individuals and groups are reclaiming and creating urban sites, temporary spaces and informal gathering places. These 'insurgent public spaces' challenge conventional views of how urban areas are defined and used, and how they can transform the city environment. No longer confined to traditional public areas like neighbourhood parks and public plazas, these guerrilla spaces express the alternative social and spatial relationships in our changing cities. With nearly twenty illustrated case studies, this volume shows how instances of insurgent public space occur across the world. Examples range from community gardening in Seattle and Los Angeles, street dancing in Beijing, to the transformation of parking spaces into temporary parks in San Francisco. Drawing on the experiences and knowledge of individuals extensively engaged in the actual implementation of these spaces, Insurgent Public Space is a unique cross-disciplinary approach to the study of public space use, and how it is utilized in the contemporary, urban world. Appealing to professionals and students in both urban studies and more social courses, Hou has brought together valuable commentaries on an area of urbanism which has, up until now, been largely ignored.

Infinite Words Zane.2015-03-17 New York Times bestselling author Zane shares the lessons she's learned over the years about successful book publishing, filmmaking, and TV production. Drawing on decades of experience as a mega-bestselling novelist, successful publisher, and executive producer of two TV shows, Zane offers practical advice on writing and publishing to aspiring writers across all media, including books, TV, and film. With her signature wit and straightforward style, Zane tells it like it is, emphasizing hard work, discipline, and commitment as the keys to a successful writing career. Part One covers the writing and creative process, including how to define your writing style, how to outline a story, how to develop characters, typical mistakes to avoid, writing for your medium, and the revision process. Part Two covers the book publishing process, from finding a literary agent who best understands your work, to getting your work in the hands of publishers, to building an audience for your work. Zane also shares wisdom from her early years as a self-published author for those seeking an alternative to traditional publishing. Infinite Words isn't just a reference guide; it's an essential companion for writers facing the unique challenges and opportunities of today's ever-evolving world.

The Palace of Dreams Ismail Kadare.1998 When it was first published in the author's native country, THE PALACE OF DREAMS was immediately banned. The novel revolves around a secret ministry whose task is not just to spy on its citizens, but to collect and interpret their dreams. An entire nation's unconscious is thus tapped and meticulously laid bare in the form of images and symbols of the dreaming mind.

Baudolino Umberto Eco.2011-05-15 BAUDOLINO gravita em torno dos prazeres da corte de Federico Hohenstaufen, conhecido como Barbarossa, à época da Terceira Cruzada. A história engloba justamente o período entre 1152 e 1204, começando com a ascensão de Barbarossa ao trono e terminando com a conquista de Constantinopla pela temida ordem dos cavaleiros templários. A trama é protagonizada por Baudolino - adolescente, criativo e mentiroso que dá título à obra - e Niceta Coniate, personagem inspirado em um historiador e orador que viveu na corte de Constantinopla. A narrativa retrocede, enquanto Baudolino conta a Niceta suas aventuras e desventuras, numa mistura de fantasia e realidade, História e faz-de-conta. Tudo isso temperado por inúmeras situações cômicas. No intervalo, Eco embaralha os seus personagens inventados e produz o mais recorrente efeito de seu texto: interferir em acontecimentos históricos conhecidos por meio de atos ou circunstâncias vividas pelos personagens fictícios.

Digital citizenship education handbook Janice Richardson,Elizabeth Milovidov.2019-02-25 Being online, well-being online, and rights online: information, tools and good practice Digital citizenship competences define how we act and interact online. They comprise the values, attitudes, skills and knowledge and critical understanding necessary to responsibly navigate the constantly evolving digital world, and to shape technology to meet our own needs rather than to be shaped by it. The Digital citizenship education handbook offers information, tools and good practice to support the development of these competences in keeping with

the Council of Europe's vocation to empower and protect children, enabling them to live together as equals in today's culturally diverse democratic societies, both on- and offline. The Digital citizenship education handbook is intended for teachers and parents, education decision makers and platform providers alike. It describes in depth the multiple dimensions that make up each of ten digital citizenship domains, and includes a fact sheet on each domain providing ideas, good practice and further references to support educators in building the competences that will stand children in good stead when they are confronted with the challenges of tomorrow's digital world. The Digital citizenship education handbook is consistent with the Council of Europe's Reference Framework of Competences for Democratic Culture and compatible for use with the Internet literacy handbook.

