1633 David Weber, Eric Flint. 2002-08-01 AMERICAN FREEDOM AND JUSTICE VS. THE TYRANNIES OF THE SEVENTEENTH CENTURY The new government in central Europe, called the Confederated Principalities of Europe, was formed by an alliance between Gustavus Adolphus, King of Sweden, and the West Virginians led by Mike Stearns who were transplanted into 17th-century Germany by a mysterious cosmic accident. The new regime is shaky. Outside its borders, the Thirty Years War continues to rage. Within, it is beset by financial crisis as well as the political and social tensions between the democratic ideals of the 20th-century Americans and the aristocracy which continues to rule the roost in the CPE as everywhere in Europe. Worst of all, the CPE has aroused the implacable hostility of Cardinal Richelieu, the effective ruler of France. Richelieu has created the League of Ostend in order to strike at the weakest link in the CPE's armor—its dependence on the Baltic as the lifeline between Gustav Adolf's Sweden and the rest of his realm. The greatest naval war in European history is about to erupt. Like it or not, Gustavus Adolphus will have to rely on Mike Stearns and the technical wizardry of his obstreperous Americans to save the King of Sweden from ruin. Caught in the conflagration are two American diplomatic missions abroad—Rebecca Stearns' mission to France and Holland, and the embassy which Mike Stearns sent to King Charles of England headed by his sister Rita and Melissa Mailey. Rebecca finds herself trapped in war-torn Amsterdam; Rita and Melissa, imprisoned in the Tower of London. And much as Mike wants to transport 20th-century values into war-torn 17th-century Europe by Sweet Reason, still he finds comfort in the fact that Julie, who once trained to be an Olympic marksman, still has her rifle . . . When Grantville, West Virginia was transported back to the year 1631 -- in the middle of the Thirty Years' War, no less -- many things happened. Many opportunities arose. It's said that a rising tide lifts all boats. Perhaps not quite as high as the Barbie Consortium rose, however. A cabal of ten- to twelve-year-old girls? They aren't twelve anymore. And they gave up playing with dolls some years ago, when they sold them all and started an investment consortium. A consortium that did quite well. The Barbie Consortium hits Vienna. The War God's Own David Weber. 1999-02-01 THE ROAD HOME Bahzell Bahnakson of the Horse Stealer hradani never wanted to be a champion of the War God. Unfortunately, Tomandk had insisted. Even more unfortunately, Bahzell's own sense of responsibility hadn't let him say, No. Which was how he found himself in the Empire of the Axe, where even people who didn't actively hate hradani regarded them with suspicion and fear. Of course, that was only the start of his problems. Next, there was the Order of Tomanak, many of whom were horrified by the notion that their deity had chosen a hradani as a champion . . . and intended to do something about it. And assuming he survived that, he had to go home—across three hundred leagues of bitter winter snow—to face a Dark God who threatened to destroy all hradani. Throw in the odd demon and brigand ambush, and add a powerful neighboring kingdom with no intention of letting Bahzell (or anyone else) save his people, and you have the makings of a really bad day. But one thing Bahzell has learned a champion of Tomanak does what needs doing. And the people in his way had better move. Coping with Life during the Thirty Years' War (1618-1648) Sigrun Haude. 2021-08-30 At its core, Coping with Life during the Thirty Years' War (1618-1648) explores how people tried to survive the Thirty Years' War, on what resources they drew, and how they attempted to make sense of it. A rich tapestry of stories brings to light contemporaries' trauma as well as women and men's unrelenting initiatives to stem the war's negative consequences. Through these close-ups, Sigrun Haude shows that experiences during the Thirty Years' War were much more diverse and often more perplexing than a straightforward story line of violence and destruction can capture. Life during the Thirty Years' War was not a homogenous vale of gloom and doom, but a multifaceted story that was often heartbreaking, yet, at times, also uplifting.

