*The Goldberg Variations* Nancy Huston.2008 Nancy Huston describes GOLDBERG VARIATIONS: Suppose you invite thirty people to your home, people whom you love or have loved, to listen to you perform Bach's Goldberg Variations. And say that this concert unfolds like a midsummer night's dream, that is, you, Liliane, succeed in vibrating thirty people like so many variations, each at a different tune -- you must oscillate between memory and speculation; you must, above all, master your fears -- maybe then, all these fragments of music would dance into the same stream, and that you would call GOLDBERG VARIATIONS, a novel.

**The Violence of Modernity** Debarati Sanyal.2020-03-03 The Violence of Modernity turns to Charles Baudelaire, one of the most canonical figures of literary modernism, in order to reclaim an aesthetic legacy for ethical inquiry and historical critique. Works of modern literature are commonly theorized as symptomatic responses to the trauma of history. In a climate that tends to privilege crisis over critique, Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential. Examining Baudelaire's poems afresh, she shifts the focus of critical attention toward an account of modernism as an active engagement with violence, specifically the violence of history in nineteenth-century France. Sanyal analyzes a literary current that uses the traditional hallmarks of modernism—irony, intertextuality, self-reflexivity, and formalism—to challenge the historical violence of modernity. Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history, and thereby to challenge the melancholy tenor of our contemporary wound culture. In a series of provocative readings, Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity, counterviolence, and critique. The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of art for art's sake and from his more recent incarnation as the poet of trauma. Following her extended analysis of Baudelaire's poetry, Sanyal in later chapters considers a number of authors influenced by his strategies—including Rachilde, Virginie Despentes, Albert Camus, and Jean-Paul Sartre—to examine the relevance of their interventions for our current climate of trauma and terror. The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity.

*In the Grip of Minos* Matthew Senior.1994 Following Trent, a new mode of confession makes its appearance, a baroque discourse in which the heart speaks to the heart. Senior argues that Corneille similarly creates a new kind of hero who distinguishes himself as much by the confessional trial of self-statement as by his military exploits. In the work of Racine, Senior notes, Minos appears again, tormenting the conscience of Phedre.

*Everyday Life* Michael Sheringham.2006-03-09 In the last twenty years the concept of the quotidien, or the everyday, has been prominent in contemporary French culture and in British and American cultural studies. This book provides the first comprehensive analytical survey of the whole field of approaches to the everyday. It offers, firstly, a historical perspective, demonstrating the importance of mainstream and dissident Surrealism; the indispensable contribution, over a 20-year period (1960-80), of four major figures: Henri Lefebvre, Roland Barthes, Michel de Certeau, and Georges Perec; and the recent proliferation of works that investigate everyday experience. Secondly, it establishes the framework of philosophical ideas on which discourses on the everyday depend, but which they characteristically subvert. Thirdly, it comprises searching analyses of works in a variety of genres, including fiction, the essay, poetry, theatre, film, photography, and the visual arts, consistently stressing how explorations of the everyday tend to question and combine genres in richly creative ways. By demonstrating the enduring contribution of Perec and others, and exploring the Surrealist inheritance, the book proposes a genealogy for the remarkable upsurge of interest in the everyday since the 1980s. A second main objective is to raise questions about the dimension of experience addressed by artists and thinkers when they invoke the quotidien or related concepts. Does the 'everyday' refer to an objective content defined by particular activities, or is it best thought of in terms of rhythm, repetition, festivity, ordinariness, the generic, the obvious, the given? Are there events or acts that are uniquely 'everyday', or is the quotidien a way of thinking about events and acts in the 'here and now' as opposed to the longer term? What techniques or genres are best suited to conveying the nature of everyday life? The book explores these questions in a comparative spirit, drawing new parallels between the work of numerous writers and artists, including André Breton, Raymond Queneau, Walter Benjamin, Michel Leiris, Maurice Blanchot, Michel Foucault, Stanley Cavell, Annie Ernaux, Jacques Réda, and Sophie Calle.