Tests and Teaching Quality National Research Council, Board on Testing and Assessment, Committee on Assessment and Teacher Quality. 2000-04-14 Improving the quality of teaching in elementary and secondary schools is now high on the nation's educational policy agenda. Policy makers at the state and federal levels have focused on initiatives designed to improve the abilities of teachers already in schools and increase the numbers of well-qualified teachers available to fill current and future vacancies. Tests and Teaching Quality is an interim report of a study investigating the technical, educational, and legal issues surrounding the use of tests for licensing teachers. This report focuses on existing tests and their use.

Rirkrit Tiravanija Rirkrit Tiravanija, Hans Ulrich Obrist. 2010 In these conversations, which took place between 1993 and 2008, Rirkrit Tiravanija takes Hans Ulrich Obrist rowing on a lake and on trips in his car - an accurate reflection of this fascinating artist's dynamic working method. Tiravanija talks enthusiastically about his beginnings as an artist, the people and things that have influenced him, past and present projects and his various working methods. As such, the reader is presented with a detailed picture of the artist and his art, which deals with complex themes such as space, time and ownership.

The Anti-Emile H. S. Gerdil, Giacinto Sigismondo Gerdil. 2011 The idea of translating Gerdil into English is brilliant, the translation is very good and the introduction of William Frank precise and inspiring. ... Rousseau proposes a complete break with tradition. A new man will arise who is severed from the whole heritage of the past. With him the history of mankind begins anew. In one sense we have here a transposition in the field of philosophy of education of the Cartesian cogito. The subject begins with himself. To this philosophical (and political) project Gerdil opposes the idea of tradition. We have not made ourselves. Our parents have procreated us. The parents do not only procreate their offspring, they also introduce them into the natural and social reality, that is they educate. No education is possible without a lively dialogue with history and society. Since the beginning man stands in a close relationship to others, is made for the human society. ... In these our times one form of modernity (that based largely on Rousseau) is collapsing and the mood of the day is an unclear postmodernity that in some of its versions could well be a return to barbarianism. All the more important is then that another form of modernity be rediscovered and brought to the attention of the American public. - Rocco Buttiglione, University of St. Pius V, Rome A timely translation of a compelling 18th century critique of Rousseau by the neglected Italian author, Hyacinth S. Gerdil (1718-1802). Gerdil's Anti-Emile may have been written as a critique of Rousseau's Emile, but it can equally be read as a critique of the philosophy embraced by the American educational establishment. Through the influence of John Dewey, Rousseau came to inform much of the educational theory regnant in the United States, with disastrous consequences, now acknowledge by nearly all. In a valuable preface to his translation, Professor Frank, drawing upon his experience both here and abroad, not only places Emile in context, but defends Gerdil's time-transcending, classical view of education against its modern detractors. Gerdil, Frank tells us, addressed his Anti-Emile to elders responsible for education, be they parents, teachers, or political authorities, who might find themselves swayed by the powerful rhetoric of Rousseau's Emile. The same may be said of this translation and its informative prefatory material, for it is clearly a study that will be valued by anyone interested in principled education. - Jude P. A World History of Art Hugh Honour, John Fleming. 2005 Over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage. From our paleolithic past to our digitised present, every continent and culture is covered in an articulate and well-balanced discussion. In this Seventh Edition, the text has been revised to embrace developments in archaeology and art historical research, while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years, providing a new perspective on the latest developments. The insight, elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations, half of which are now in colour. These images, together with the numerous maps and architectural plans, have been chosen to represent the most significant chronological, regional and individual styles of artistic expression.