1634: The Bavarian Crisis Eric Flint, Virginia DeMarce. 2009-06-30 1. The latest in the New York Times best-selling series. 2. The Ring of Fire series is the most popular and best-selling alternate history series for the past six years and is still growing. 3. Ads in Locus, more 4. Full-color brochure. 5. Special kit mailing 6. Teaser chapter for Grantville Gazette V and The Stoneholding. 7. Co-op available. The Thirty Years War continues to ravage 17th century Europe, but a new force is gathering power and influence: the Confederated Principalities of Europe, an alliance between Gustavus Adolphus, King of Sweden, and the West Virginians from the 20th century led by Mike Stearns who were hurled centuries into the past by a mysterious cosmic accident. The CPE has the know-how of 20th century technology, but needs iron and steel to make the machines. The iron mines of the upper Palatinate were rendered inoperable by wartime damage, and American know-how is needed on the spot to pump them out and get the metal flowing again—a mission that will prove more complicated than anyone expects. In the maelstrom that is Europe, even a 20th century copy of the Encyclopedia Britannica can precipitate a crisis, when readers learn of the 1640 Portuguese revolt, a crisis that will involve Naples as well. Another factor: Albanian exiles in Naples, inspired by the Americans, are plotting to recover lost Albanian turf, which will precipitate yet another crisis in the Balkans. This troubled century was full of revolutions and plans for more revolutions before the Americans arrived, and gave every would-be revolutionary an example of a revolution that succeeded. Europe is a pot coming to a boil, and Mike Stearns will have his hands full seeing that it doesn't boil over on to Grantville and the CPE.

1637: The Coast of Chaos Eric Flint, Bjorn Hasseler. 2021-12-07 THE NEW WORLD FALLS INTO THE RING OF FIRE. All new stories set in the Ring of Fire series, edited by New York Times best-selling series creator Eric Flint. Europe, 1632. It is a time of upheaval and great change. When the dust settles, it becomes clear that the town of Grantville isn't going anywhere, and the can-do Americans of the twenty-first century begin altering the course of history forever. It is now five years later, and the effects of the Ring of Fire reach from the Old World to the New. But the course of exploration and colonization will look much different than it did in our timeline. The Thirty Years War Peter H. Wilson. 2019-08-20 A deadly continental struggle, the Thirty Years War devastated seventeenth-century Europe, killing nearly a quarter of all Germans and laying waste to towns and countryside alike. Peter Wilson offers the first new history in a generation of a horrifying conflict that transformed the map of the modern world. When defiant Bohemians tossed the Habsburg emperor's envoys from the castle windows in Prague in 1618, the Holy Roman Empire struck back with a vengeance. Bohemia was ravaged by mercenary troops in the first battle of a conflagration that would engulf Europe from Spain to Sweden. The sweeping narrative encompasses dramatic events and unforgettable individuals—the sack of Magdeburg; the Dutch revolt; the Swedish militant king Gustavus Adolphus; the imperial generals, opportunistic Wallenstein and pious Tilly; and crafty diplomat Cardinal Richelieu. In a major reassessment, Wilson argues that religion was not the catalyst, but one element in a lethal stew of political, social, and dynastic forces that fed the conflict. By war's end a recognizably modern Europe had been created, but at what price? The Thirty Years War condemned the Germans to two centuries of internal division and international impotence and became a benchmark of brutality for centuries. As late as the 1960s, Germans placed it ahead of both world wars and the Black Death as their country's greatest disaster. An understanding of the Thirty Years War is essential to comprehending modern European history. Wilson's masterful book will stand as the definitive account of this epic conflict. 1636: The Ottoman Onslaught Eric Flint. 