Franz Bernhard - The human figure Georg Elben, Andreas C.H. Schell. 2018 From the 1960s, the German sculptor Franz Bernhard chose to limit his use of materials to wood and iron. The autonomous, constructivist constellation of forms and the image of man--especially the head as a key motif--were the primary focus of his oeuvre. In the juxtaposition of construction and dynamism, instability and solidity, Franz Bernhard captured the contradictory nature of modern man manifested as a grand sculptural presence.

Religious Individualisation Martin Fuchs, Antje Linkenbach, Martin Mulsow, Bernd-Christian Otto, Rahul Bjørn Parson, Jörg Rüpke. 2019-12-16 This volume brings together key findings of the long-term research project 'Religious Individualisation in Historical Perspective' (Max Weber Centre for Advanced Cultural and Social Studies, Erfurt University). Combining a wide range of disciplinary approaches, methods and theories, the volume assembles over 50 contributions that explore and compare processes of religious individualisation in different religious environments and historical periods, in particular in Asia, the Mediterranean, and Europe from antiquity to the recent past. Contrary to standard theories of modernisation, which tend to regard religious individualisation as a specifically modern or early modern as well as an essentially Western or Christian phenomenon, the chapters reveal processes of religious individualisation in a large variety of non-Western and pre-

modern scenarios. Furthermore, the volume challenges prevalent views that regard religions primarily as collective phenomena and provides nuanced perspectives on the appropriation of religious agency, the pluralisation of religious options, dynamics of de-traditionalisation and privatisation, the development of elaborated notions of the self, the facilitation of religious deviance, and on the notion of dividuality.

Island Rivers John R. Wagner, Jerry K. Jacka.2018-06-19 Anthropologists have written a great deal about the coastal adaptations and seafaring traditions of Pacific Islanders, but have had much less to say about the significance of rivers for Pacific island culture, livelihood and identity. The authors of this collection seek to fill that gap in the ethnographic record by drawing attention to the deep historical attachments of island communities to rivers, and the ways in which those attachments are changing in response to various forms of economic development and social change. In addition to making a unique contribution to Pacific island ethnography, the authors of this volume speak to a global set of issues of immense importance to a world in which water scarcity, conflict, pollution and the degradation of riparian environments afflict growing numbers of people. Several authors take a political ecology approach to their topic, but the emphasis here is less on hydro-politics than on the cultural meaning of rivers to the communities we describe. How has the cultural significance of rivers shifted as a result of colonisation, development and nation-building? How do people whose identities are fundamentally rooted in their relationship to a particular river renegotiate that relationship when the river is dammed to generate hydro-power or polluted by mining activities? How do blockages in the flow of rivers and underground springs interrupt the intergenerational transmission of local ecological knowledge and hence the ability of local communities to construct

collective identities rooted in a sense of place?

Food, Agri-Culture and Tourism Katia Laura Sidali, Achim Spiller, Birgit Schulze. 2011-02-09 This book will be a valuable source of information for those concerned with rural and farm tourism, sustainable tourism and the marketing of local gastronomy. It presents cases with an international and interdisciplinary approach in order to provide ideas for strategic perspectives in tourism studies. Furthermore, for the first time the complex fields of rural and food tourism are examined from an international (Italy and Germany) viewpoint. This book explores ways in which gastronomical heritage (i.e., regional food, organic food) can be incorporated in rural tourism (above all farm tourism) and development policies as well as in new avenues of research e.g., sensory marketing, online marketing) in order to enhance sustainable practices both in the tourism and in the agri-food sector. Overall, the book presents an overview of benchmark practices for professionals (associations of rural tourism, farmers, etc.), while offering scholars a well-founded source to refer to in order to gain up-to-date insights into the state of the art of studies on rural and food tourism.

