**Cost Accounting (For B. Com, Sem.4, Delhi University)** M.N. Arora.2013 This book has been written specifically for the students of BCom (Hons) of the University of Delhi in accordance with its prescribed syllabus and that of School of Open Learning. Its basic features are the same as the mother book Cost Accounting—Principles and Practice, which is a UGC recommended text for the last many years. Thus, it gives a thorough grounding in cost concepts, cost behaviour, and costing methods. The subject matter has been organized on ‘first things first’ basis to sustain the interest of the students. Every discussion involving conceptual difficulties is immediately followed by a numerical example.

**Practice Manual of Cost Accounting** Prof. M.L. Agarwal & Dr. K.L. Gupta.2021-01-07 For a thorough grasp of the subject of Cost Accounting, adequate practice in the working out of numerical problems is as much an essential prerequisite as the understanding of its fundamental principles, concepts and conventions. The present book is specially designed to enable the students to acquire the practice by going through a wide, variety of carefully selected, adapted and designed problems with complete solutions and detailed workings and notes. The book contains more than five hundred Problems with full solutions and explanatory notes. Questions have been taken from the latest

examination papers of the various Universities and Professional Bodies. The book is very useful to the students of B.Com., M.Com. of Various Universities and Intermediate and Final Examination of Institute of Chartered Accountants of India, I.C.W.A., Institute of Company Secretaries and Indian Institute of Bankers.

Management and Cost Accounting Colin Drury.2004 The market-leading European text on management accounting and comprehensive authority on all aspects of the subject has been streamlined and substantially redesigned in its 6th edition to make it even more suitable for the needs of today's student. The aim of the new edition is to explain the principles involved in the design and evaluation of management and cost accounting information systems. The emphasis in the book is on management accounting systems that will be used for internal decision-making purposes within an organisation, however, cost accounting systems for external reporting are also comprehensively covered. It has been brought up to date with the latest developments in the subject. Having been made stronger pedagogically with the addition of the answers to the questions and more real-world mini cases, the text brings home the relevance of the subject matter to the real world of business.