2017-01-03 Book #21 in the multiple New York Times best-selling Ring of Fire series. The uptimers and their allies take on the Ottoman Empire at its height of power. The modern West Virginia town of Grantville has been displaced in time to continental Europe in 1632. Now four years have passed. The long-feared attack on Austria by the Ottoman Empire has begun. Armed with new weapons inspired by the time-displaced Americans of Grantville, the Turks are determined to do what they were unable to do in the universe the Americans came from: capture Vienna. The Ottomans have the advantage of being able to study the failings and errors of their own campaigns in a future they can now avoid. They are led by the young, dynamic, and ruthless Murad IV, the most capable emperor the Ottomans have produced in a century. They are equipped with weapons that would have seemed fantastical to the Turks of that other universe: airships, breech-loading rifles, rockets—even primitive tanks. And this time they won't have to face massive reinforcements from Austria's allies. In fact, the only force Emperor Gustav Adolf can think of sending to Austria is the United States of Europe Third Division under the command of Mike Stearns. It's an army currently engaged in a desperate struggle for Bavaria. The emperors of the USE and Austria share the same problem. They have one too many enemies, one too few allies, and only one general to cover the gaps. Fortunately, that general is Mike Stearns, also known as the Prince of Germany. 1637: The Transylvanian Decision Eric Flint, Robert E. Waters. 2022-11-01 THIS NEW NOVEL IN ERIC FLINT'S LANDMARK RING OF FIRE SERIES CONTINUES THE EASTERN EUROPE STORYLINE EXPLORED IN 1637: THE POLISH MAELSTROM Up-timer Morris Roth and his Grand Army of the Sunrise stand at a crossroads. Military success against the Polish-Lithuanian magnates has all but guaranteed a continued push east into Ruthenian lands. There, Roth hopes to further his Anaconda Project so that tens of thousands of Jews are not slaughtered in what's to become known as the Chmielnicki Pogrom of 1648. An envoy from Transylvania arrives with a promising offer from its prince, who wishes to form an alliance with Bohemia, but the land shrouded in the fog of the Carpathian mountains and known only to most up-timers as the playground of Count Dracula is a vassal state of the Ottoman Empire. Such an alliance would surely draw the ire of Sultan Murad IV. The United States of Europe agrees to assist the Bohemian forces, and sends in the Silesian Guard, under the command of Brigadier Jeff Higgins. They also send in Gretchen Richter to organize and lead the political struggle. Transylvania is thrown into political, social, and religious turmoil as battle lines are drawn. Whatever happens and whoever wins the fight, one thing is certain: the history of Eastern Europe will change radically. In fact, it already has. 1824: The Arkansas War Eric Flint.2022-10-04 ALTERNATE HISTORY FROM A MASTER. Best known for his genre-defining Ring of Fire novels, Flint continues his alternate look at Jacksonian America in *1824: The Arkansas War*. The relocation of the southern Indian tribes to Oklahoma engineered by Sam Houston following the War of 1812 also swept up many black inhabitants of North America. Many of the states in the USA—free as well as slaveholding—have passed laws ordering the expulsion of black freedmen. Having nowhere else to go, they joined the migration of the southern Indian tribes and settled in Arkansas. What results by 1824 is a hybrid nation of Indians, black people, and a number of white settlers as well. The situation is intolerable for the slaveholding states, which find a champion in Speaker of the House Henry Clay, whose longstanding ambition to become President of the United States looks to be coming to fruition. But Sam Houston and his friends and allies —the freedman Charles Ball, a former gunner for the US Navy and now a general in the Arkansas army, and the Irish revolutionary Patrick Driscoll—are building a powerful army of their own in Arkansas. The crisis is brought to a head by the election of 1824. The war that follows will be a bloody crisis of conscience, politics, economics, and military action, drawing in players from as far away as England. And for such men as outgoing president James Monroe, Secretary of State John Quincy Adams, charismatic war hero Andrew Jackson, and the violent abolitionist John Brown, it is a time to change history itself. 