1,000 Places to See Before You Die Patricia Schultz.2015-07-01 The world's bestselling travel book is back in a more informative, more experiential, more budget-friendly full-color edition. A #1 New York Times bestseller, 1,000 Places reinvented the idea of travel book as both wish list and practical guide. As Newsweek wrote, it "tells you what's beautiful, what's fun, and what's just unforgettable— everywhere on earth." And now the best is better. There are 600 full-color photographs. Over 200 entirely new entries, including visits to 28 countries like Lebanon, Croatia, Estonia, and Nicaragua, that were not in the original edition. There is an emphasis on experiences: an entry covers not just Positano or Ravello, but the full 30-mile stretch along the Amalfi Coast. Every entry from the original edition has been readdressed, rewritten, and made fuller, with more suggestions for places to stay, restaurants to visit, festivals to check out. And throughout, the book is more budget-conscious, starred restaurants and historic hotels such as the Ritz, but also moderately priced gems that don't compromise on atmosphere or charm. The world is calling. Time to answer.

How Modernity Forgets Paul Connerton.2009-07-30 Why are we sometimes unable to remember events, places and objects? This concise overview explores the concept of 'forgetting', and how modern society affects our ability to remember things. It takes ideas from Francis Yates classic

work, *The Art of Memory*, which viewed memory as being dependent on stability, and argues that today's world is full of change, making 'forgetting' characteristic of contemporary society. We live our lives at great speed; cities have become so enormous that they are unmemorable; consumerism has become disconnected from the labour process; urban architecture has a short life-span; and social relationships are less clearly defined - all of which has eroded the foundations on which we build and share our memories. Providing a profound insight into the effects of modern society, this book is a must-read for anthropologists, sociologists, psychologists and philosophers, as well as anyone interested in social theory and the contemporary western world.

Views of the Cordilleras and Monuments of the Indigenous Peoples of the Americas Alexander von Humboldt, J. Ryan Poynter, Giorleny D Altamirano Rayo, Tobias Kraft. 2013-01-25 In 1799, Alexander von Humboldt and Aimé Bonpland set out to determine whether the Orinoco River connected with the Amazon. But what started as a trip to investigate a relatively minor geographical controversy became the basis of a five-year exploration throughout South America, Mexico, and Cuba. The discoveries amassed by Humboldt and Bonpland were staggering, and much of today's knowledge of tropical zoology, botany, geography, and geology can be traced back to Humboldt's numerous records of these expeditions. One of these accounts, *Views of the Cordilleras and Monuments of the Indigenous Peoples of the Americas*, firmly established Alexander von Humboldt as the founder of Mesoamerican studies. In *Views of the Cordilleras*—first published in French between 1810 and 1813—Humboldt weaves together magnificently engraved drawings and detailed texts to achieve multifaceted views of cultures and landscapes across the Americas. In doing so, he offers an alternative perspective on the New World, combating presumptions of its belatedness and inferiority by arguing that the “old” and the “new” world are of the same geological age. This critical edition of

Views of the Cordilleras—the second volume in the Alexander von Humboldt in English series—contains a new, unabridged English translation of Humboldt’s French text, as well as annotations, a bibliography, and all sixty-nine plates from the original edition, many of them in color.

Cultures of Infancy Heidi Keller.2013-05-13 *Cultures of Infancy* presents the first systematic analysis of culturally informed developmental pathways, synthesizing evolutionary and cultural psychological perspectives for a broader understanding of human development. In this compelling book, author Heidi Keller utilizes ethnographic reports, as well as quantitative and qualitative analyses, to illustrate how humans resolve universal developmental tasks in particular sociodemographic contexts. These contexts are represented in cultural models, and three distinct models are addressed throughout the text: the model of independence with autonomy as developmental organizer; the model of interdependence with relatedness as the developmental organizer; and the model of autonomous relatedness representing particular mixtures of autonomy and relatedness. The book offers an empirical examination of the first integrative developmental task-relationship formation during the early months of life. Keller shows that early parenting experiences shape the basic foundation of the self within particular models of parenting that are influenced by culturally

informed socialization goals. With distinct patterns of results the studies have revealed, Cultures of Infancy will help redefine developmental psychology as part of a culturally informed science based on evolutionary ground work. Scholars interested in a broad perspective on human development and culture will benefit from this pioneering volume.