*The Post Card* Jacques Derrida.2020-10-28 17 November 1979 You were reading a somewhat retro loveletter, the last in history. But you have not yet received it. Yes, its lack or excess of address prepares it to fall into all hands: a post card, an open letter in which the secret appears, but indecipherably. What does a post card want to say to you? On what conditions is it possible? Its destination traverses you, you no longer know who you are. At the very instant when from its address it interpellates, you, uniquely you, instead of reaching you it divides you or sets you aside, occasionally overlooks you. And you love and you do not love, it makes of you what you wish, it takes you, it leaves you, it gives you. On the other side of the card, look, a proposition is made to you, S and p, Socrates and plato. For once the former seems to write, and with his other hand he is even

scratching. But what is Plato doing with his outstretched finger in his back? While you occupy yourself with turning it around in every direction, it is the picture that turns you around like a letter, in advance it deciphers you, it preoccupies space, it procures your words and gestures, all the bodies that you believe you invent in order to determine its outline. You find yourself, you, yourself, on its path. The thick support of the card, a book heavy and light, is also the specter of this scene, the analysis between Socrates and Plato, on the program of several others. Like the soothsayer, a fortune-telling book watches over and speculates on that-which-must-happen, on what it indeed might mean to happen, to arrive, to have to happen or arrive, to let or to make happen or arrive, to destine, to address, to send, to legate, to inherit, etc., if it all still signifies, between here and there, the near and the far, da und fort, the one or the other. You situate the subject of the book: between the posts and the analytic movement, the pleasure principle and the history of telecommunications, the post card and the purloined letter, in a word the transference from Socrates to Freud, and beyond. This satire of epistolary literature had to be farci, stuffed with addresses, postal codes, crypted missives, anonymous letters, all of it confided to so many modes, genres, and tones. In it I also abuse dates, signatures, titles or references, language itself. J. D. With *The Post Card*, as with Glas, Derrida appears more as writer than as philosopher. Or we could say that here, in what is in part a mock epistolary novel (the long section is called *Envois*, roughly, dispatches), he stages his writing more overtly than in the scholarly works. . . . *The Post Card* also contains a series of self-reflective essays, largely focused on Freud, in which Derrida is beautifully lucid and direct.—Alexander Gelley, *Library Journal*

**Threads and Traces** Carlo Ginzburg.2012-09-02 This book is a translation of historian Carlo Ginzburg's latest collection of essays. Through the detective work of uncovering a wide variety of stories or microhistories from fragments, Ginzburg takes on the bigger questions: How do we draw the line between truth and fiction? What is the relationship between history and memory? Stories range from medieval Europe, the inquisitional trial of a witch, seventeenth-century antiquarianism, and twentieth-century historians--Provided by publisher.

*Auguste Comte and the Religion of Humanity* Andrew Wernick.2001-04-30 This 2001 book offers an exciting reinterpretation of Auguste Comte, the founder of French sociology. Following the development of his philosophy of positivism, Comte later focused on the importance of the emotions in his philosophy resulting in the creation of a new religious system, the Religion of Humanity. Andrew Wernick provides the first in-depth critique of Comte's concept of religion and its place in his thinking on politics, sociology and philosophy of science. He places Comte's ideas in the context of post-1789 French political and intellectual history, and of modern philosophy, especially postmodernism. Wernick relates Comte to Marx and Nietzsche as seminal figures of modernity and examines key features of modern and postmodern French social theory, tracing the inherent flaws and disintegration of Comte's system. Wernick offers original and fascinating insights in this rich study which will attract a wide audience from sociologists and philosophers to cultural theorists and historians.