1636: Commander Cantrell in the West Indies Eric Flint,Charles E. Gannon.2014-05-16 New York Times and Wall Street Journal best-selling alternate history series. Book #14 in the Ring of Fire series created by Eric Flint. Eddie Cantrell, now married to the king of Denmark's daughter, is sent by Admiral Simpson to the Caribbean to secure access to the most valuable commodity on that continent^¾not the gold and silver which the Spanish treasure, but the oil which up-time machines and industry need. The admiral has also provided Eddie's small task force with the new steam-powered frigates that have just come out of the navy's shipyards. Even with the frigates, a giant obstacle stands in his way: the Gulf-girdling Spanish presence in the New World. So a diversion is needed, carried out by an up-time car mechanic and a down-time mercenary colonel who also happens to be the last earl of Ireland. Their mission: grab the oil fields on Trinidad, and so distract the attention of Spain's New World governors. While the Spanish galleons and troops head for Trinidad, Commander Cantrell's smallest and fastest steam sloop will make a run to the Louisiana coast. There, her crew will wind their way up the bayous to the real New World prize: the Jennings Oil Field. But Cantrell's plans could be wrecked in a multitude of ways. He faces often-hostile natives, rambunctious Dutch ship captains, allied colonies on the brink of starvation, and vicious social infighting that can barely be contained by his capable and passionate new wife. And—the icing on the cake—Mike Stearns sends the Hangman Regiment of his Third Division under the command of Jeff Higgins to reinforce Jeff's wife Gretchen in Silesia. Book #14 in the Ring of Fire series created by Eric Flint. Eddie Cantrell, now married to the king of Denmark's daughter, is sent by Admiral Simpson to the Caribbean to secure access to the most valuable commodity on that continent—not the gold and silver which the Spanish treasure, but the oil which up-time machines and industry need. The admiral has also provided Eddie's small task force with the new steam-powered frigates that have just come out of the navy's shipyards. Even with the frigates, a giant obstacle stands in his way: the Gulf-girdling Spanish presence in the New World. So a diversion is needed, carried out by an up-time car mechanic and a down-time mercenary colonel who also happens to be the last earl of Ireland. Their mission: grab the oil fields on Trinidad, and so distract the attention of Spain's New World governors. While the Spanish galleons and troops head for Trinidad, Commander Cantrell's smallest and fastest steam sloop will make a run to the Louisiana coast. There, her crew will wind their way up the bayous to the real New World prize: the Jennings Oil Field. But Cantrell's plans could be wrecked in a multitude of ways. He faces often-hostile natives, rambunctious Dutch ship captains, allied colonies on the brink of starvation, and vicious social infighting that can barely be contained by his capable and passionate new wife. When the galleons finally come out in force to engage his small flotilla, Eddie will discover that the Spanish aren't the only enemies who will be coming against him in a fateful Caribbean show-down. 1636: The China Venture Eric Flint,Iver P. Cooper.2019-09-03 The Ring of Fire Series Continues! The United States of Europe finds itself embroiled in international intrigue, as the uptimers attempt to establish an embassy in Ming Dynasty era China. The newly formed United States of Europe, created by an alliance between the time-displaced Americans from the town of Grantville and the Swedish king Gustavus Adolphus, decides to send an embassy to the Chinese empire. One of the main purposes of the embassy is to establish trade in order to gain access to critical resources. The mission is a gamble—some might say, a long shot. The Ming dynasty is on the verge of collapse and China's rulers are suspicious of foreigners. The mission experiences one setback after another, but presses on. And they gain an important ally along the way: Zheng Zhilong, a former pirate now an admiral for the Ming navy and the head of an extremely wealthy Fujian province trading family. He knows through his Jesuit missionary connections that according to Grantville's history books, the