Polar Inertia Paul Virilio.2000 Examining how the `here and now' of space, territory, the body, are being redefined by new technologies and how this undoes simplistic versions of the globalization

thesis, Paul Virilio demonstrates how technology has made inertia the defining condition of modernity. An instantaneous present has replaced space and the sovereignty of territory; everything happens without the need to go anywhere. This book will be a key reference for students and scholars of the latest thinking in social theory.

Between Moral Hazard and Legal Uncertainty Matthias Braun, Hannah Schickl, Peter Dabrock. 2018-11-15 Genome Editing Techniques are seen to be at the frontier of current research in the field of emerging biotechnologies. The latest revolutionary development, the so-called CRISPR technology, represents a paradigmatic example of the ambiguity of such techniques and has resulted in an international interdisciplinary debate on whether or not it is necessary to ban the application of this technique by means of a moratorium on its use for human germline modifications, particularly in human embryos in the reproduction process. However, given that other germline engineering techniques like mitochondrial (mt) DNA transfer techniques are already permitted and applied, the question arises what lies at the root of the apparent social unease about the modification of the human germline by Genome Editing Techniques like CRISPR. Against this background, the book seeks to make a substantial contribution to the current debate about a responsible and participatory framework for research on emerging biotechnologies by analysing underlying perceptions, attitudes, arguments and the reasoning on Genome Editing Techniques.

David Hockney: the Arrival of Spring in Normandy 2020 .2021-05 At the beginning of 2020, just as global Covid-19 restrictions were coming into force, the artist David Hockney was at his

house, studio and garden in Normandy. From there, he witnessed the arrival of spring, and recorded the blossoming of the surrounding landscape on his iPad, a method of drawing he has been using for over a decade. Drawing outdoors was an antidote to the anxiety of the moment for Hockney - 'We need art, and I do think it can relieve stress,' he says. This uplifting publication - produced to accompany a major exhibition at the Royal Academy of Arts - includes 116 of his new iPad drawings and shows to full effect Hockney's singular skill in capturing the exuberance of nature.00Exhibition: Royal Academy of Arts, London, UK (27.03-22.08.2021).

The Vanishing Point Val McDermid.2012-10-02 "Marked by [McDermid's] trademark stunners, including a climax that packs a vicious punch. And readers are again left to marvel at her ingenuity." —Jay Strafford, Richmond Times-Dispatch From one of the finest crime writers we have, *The Vanishing Point* kicks off with a nightmare scenario—the abduction of a child in an international airport. Stephanie Harker is in the screening booth at airport security, separated from Jimmy Higgins, the five-year-old boy she's in the process of adopting, when a man in a TSA uniform leads the boy away. The more Stephanie sounds the alarm, the more the security agents suspect her, and the further away the kidnapper gets. It soon becomes apparent that nothing in this situation is clear-cut. For starters, Jimmy's birth mother was a celebrity—living in a world where conspiracy and obfuscation are excused for the sake of column inches. And then there are the bad boys in both women's pasts. As FBI agent Vivian McKuras and Scotland Yard Detective Nick Nicolaides investigate on both sides of the pond, Stephanie learns just how deep a parent's fear can reach. And the horrifying reality is that she has good reason to be afraid—for reasons she never saw coming. "[McDermid's] work is taut, psychologically complex and so gripping that it puts your life on hold." —The Times (London)

