Explore My World Rain Forests Marfe Ferguson

Delano.2017-07-18 Drip, drop. Rain falls softly on the forest canopy. You peer into the mist. What wild creatures emerge? In this charming picture book, curious kids will learn all about the majesty of the rain forest, from jungle predators to colorful treetop birds to plants that thrive in this lush landscape.

Routledge International Handbook of Schools and Schooling in Asia Kerry J. Kennedy,John Chi-Kin Lee.2018-05-11

This comprehensive handbook is the ultimate reference work, providing authoritative and international overviews of all aspects of schools and schooling in Asia. Split into 19 sections it covers curriculum, learning and assessment, private supplementary tutoring, special education, gender issues, ethnic minority education and LGBTQI students in Asian schools. The volume displays the current state of the scholarship for schools and schooling in Asia including emerging, controversial and cutting-edge contributions using a thematic approach. The content offers a broad sweep of the region with a focus on theoretical, cultural and political issues as well as identifying educational issues and priorities, such as curriculum, assessment, teacher education, school leadership, etc., all of which impact students and learning in multiple ways. The Routledge International Handbook of Schools and Schooling in Asia brings together experts in each area to contribute their knowledge, providing a multidimensional and rich view of the issues confronting the region's school and education systems.

2nd Iberian Grid Infrastructure Conference Proceedings,

IBERGRID, Porto, Portugal, May 12-14, 2008 Fernando Silva, Gaspar Barreira, Lúgia Ribeiro. 2008 IBERGRID 2008 is the second edition of a series of Iberian Grid Infrastructure Conferences initiated in 2007 under the framework of the bilateral agreement for Science and Technology signed in November 2003 between Portugal and Spain, aiming to leverage the construction of a common Iberian Grid Infrastructure and to foster cooperation in the fields of grid computing and supercomputing. This book is the final outcome of IBERGRID 2008 - The 2nd Iberian Grid Infrastructure Conference. It is aimed at an audience of academics, researchers, students, industry specialists and practitioners in all branches of knowledge sharing a common need, that is, powerful computing, visualization and/or storage resources. This community will benefit from the Iberian Grid Infrastructure being implemented as it will provide easy and secure access to a larger and more powerful set of distributed resources.

Adult CNS Radiation Oncology Eric L. Chang, Paul D.

Brown, Simon S. Lo, Arjun Sahgal, John H. Suh. 2018-07-27 This book elucidates the radiation therapy protocols and procedures for the management of adult patients presenting with primary benign and malignant central nervous system tumors. With the development of new treatment strategies and rapid advancement of radiation technology, it is crucial for radiation oncologists to maintain and refine their knowledge and skills. Dedicated exclusively to adult CNS radiation oncology, this textbook explores CNS tumors ranging from the common to the esoteric as well as secondary cancers of metastatic origin. The first half of

by guest

the book is organized anatomically: tumors of the brain, spinal cord, leptomeninges, optic pathway, ocular choroid, and skull base. The second half covers primary CNS lymphoma, rare CNS tumors, metastatic brain disease, vascular conditions of the CNS, radiation-associated complications, and radiation modalities. Each chapter provides guidance on treatment field design, target delineation, and normal critical structure tolerance constraints in the context of the disease being treated. Learning objectives, case studies, and Maintenance of Certification Self-Assessment Continuing Medical Education-style questions and answers are incorporated throughout the book. This is an ideal guide for radiation oncologists, residents, and fellows, but medical students may also find value in the text.

Research Methods in English Medium Instruction Jack K.H. Pun,Samantha M. Curle.2021-07-19 In this special edited volume, the editors and invited English Medium Instruction (EMI) researchers, from different parts of the world, outline the latest EMI research methods. Providing academic instruction using English is rapidly spreading in many countries where English is a second or foreign language, and there is a growing interest in

Downloaded from

researching the effectiveness and effects of EMI across different educational levels. This volume includes chapters on everything from research into classroom interaction to teachers' and students' perceptions and motivations to language challenges and strategies and the pedagogical implications of translanguaging in EMI classrooms. These specific topics were chosen to reflect different approaches to researching EMI. Each chapter focuses on a specific type of research methodology. It begins with an overview of the literature of the topic under discussion. Then an example study is provided to illustrate how this methodology can be used to investigate EMI. Each chapter identifies the process that the EMI researcher used to conduct their research and discusses key dilemmas they faced, focusing particularly on the methodological issues they encountered. By exploring these issues, this volume hopes to inform theory (or the lack thereof) underlying research into the phenomenon of EMI. This volume is indispensable for EMI tutors, curriculum developers, policymakers, and teachers, as well as students at both undergraduate and postgraduate levels. It is particularly valuable for researchers from across the globe working in the fields of applied linguistics, language education, English for Academic Purposes (EAP), English Language Teaching (ELT), and Teaching English to Speakers of Other Languages (TESOL).