Ming dynasty is in danger, from famines, bandit armies and barbarian invaders. And he is determined that, one way or another, he and his family will survive and even prosper. The embassy is joined as well by a young scholar, who helps them make inroads into China's complex and often dangerous society. Can the up-timers and their friends persuade the imperial dynasty and its mandarins to establish trade and diplomatic relations with the USE? They have one great asset: their knowledge may be the key to saving China from decades of mass suffering and civil war. 1637: The Peacock Throne Eric Flint,Griffin Barber.2021-05-04 The assassinated Shah Jahan lies entombed beside his beloved wife in the Taj Mahal, while their progeny drag the Mughal Empire into a three-sided struggle over the succession to the Peacock Throne. The diplomatic and trade mission from the United States of Europe is openly siding with Princess Jahanara and her brother Dara Shikoh. The mission, made up largely of Americans transplanted in time by the Ring of Fire, is providing the siblings with technical assistance as they prepare to fight their rivals for the throne, Aurangzeb and Shah Shuja. Meanwhile, the Afghan adventurer Salim Gadh Yilmaz, confidant of two emperors—Shah Jahan and now his son Dara Shikoh—has been elevated to the position of general. He has great challenges to face, not the least of which is resisting the fierce and forbidden mutual attraction between himself and Princess Jahanara. As the conflict deepens, the junior members of the mission are sent east to buy opium needed by the USE's doctors. Their guide, merchant Jadu Das, has an agenda of his own, one entrusted to him by Jahanara: seek out her great uncle,

Asaf Khan, and promise whatever is needed to bring his army over to Dara's side. The USE's mission was sent to India in search of goods needed in Europe. But now they find that straightforward task has become enmeshed in a great civil war—for control of the Peacock Throne. He doesn't want to mess with anybody else's problems, let alone a god's. Let alone the War God's! So how does he end up a thousand leagues from home, neck-deep in political intrigue, assassins, demons, psionics, evil sorcery, white sorcery, dark gods, good gods, bad poets, greedy landlords, and most of Bortalik Bay Well, it's all the War God's fault. . . . At All Costs David Weber.2005-11-01 What price victory The war with the Republic of Haven has resumed . . . disastrously for the Star Kingdom of Manticore. Admiral Lady Dame Honor Harrington, Steadholder and Duchess Harrington, the single victorious Allied commander of the opening phase of the new war, has been recalled from the Sidemore System to command Eighth Fleet. Everyone knows Eighth Fleet is the Alliance's primary offensive command, which makes it the natural assignment for the woman the media calls the Salamander. But what most of the public DOESN'T know is that not only are the Star Kingdom and its Allies badly outnumbered by the Republic's new fleet, but that the odds are going to get steadily worse. Eighth Fleet's job is to somehow prevent those odds from crushing the Alliance before the Star Kingdom can regain its strategic balance. It's a job which won't be done cheaply. Honor Harrington must meet her formidable responsibilities with inferior forces even as she copes with tumultuous changes in her personal and public life. The alternative to victory is total defeat, yet this time the COST of victory will be agonizingly high. At the publisher's request, this title is sold without DRM (Digital Rights Management).

The United Sovereign States of Russia struggles to set in place the traditions and legal precedents that will let it turn into a constitutional monarchy with freedom and opportunity for all its citizens. At the same time, they're trying to balance the power of the states and the federal government. And the USSR is fighting a civil war with Muscovite Russia, defending the new state of Kazakh from invasion by the Zunghars, building a tech base and an economy that will allow its money to be accepted in western Europe, establishing a more solid claim to Siberia, and, in general, keeping the wheels of civilization from coming off and dumping Russia back into the Time of Troubles. Or, possibly even worse, reinstalling the sort