Kisses For Jet Joris Bas Backer.2022-05-03 A striking and emotive graphic novel from debut trans creator, Joris Bas Backer about coming to terms with his gender before the age of the internet. For fans of Gender Queer and The Black Flamingo. “A nuanced look into the life of a trans teen by a trans author and illustrator. The black, white, and grayish-blue illustrations powerfully capture Jet’s complicated emotions. –BuzzFeed Jet’s earnest questioning and relationship with gender and adolescence illustrates the conflict between becoming who the world wants them to be and who they are, conveyed in a raw, personal-feeling portrayal of transition in a pre-internet era. – Publishers Weekly I love that this graphic novel exists for generations who may be feeling these same insecurities, anxieties, and challenges that Jet experiences. —Utopian State of Mind A warm, funny, lived-in book that captures exactly the feeling of having a desire you just can’t place, and the relief when you manage to crack it wide open. — Mattie Lubchansky, The Nib Exciting from the first to the last page! I say, this book is already a classic. — Ulli Lust, author of Today is the Last Day of the Rest of Your Life “Kisses for Jet is a sensitively written, beautifully-illustrated depiction of a trans-masculine experience so rarely shown in media...a huge step forward for trans representation.” — Jake Hall, Author of The Art of Drag Featured in Xtra Magazine with Interview by Gender Queer author, Maia Kobabe In 1999, when most people think that the world is about to end with the Y2K crash on the eve of the new Millennium, Jet is just trying to get through high school. When their Mom moves to another country to work on fixing the Millennium bug, Jet is forced to stay at a boarding house while they finish the school year, and they’re not pleased about it. But something’s not quite right, and it’s not just the out-of-control kids that Jet has to live with, or the staff who look after the boarding house who act super suspiciously. As Jet slowly starts to feel overwhelmed by their peers, they begin to notice that they don’t feel like the other girls in their class. As new feelings

start to emerge, Jet slowly begins to realise that they may be more of a boy than a girl. Is that even possible? And who do they talk to about these feelings when there's not even any internet around, and cell phones are barely used? This coming-of-gender graphic novel debut from trans creator Joris Bas Backer is an enlightening and often hilarious tale that casts light on what it was like to be transgender before information and help was more accessible and widespread.

In *The Encyclopedia of Psychoactive Plants* Christian Rätsch details the botany, history, distribution, cultivation, and preparation and dosage of more than 400 psychoactive plants. He discusses their ritual and medicinal usage, cultural artifacts made from these plants, and works of art that either represent or have been inspired by them. The author begins with 168 of the most well-known psychoactives--such as cannabis, datura, and papaver--then presents 133 lesser known substances as well as additional plants known as "legal highs," plants known only from mythological contexts and literature, and plant products that

include substances such as ayahwasca, incense, and soma. The text is lavishly illustrated with 797 color photographs--many of which are from the author's extensive fieldwork around the world--showing the people, ceremonies, and art related to the ritual use of the world's sacred psychoactives.

Blaibach Sandra Hofmeister, Peter Haimerl, Jutta Görlich, Moritz Holfelder. 2019 As a result of structural changes in the Upper Palatinate, houses in Blaibach were abandoned, and schools, shops and restaurants closed. To revitalise the village centre, architect Peter Haimerl developed the design and implementation of a concert hall and civic centre with the support of baritone singer Thomas Bauer, a Blaibach native, and a group of engaged locals and sponsors and the urban development programme. While the shape of the new building suggests an ancient boulder, the excellent acoustics within has transformed the concert hall into a cultural magnet for music lovers near and far. An adjacent dilapidated building was redeveloped as a civic centre for Blaibach citizens after undergoing extensive renovations and expansion. The new centre of Blaibach is documented with photos, designs and descriptive texts. In addition, the surroundings have been newly staged by the artist duo Edward Beierle and Jutta Görlich through their suggestive prints, with forgotten areas brought into focus and a new field between past and present opened up - the same as fashioned by the new architecture.

Sailing by Starlight Alex Capus. 2013-09-10 Capus takes us on an exploratory journey via the loss of a Spanish vessel laden with gold and jewels in the South Seas, the burial of treasure, an ancient map, and a long and dangerous voyage across the Pacific, to prove that Robert Louis Stevenson's treasure island actually exists; and that it exists in a place quite different from where hordes of treasure-hunters have been seeking it for generations. In fact, he posits, it was for this reason alone that

Stevenson spent the last five years of his life in Samoa. On a long trip round the Pacific islands with the idea of writing articles for American periodicals, Stevenson, travelling with his beloved wife, Fanny, and stepson Lloyd Osbourne, had no notion of stopping at Samoa when their ship made landfall in December 1889. Yet, only six weeks later, at the age of 39, he would invest all his available assets in a patch of impenetrable jungle and spend the rest of his life there. This book traces what led Stevenson to Samoa and the origins of his famous story. For facing him from this unlikely spot was another island – a conical isle, Tafahi, where legends abound, and it was, Capus suggests, this isle that would cause him to change the course of his life.