*The Modernist Papers* Fredric Jameson.2016-03-08 Cultural critic Fredric Jameson, renowned for his incisive studies of the passage of modernism to postmodernism, returns to the movement that dramatically broke with all tradition in search of progress for the first time since his acclaimed *A Singular Modernity*. *The Modernist Papers* is a tour de force of analysis and criticism, in which Jameson brings his dynamic and acute thought to bear on the modernist literature of the nineteenth and twentieth centuries. Jameson discusses modernist poetics, including intensive discussions of the work of Baudelaire, Rimbaud, Mallarmé, Wallace Stevens, Joyce, Proust, and Thomas Mann. He explores the peculiarities of the American literary field, taking in William Carlos Williams and the American epic, and examines the language theories of Gertrude Stein. Refusing to see modernism as simply a Western phenomenon he also pays close attention to its Japanese expression; while the complexities of a late modernist representation of twentieth-century politics are articulated in a concluding section on Peter Weiss's novel *The Aesthetics of Resistance*. Challenging our previous understanding of the literature of this period, this monumental work will come to be regarded as the classic study of modernism.

*This Perfect Day* Ira Levin.2010-11-15 By the author of *Rosemary's Baby*, a horrifying journey into a future only Ira Levin could imagine. Considered one of the great dystopian novels—alongside Anthony Burgess's *A Clockwork Orange* and Aldous Huxley's *Brave New World*—Ira Levin's frightening glimpse into the future continues to fascinate readers even forty years after publication. The story is set in a seemingly perfect global society. Uniformity is the defining feature; there is only one language and all ethnic groups have been eugenically merged into one race called "The Family." The world is ruled by a central computer called UniComp that has been programmed to keep every single human on the surface of the earth in check. People are continually drugged by means of regular injections so that they can never realize their potential as human beings, but will remain satisfied and cooperative. They are told where to live, when to eat, whom to marry, when to reproduce. even the basic facts of nature are subject to the UniComp's will—men do not grow facial hair, women do not develop breasts, and it only rains at night. With a vision as frightening as any in the history of the science fiction genre, *This Perfect Day* is one of Ira Levin's most haunting novels.

**Allegories of Reading** Paul De Man.1979-01-01 This important theoretical work by Paul de Man sets forth a mode of reading and interpretation based on exemplary texts by Rousseau, Nietzsche, Rilke, and Proust. The readings start from unresolved difficulties in the critical traditions engendered by these authors, and they return to the places in the text where those difficulties are most apparent or most incisively reflected upon. The close reading leads to the elaboration of a more general model of textual understanding, in which de Man shows that the thematic aspects of the texts--their assertions of truth or falsehood as well as their assertions of values--are linked to specific modes of figuration that can be identified and described. The description of synchronic figures of substitution leads, by an inner logic embedded in the structure of all tropes, to extended, narrative figures or allegories. De Man poses the question whether such self-generating systems of figuration can account fully for the intricacies of meaning and of signification they produce. Throughout the book, issues in contemporary criticism are addressed analytically rather than polemically. Traditional oppositions are put in question by a rhetorical analysis which demonstrates why literary texts are such powerful sources of meaning yet epistemologically so unreliable. Since the structure which underlies this tension belongs to language in general and is not confined to literary texts, the book, starting out as practical and historical criticism or as the demonstration of a theory of literary reading, leads into larger questions pertaining to the philosophy of language. Through elaborate and elegant close readings of poems by Rilke, Proust's *Remembrance*, Nietzsche's philosophical writings and the major works of Rousseau, de Man concludes that all writing concerns itself with its own activity as language, and language, he says, is always unreliable, slippery, impossible....Literary narrative, because it must rely on language, tells the story of its own inability to tell a story....De Man demonstrates, beautifully and convincingly, that language turns back on itself, that rhetoric is untrustworthy.--Julia Epstein, *Washington Post Book World* The study follows out of the thinking of Nietzsche and Genette (among others), yet moves in strikingly new directions....De Man's text, almost certain to be endlessly provocative, is worthy of repeated re-reading.--Ralph Flores, *Library Journal* Paul de Man continues his work in the tradition of 'deconstructionist criticism, '... which] begins with the observation that all language is constructed; therefore the task of criticism is to deconstruct it and reveal what lies behind. The title of his new work reflects de Man's preoccupation with the unreliability of language. ... The contributions that the book makes, both in the initial theoretical chapters and in the detailed analyses (or deconstructions) of particular texts are undeniable.--Caroline D. Eckhardt, *World Literature Today*