of repressive oligarchy that they just got rid of. At the publisher's request, this title is sold without DRM (Digital Rights Management). Grantville Gazette Eric Flint.2004-11 A story collection continues the saga that began in 1632 and 1633, describing life for the inhabitants of Grantville, an American town from West Virginia that finds itself hurtled back in time and into the middle of the Thirty Years War, as they struggle to bring their advanced technology to the seventeenth century. Belisarius II: Storm at Noontide David Drake,Eric Flint.2009-03-01 Continuing the popular Belisarius saga, with two full-length novels in one volume. *Destiny's Shield: Evil from beyond time: The Malwa Empire* squats like a toad across sixth century India, commanded by ruthless men with depraved appetites. But the thing from the distant future that commands them is far worse. Those who oppose the purulent Hell the Malwa will make of Earth have sent a crystal, Aide, to halt their advance. Aide holds all human knowledge¾but cannot act by himself. That requires Count Belisarius, the greatest general fo the age and perhaps of all ages, who must outwit the evil empire¾and then, when there is no longer room to maneuver, to meet it sword-edge to sword-edge, lest evil beyond human conception rules the world forever. *Fortune's Stroke: Link*, the supercomputer from a future that should not, must not exist has used terror and gunpowder weapons to forge the Malwa Empire on the Indian subcontinent. Aide and Belisarius have led the armies of Byzantium and blunted the first assault of the Malwa hordes. Now he and his allies from all the world face overwhelming numbers in a ring that tightens about them. The armies of Good and Evil gathered on the fertile plains of Mesopotamia will decide the fate of the world¾and the fate of all the future. 1812: The Rivers of War Eric Flint.2022-07-05 In this alternate history of the American frontier and the Jacksonian era, a small change takes place in the Battle of the Horseshoe Bend during the War of 1812. What results is a cascade of new developments that becomes an avalanche. In our world, Ensign Sam Houston, just turned 21, led the charge on the creek barricade in that battle and almost died from a terrible wound that took him a year to recover from. In this world, his wound is minor, so he is able to continue fighting the British—and develop his close relationship with Andrew Jackson much sooner. Along with a radical Scots-Irish immigrant in the U.S. Army, Patrick Driscoll—one of "the Men of '98"—Houston organizes a defense of the U.S. Capitol that prevents the British from destroying it and makes him a national hero. He and Driscoll then play a central role in the defense of New Orleans under Jackson's command. They change the course of that battle in ways that will, over time, transform the relationship between the United States, the Indian tribes of the south, and the slaves brought over from Africa. The Danish Scheme Herb Sakalaucks, Eric Flint. 2013-06-21 Something new is brewing in the 17th century! Fans of the 1632 series have often asked What's going on in North America? Herbert Sakalaucks has set out to let you know in his short novel *The Danish Scheme*. Christian IV, King of Denmark, Sir Thomas Roe, the English Ambassador to Christian's court, various elements of the extended Nasi/Abrabanel family have arranged an unusually well funded and well led expedition to North America. In addition to a new version of this story, which had previously been published in the *Grantville Gazette*, Eric Flint has added a short story which provides a view of the same events from Magdeburg. What does the Stearns administration make of all this? A worthy addition to the 1632 series, the first of a series of new books published under the imprint of the Ring of Fire Press. to make available stories and information which there simply isn't time for in Baen's publishing schedule. These stories were simply too long to be included in any of the paper anthologies published by Baen Books. At the same time, we felt it would be useful (and hopefully popular) to put them together in unitary volumes so that people who want to re-read them, or read them for the first time, don't have to hunt for them scattered over a number of separate issues of the magazine.