Eric Fischl Eric Fischl, Jean-Christophe Ammann. 2009 The paintings in Eric Fischl's Krefeld Project depict a middle-aged couple in the throes of a long-term relationship, isolated but together, bored but bound. Made from photographs of hired models who inhabited a rented house for four days while the artist snapped more than 2,000 pictures, the paintings show the couple before and after sex, in the shower and brushing teeth, on the toilet and on the phone. According to essayist and poet Geoffrey Young, Fischl shows flickers of desire, but more frequently he notices the ways in which a couple exists in the same room, without contact. Hopperesque in their silence, the pictures are so confidently and technically alive that even these models fronting as a couple are redeemed in their uncertainty, acknowledged in their isolation, encouraged in their effort to spark the flint to feel it all again, the passion that is only rarely given to them.

Art Across Time Laurie Adams. 1999 Book Description: 30,000 years of art -- one engaging guide. Can't tell a Manet from a Monet? Not sure why you should want to? Let scholar and author Laurie Adams introduce you to the story behind the history of art. Based on her art survey textbook of the same name, this edition of Art Across Time serves as an entertaining and readable introduction to the history of art. Providing biographical notes and historical context, Adams has created a vivid narrative. Each illustration has been carefully reviewed for color accuracy, and the large percentage of full-page reproductions presents a rare opportunity for readers to examine details of brushwork and texture that are lost in smaller images. All in all, this colorful book is an ideal gift that will compliment any library and interest any reader.

Avatars of the Word James Joseph O'Donnell. 1998 In Avatars of the Word, O'Donnell reinterprets today's communication revolution through a series of refracted comparisons with earlier revolutionary periods: from the papyrus scroll to the codex and from copied manuscript to print.

Chronicle in Stone Ismail Kadare. 2011-07-01 Masterful in its simplicity, Chronicle in Stone is a touching coming-of-age story and a testament to the perseverance of the human spirit. Surrounded by the magic of beautiful women and literature, a boy must endure the deprivations of war as he suffers the hardships of growing up. His sleepy country has just thrown off centuries of tyranny, but new waves of domination inundate his city. Through the boy's eyes, we see the terrors of World War II as he witnesses fascist invasions, allied bombings, partisan infighting, and the many faces of human cruelty—as well as the simple pleasures of life. Evacuating to the countryside, he expects to find an ideal world full of extraordinary things, but discovers instead an archaic backwater where a severed arm becomes a talisman and deflowered girls mysteriously

vanish. Woven between the chapters of the boy's story are tantalizing fragments of the city's history. As the devastation mounts, the fragments lose coherence, and we perceive firsthand how the violence of war destroys more than just buildings and bridges.

Reintegrating Extremists Sarah V. Marsden.2016-11-25 This book presents an in-depth analysis of how statutory and third sector organisations have faced the challenge of dealing with former 'terrorists'. Offering a theoretically robust, empirically rich account of work with ex-prisoners and those considered 'at risk' of involvement in extremism in the United Kingdom, Marsden dissects the problems governments are facing in dealing with the effects of 'radicalisation'. Increasingly, governments are struggling with the challenge of dealing with those who have become involved in extremism, and yet, comparatively little is known about how and why people renounce violence. Nor are existing efforts to 'deradicalise' extremists well understood. Arguing that reintegration is a more appropriate framework than 'deradicalisation', Marsden looks in detail at the mechanisms by which people can be supported to move away from extremism. By drawing out implications for policy, practice and academic debates around disengagement from radical subcultures, this book makes a significant contribution to an issue only likely to grow in importance for scholars of criminological theory, terrorism and justice.

Broken April Ismail Kadare.1990 Two destinies intersect in this novel -- that of Gjorg, a young mountaineer who has just killed a man in order to avenge the death of his older brother, and who expects to be killed himself in keeping with the code of the highlands; and that of a young couple who have come to study the age-old customs, including the blood feud.