*Un pouvoir implacable et doux : La Tech ou l'efficacité pour seule valeur* Philippe Delmas.2019-10-02 L'année 1969 fut l'apogée de la Révolution industrielle qui a permis à l'homme de marcher sur la Lune sans électronique, et l'an I de la Révolution numérique avec l'apparition des premières puces. Un siècle de Révolution industrielle nous a apporté la prospérité et la démocratie, que nous apporte ce demi-siècle de Révolution numérique ? Grâce à ses technologies - la Tech -, nos objets quotidiens sont devenus magiques : les smartphones nous donnent accès à tout et à tous, et Internet est un moyen d'échange sans limites, promesse d'une démocratie achevée. Tout cela est un trompe l'oeil. La Révolution industrielle a enrichi toute la population de nos pays et entamé le développement des autres. La Tech crée une économie radicalement inégalitaire pour les personnes, les entreprises et les États. Elle mine nos classes moyennes dont les revenus du travail stagnent depuis quinze ans et, de son fait, les chances des pays pauvres de ne plus l'être ont baissé de moitié. Passer d'une situation où les vainqueurs s'enrichissent plus que les autres à un monde où les autres ne

s'enrichissent plus du tout est un changement de nature, pas de degré. La vraie menace de la Tech n'est pas économique mais politique. Sa puissance inégalitaire met fin au pacte moral de la Révolution industrielle qui promettait l'amélioration de la vie pour tous. Dans le monde entier, le sujet n'est plus la démocratie mais l'efficacité des gouvernants, devenue le seul critère de jugement des citoyens. Sa puissance technique est pour les États une tentation de contrôle irrésistible. Les dirigeants y cèdent dans un développement sans fin de la surveillance de nos vies. Pour notre bien. La Tech serait-elle le despote « puissant et doux » par lequel Tocqueville voyait disparaître la démocratie ?

**Ethics and Sport in Europe** Dominique Bodin,Gaelle Sempé.2011-01-01 Defending ethics in sport is vital in order to combat the problems of corruption, violence, drugs, extremism and other forms of discrimination it is currently facing. Sport reflects nothing more and nothing less than the societies in which it takes place. However, if sport is to continue to bring benefits for individuals and societies, it cannot afford to neglect its ethical values or ignore these scourges. The major role of the Council of Europe and the Enlarged Partial Agreement on Sport (EPAS) in addressing the new challenges to sports ethics was confirmed by the 11th Council of Europe Conference of Ministers responsible for Sport, held in Athens on 11 and 12 December 2008. A political impetus was given on 16 June 2010 by the Committee of Ministers, with the adoption of an updated version of the Code of Sports Ethics (Recommendation CM/Rec(2010)9), emphasising the requisite co-ordination between governments and sports organisations. The EPAS prepared the ministerial conference and stepped up its work in an international conference organised with the University of Rennes, which was attended by political leaders, athletes, researchers and officials from the voluntary sector. The key experiences described in the conference and the thoughts that it prompted are described in this publication. All the writers share the concern that the end result should be practical action - particularly in terms of the setting of standards - that falls within the remit of the EPAS and promotes the Council of Europe's core values.

**The Fear of French Negroes** Sara E. Johnson.2012-10-10 The Fear of French Negroes is an interdisciplinary study that explores how people of African descent responded to the collapse and reconsolidation of colonial life in the aftermath of the Haitian Revolution (1791-1845). Using visual culture, popular music and dance, periodical literature, historical memoirs, and state papers, Sara E. Johnson examines the migration of people, ideas, and practices across imperial boundaries. Building on previous scholarship on black internationalism, she traces expressions of both aesthetic and experiential transcolonial black politics across the Caribbean world, including Hispaniola, Louisiana and the Gulf South, Jamaica, and Cuba. Johnson examines the lives and work of figures as diverse as armed black soldiers and privateers, female performers, and newspaper editors to argue for the existence of competing inter-Americanisms as she uncovers the struggle for unity amidst the realities of class, territorial, and linguistic diversity. These stories move beyond a consideration of the well-documented anxiety insurgent blacks occasioned in slaveholding systems to refocus attention on the wide variety of strategic alliances they generated in their quests for freedom, equality and profit.