1636: The Kremlin Games Eric Flint, Gorg Huff, Paula Goodlett. 2012-06-01 After carving a place for itself in war-torn 17th century Europe, the modern time-displaced town of Grantville, West Virginia has established its new mission and identity. Yet some have been left behind¾people like goodtime Bernie Zeppi, courageous in battle, but a bust in life. Bernie gets his second chance when he's hired to help Mother Russia modernize. Now war with Poland is afoot and Russia is about to get a revolution from within¾three centuries early! It's do or die time for good-time Bernie. His task: to save the Russian woman he has come to love and the country he has come to call his own from collapse into a new Dark Age. 1634: The Bavarian Crisis Eric Flint, Virginia DeMarce. 2007-10-01 THE MAELSTROM THAT IS EUROPE, COMPLICATED BY IRON, LOVE AND 20TH CENTURY AMERICANS The Thirty Years War continues to ravage 17th century Europe, but a new force is gathering power and influence: the United States of Europe, forged from an alliance between Gustavus Adolphus, King of Sweden, and the West Virginians from the 20th century, led by Mike Stearns, who were hurled centuries into the past by a mysterious cosmic accident. This troubled century was full of revolutions and plans for more revolutions before the Americans arrived, and gave every would-be revolutionary an example of a revolution that succeeded. Europe is a pot coming to a boil, and Mike Stearns finds himself walking the fine line between keeping the pot boiling while keeping it from boiling over and destroying the USE in the process. The USE has the know-how of 20th century technology, but needs iron and steel to make the machines. The iron mines of the upper Palatinate were rendered inoperable by wartime damage, and American ingenuity is needed on the spot to pump them out and get the metal flowing again¾a mission that will prove more complicated than anyone expects. First, because the expedition sent to revitalize the mining industry in the upper Palatinate walks into the middle of a ferocious battle between the USE and the Duke of Bavaria. Second, because in the maelstrom that is Europe, even a 20th century copy of the *Encyclopedia Britannica* can precipitate a crisis from the most unexpected quarters. The young and beautiful daughter of the Austrian emperor, sent to marry the Duke of Bavaria for reasons of state, comes to an unforeseen conclusion based on her study of up-time history. The decision she makes as a result transforms the Bavarian war into a crisis for all of Europe. At the publisher's request, this title is sold without DRM (Digital Rights Management).

1635: A Parcel of Rogues Eric Flint, Andrew Dennis. 2015-12-16 Book #20 in the multiple New York Times best-selling Ring of Fire series. When the diplomatic embassy from the United States of Europe was freed from the Tower of London during the Baltic War, most of its members returned to the continent. But some remained behind in Britain: Oliver Cromwell and a few companions, including the sharpshooter Julie Sims, her Scot husband Alex Mackay, and Cromwell's Irish-American self-appointed watchdog Darryl McCarthy. Soon, the hunt is on for the most notorious rebel in English history, with King Charles himself demanding Cromwell's head. The new chief minister Richard Boyle, Earl of Cork, brings over from Ireland a notorious crew of cutthroats led by the man called Finnegan to track down and capture the escapees from the Tower. The hunt passes through England and into Scotland, where the conflict between Cromwell and his companions and their would-be captors becomes embroiled in Scotland's politics, which are every bit as savage and ruthless as Finnegan and his men. To make things still more conflicted and confused, the time Darryl McCarthy spends fighting alongside Cromwell forces him against his will to admire and respect—and even like—the man, despite Cromwell's demonic reputation among all self-respecting Irish nationalist families like Darryl's own. It's a Gordian knot anywhere you look—until Julie Sims brings out her rifle. Now it's the turn of Scot partisans and English lords and Irish toughs to learn the lesson already learned on the continent: A safe distance isn't what you think it is. Not after the American angel of death spreads her wings. At the publisher's request, this title is sold without DRM (Digital Rights Management). About 1635: A Parcel of Rogues ... 1636: The Atlantic Encounter Eric Flint, Walter H. Hunt. 2020-08-04 THE BEST-SELLING RING OF FIRE SERIES CONQUERS THE NEW WORLD! It has taken almost five years for the United States of Europe to stabilize its position in 17th-century Europe. Now it turns its attention to the New World, where the English have ceded their colonial claims to France. There are vast lands and rich resources across the Atlantic for any nations powerful enough to rule and control them—and equal incentive for other nations to block their path. The time-displaced Americans know about the future path that led to their own United States in North America, in the other universe they came from. But do they want to repeat that history as it was? Yes, they had democracy—but they are helping to create that in Europe. And they have learned the bitter prices paid for chattel slavery and the near-extirmination of the native populations. Knowledge is power. Perhaps a new course can be taken. Accordingly, an expedition is sent to the New World to see just what might be happening there and what might be done. They are armed with their technology, among which are a radio and an airship. More importantly, they are armed with the knowledge of future history and their determination not to repeat the errors of their past. What could possibly go wrong?