The Autobiography of the People in Verse Ismail Kadare.1987

Designing the School Curriculum Peter S. Hlebowitsh.2005 Designing the School Curriculum takes a practical, step-by-step approach, giving students the thorough grounding in the process that leads to confident and effective practitioners. The author emphasizes the discretionary judgment of the individual teacher and acknowledges that the curriculum design process is completed only in the unique and spontaneous learning exchanges between students and teachers. Practical ideas on the formation of school purposes, the design of school-wide experiences, effective implementation, and the creation of responsive evaluative mechanisms help students to fulfill the goal of the text to design an authentic and effective curriculum. After an introductory chapter examining the role of the teacher in the design process and two brisk chapters leading students through the theoretical foundations of curriculum development, the text launches into the curriculum design process, giving a close look to each element. Hlebowitsh makes a valuable contribution to the field with this new text, offering a contemporary treatment of classic curriculum design theory and, most importantly, equipping students to engage in effective curriculum design themselves.

The Leader Cult in Communist Dictatorships B. Apor,J. Behrends,P. Jones,E. Rees.2004-10-09 The first book to analyze the distinct leader cults that flourished in the era of 'High Stalinism' as an integral part of the system of dictatorial rule in the Soviet Union and Eastern Europe. Fifteen studies explore the way in which these cults were established, their function and operation, their dissemination and reception, the place of the cults in art and literature, the exportation of the Stalin cult and its implantment in the communist states of Eastern Europe, and the impact which de-Stalinisation had on these cults.

The Europeanization of National Policies and Politics of Immigration T. Faist,A. Ette.2007-02-28 The Europeanization of National Policies and Politics of Immigration is the first cutting-edge volume presenting a comparative empirical investigation on the impact of the EU on migration policy at national level. Revealing striking differences, this collection examines traditional member states, new member states as well as non-member states.

Inclusive Teaching J. Michael Peterson,Mishael Marie Hittie.2010 The second edition of Inclusive Teaching takes a uniquely different approach. Organized around the profound question, "How can we create schools and classrooms where vastly diverse students learn well together?" the text strives to provide a myriad of creative answers to this question for our future teachers--leaders of the classroom impacting positive change for tomorrow's schools. Centrally focused on how to create an effective school for all learners--students with mild to severe disabilities, gifted and talented students, racially and culturally diverse students, students with differing sexual preferences and more--the authors have offered strategies for including and supporting all students to learn effectively in the general education classroom. The text synthesizes a vast array of strategies from many different sources, including workshop approaches to learning, differentiated instruction, universal design for learning, multicultural education, positive behavior support, anti-bullying practices, reducing the learning gap between minority and majority groups, and more. Clearly organized around the way in which teachers think, from arranging the physical classroom to dealing with the social-emotional needs of students, to designing effective, multi-level, differentiated instruction, the text remains positively devoted to teaching change and impacting the future of all students learning together.

The Myth of Lasgush Dr Kapurani,Anastas Kapurani.2004 "That which puzzled and fascinated me whenever I met Lasgush was this sensation of the impossible. It was impossible to get on with him as you did with others. The moment you were at him, or rather, the moment you knocked at his door, suddenly all became another thing. There was another logic, another code, other words, wrapped up in another meaning. .when you

went to Lasgush's, it was more than going abroad. You believed you dropped somewhere beyond our time, beyond the everyday way of looking at things. One more step and it looked as if you would cross the borders of life and would find yourself in Dante's nothingness. .He was unpredictable, corrosive like acid, creepy, startling. His laugh was like as if beyond our life, mirthless, and his sadness had no grief. As for his anger, it was such as well, luxurious, cold, whereas his contempt was radiating from afar, as if adorned with silver.' (Kadare, In My Studio. pp 207, 208, 209. My translation) -All this Saussurean lava of meaning has its own matchless 'crater' from where it erupts and reaches us time and again, endlessly. Lasgush's Word has its own individual suspension, chiselled by the hand of a true master. It is breathlessly succinct and, in all probability, on a par with the best ever created. Lasgush says that his Word is: 'Mystery that burns in a thread of lightning.' (My Fiery Tongue)