**The Salon of 1846** Charles Baudelaire.2021-04-27 In his introduction to Charles Baudelaire's Salon of 1846, the renowned art historian Michael Fried presents a new take on the French poet and critic's ideas on art, criticism, romanticism, and the paintings of Delacroix. Charles Baudelaire, considered a father of modern poetry, wrote some of the most daring and influential prose of the nineteenth century. Prior to publishing international bestseller *Les Fleurs du mal* (1857), he was already notable as a forthright and witty critic of art and literature. Captivated by the Salons in Paris, Baudelaire took to writing to express his theories on modern art and art philosophy. The Salon of 1846 expands upon the tenets of Romanticism as Baudelaire methodically takes his reader through paintings by Delacroix and Ingres, illuminating his belief that the pursuit of the ideal must be paramount in artistic expression. Here we also see Baudelaire caught in a fundamental struggle with the urban commodity of capitalism developing in Paris at that time. Baudelaire's text proves to be a useful lens for understanding art criticism in mid-nineteenth-century France, as well as the changing opinions regarding the essential nature of Romanticism and the artist as creative genius. Acclaimed art historian and art critic Michael Fried's introduction offers a new reading of Baudelaire's seminal text and highlights the importance of his writing and its relevance to today's audience.

**A Concise History of the Armenian People** George A. Bournoutian.2002 The first part of the study discusses the origins of the Armenians, the Urartian Kingdom, Armenia and the Achaemenid, Seleucid, Parthian, Roman, Sasanid and Byzantine periods. The second part concentrates on the Armenian communities in the Ottoman, Persian, Indian, and Russian empires (1500-1918). It also details the Armenian diaspora in Eastern and Western Europe, Africa, the Arab World, the Far East, and the Americas. **Quantum** Manjit Kumar.2008-10-02 'This is about gob-smacking science at the far end of reason ... Take it nice and easy and savour the experience of your mind being blown without recourse to hallucinogens' Nicholas Lezard, Guardian For most people, quantum theory is a byword for mysterious, impenetrable science. And yet for many years it was equally baffling for scientists themselves. In this magisterial book, Manjit Kumar gives a dramatic and superbly-written history of this fundamental scientific revolution, and the divisive debate at its core. Quantum theory looks at the very building blocks of our world, the particles and processes without which it could not exist. Yet for 60 years most physicists believed that quantum theory denied the very existence of reality itself. In this tour de force of science history, Manjit Kumar shows how the golden age of physics ignited the greatest intellectual debate of the twentieth century. Quantum theory is weird. In 1905, Albert Einstein suggested that light was a particle, not a wave, defying a century of experiments. Werner Heisenberg's uncertainty principle and Erwin Schrodinger's famous dead-and-alive cat are similarly strange. As Niels Bohr said, if you weren't shocked by quantum theory, you didn't really understand it. While Quantum sets the science in the context of the great upheavals of the modern age, Kumar's centrepiece is the conflict between Einstein and Bohr over the nature of reality and the soul of science. 'Bohr brainwashed a whole generation of physicists into believing that the problem had been solved', lamented the Nobel Prize-winning physicist Murray Gell-Mann. But in Quantum, Kumar brings Einstein back to the centre of the quantum debate. Quantum is the essential read for anyone fascinated by this complex and thrilling story and by the band of brilliant men at its heart.

The origins of this book lie in a series of programmes broadcast in 1950 by Radio Francaise in which Perlemuter played all Ravel's compositions for solo piano and discussed them with Helene Joudan-Morange - a distinguished violinist who had been one of Ravel's closest friends. This is a transcript of their conversations, with numerous musical examples. This edition also deals with the two piano concertos.