Boys' Life .1970-12 Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

Genitourinary Pathology, An Issue of Surgical Pathology Clinics
Sean Williamson.2018-11-21 This issue of Surgical Pathology Clinics, edited by Dr. Sean R. Williamson, will focus on Genitourinary Pathology. Topics include, but are not limited to, Large ductal lesions of the prostate; Update in hereditary renal cancer; Urothelial carcinoma variants; Non-germ cell tumors of the testis; Prostate cancer (grading); Prostate cancer (staging);

Renal cancer; Testis grading and staging; Bladder grading and staging; Man from Istanbul lesions of the genitourinary tract; Mesenchymal tumors of genitourinary tract; Translational molecular updates in renal cancer; Pathologic reporting parameters most relevant to the urologist; and Pathologic reporting parameters most relevant to the medical oncologist.

Good Housekeeping Amazing Science Good

Housekeeping.2021-08-24 Awesome S.T.E.A.M.-based science experiments you can do right at home with easy-to-find materials designed for maximum enjoyment, learning, and discovery for kids ages 8 to 12 Join the experts at the Good Housekeeping Institute Labs and explore the science you interact with every day. Using the scientific method, you'll tap into your own super-powers of logic and deduction to go on a science adventure. The engaging experiments exemplify core concepts and range from quick and simple to the more complex. Each one includes clear step-by-step instructions and color photos that demonstrate the process and end result. Plus, secondary experiments encourage young readers to build on what they've discovered. A "Mystery Solved!" explanation of the science at work helps your budding scientist understand the outcomes of each experiment. These super-fun, hands-on experiments include: Building a solar oven and making s'mores Creating an active rain cloud in a jar Using static electricity created with a balloon to power a light bulb Growing your own vegetables—from scraps! Investigating the forces that make an object sink or float And so much more! Bursting with more than 200 color photos and incredible facts, this sturdy hard cover is the perfect classroom resource or gift for any aspiring biologist, chemist, physicist, engineer, and mathematician!

Kathleen Weidner Zoehfeld.2019 Information and photographs of scientific theories and facts, for young children--
Troubling the Teaching and Learning of Gender and Sexuality Diversity in South African Education Dennis A.

Francis.2016-11-18 In this book, Francis highlights the tension between inclusion and sexual orientation, using this tension as an entry to explore how LGB youth experience schooling. Drawing on research with teachers and LGB youth, this book troubles the teaching and learning of sexuality diversity and, by doing so, provides a critical exploration and analysis of how curriculum, pedagogy, and policy reproduces compulsory heterosexuality in schools. The book makes visible the challenges of teaching sexuality diversity in South African schools while highlighting its potential for rethinking conceptions of the social and cultural representations thereof. Francis links questions of policy and practice to wider issues of society, sexuality, social justice and highlights its implications for teaching and learning. The author encourages policy makers, teachers, and scholars of sexualities and education to develop further questions and informed action to challenge heteronormativity and heterosexism.

Substance Use and Abuse in South Africa George Ellis, Dan Stein, Ernesta Meintjies, Kevin Thomas.2012-07-04 Substance abuse is an enormous social problem in South Africa, as elsewhere. But in South Africa in particular, tik (crystal meth, or methamphetamine) and alcohol are devastating society, aggravating poverty and crime, and contributing to child abuse and gender violence. Substance Use and Abuse in South Africa has arisen out of the thriving Brain-Behaviour Initiative (BBI) at the University of Cape Town, which relates neuroscience and behavioural science to social issues. This ground-breaking book looks at the problem of substance abuse from multiple perspectives and particularly in the light of recent discoveries in brain and behavioural science, but also takes a public health view. Its focus ranges from brain imaging and dopaminergic neurocircuitry to policy and prevention, and is written by local researchers at the cutting edge.

Street Gang Patterns and Policies Malcolm W. Klein, Cheryl L. Maxson.2010-04-12 In the past two decades, many prevention and suppression programs have been initiated on a national and local level to combat street gangs--but what do we really know about them? Why do youths join them? Why do they proliferate? Street Gang Patterns and Policies is a crucial update and critical examination of our understanding of gangs and major gang-control programs across the nation. Often perceived solely as an urban issue, street gangs are also a suburban and rural dilemma. Klein and Maxson focus on gang proliferation, migration, and crime patterns, and highlight known risk factors that lead to youths form and join gangs within communities. Dispelling the

gws.ala.org on 2020-05-24
by guest*

long-standing assumptions that the public, the media, and law enforcement have about street gangs, they present a comprehensive overview of how gangs are organized and structured. The authors assess the major gang programs across the nation and argue that existing prevention, intervention, and suppression methods targeting individuals, groups, and communities, have been largely ineffective. Klein and Maxson close by offering valuable policy guidelines for practitioners on how to intervene and control gangs more successfully. Filling an important gap in the literature on street gangs and social control, this book is a must-read for criminologists, social workers, policy makers, and criminal justice practitioners.
