Luna Farming Legacy Lorena Bryan et al.2019-12-09 Descendants of Spanish Colonial settlers have been practicing subsistence farming along the Rio Grande for over 250 years. As that same river became the international boundary between the US and Mexico in 1848, landownership and the landscape began to change. As issues in Mexico such as the Mexican Revolution pushed families over the river into the Rio Grande Valley of Texas, many folks established themselves as farmers along side the new arrivals from the American Midwest in the early 1900s. The guarantee of successful year-round farming was a prominent theme and the Lunas were willing and able to embark on that challenge. As their life in the US began with some time in Los Ebanos, the family eventually found themselves purchasing land and farming in Edinburg. Today Luna family members are still farming in a section of northwest Edinburg fondly referred to as Lunaville by fellow farmers.

Burn the Place Iliana Regan. 2020-08-04 LONGLISTED for the NATIONAL BOOK AWARD A “blistering yet tender” (Publishers Weekly) memoir that chronicles one chef's journey from foraging on her family's Midwestern farm to running her own Michelin-starred restaurant and finding her place in the world. Iliana Regan grew up the youngest of four headstrong girls on a small farm in Indiana. While gathering raspberries as a toddler, Regan learned to only pick the ripe fruit. In the nearby fields, the orange flutes of chanterelle mushrooms beckoned her while they eluded others. Regan's profound connection with food and the earth began in childhood, but connecting with people was more difficult. She grew up gay in an intolerant community, was an alcoholic before she turned twenty, and struggled to find her voice as a woman working in an industry dominated by men. But food helped her navigate the world around her—learning to cook in her childhood home, getting her first restaurant job at age fifteen, teaching herself cutting-edge cuisine while hosting an underground supper club, and working her way from front-of-house staff to running her own kitchen. Regan's culinary talent is based on instinct, memory, and an almost otherworldly connection to ingredients, and her writing comes from the same place. Raw, filled with startling imagery and told with uncommon emotional power, *Burn the Place* takes us from Regan's childhood farmhouse kitchen to the country's most elite restaurants in a galvanizing tale that is entirely original, and unforgettable.

Food at Work Christopher Wanjek. 2005 This volume establishes a clear link between good nutrition and high productivity. Through case studies from a variety of enterprises in twenty-eight industrialized and developing countries, the book offers valuable practical food solutions that can be adapted to workplaces of different sizes and with different budgets.

Introductory Grammar of Amharic Wolf Leslau. 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Meathead Meathead Goldwyn,Rux Martin.2016-05-17 New York Times Bestseller Named 22 Essential Cookbooks for Every Kitchen by SeriousEats.com Named 25 Favorite Cookbooks of All Time by Christopher Kimball Named Best Cookbooks Of 2016 by Chicago Tribune, BBC, Wired, Epicurious, Leite's Culinaría Named 100 Best Cookbooks of All Time by Southern Living Magazine For succulent results every time, nothing is more crucial than understanding the science behind the interaction of food, fire, heat, and smoke. This is the definitive guide to the concepts, methods, equipment, and accessories of barbecue and grilling. The founder and editor of the world's most popular BBQ and grilling website, AmazingRibs.com, “Meathead” Goldwyn applies the latest research to backyard cooking and 118 thoroughly tested recipes. He explains why dry brining is better than wet brining; how marinades really work; why rubs shouldn't have salt in them; how heat and temperature differ; the importance of digital thermometers; why searing doesn't seal in juices; how salt penetrates but spices don't; when charcoal beats gas and when gas beats charcoal; how to calibrate and tune a grill or smoker; how to keep fish from sticking; cooking with logs; the strengths and weaknesses of the new pellet cookers; tricks for rotisserie cooking; why cooking whole animals is a bad idea, which grill grates are best;and why beer-can chicken is a waste of good beer and nowhere close to the best way to cook a bird. He shatters the myths that stand in the way of perfection. Busted misconceptions include: • Myth: Bring meat to room temperature before cooking. Busted! Cold meat attracts smoke better. • Myth: Soak wood before using it. Busted! Soaking produces smoke that doesn't taste as good as dry fast-burning wood. • Myth: Bone-in steaks taste better. Busted! The calcium walls of bone have no taste and they just slow cooking. • Myth: You should sear first, then cook. Busted! Actually, that overcooks the meat. Cooking at a low temperature first and searing at the end produces evenly cooked meat. Lavishly designed with hundreds of illustrations and full-color photos by the author, this book contains all the sure-fire recipes for traditional American favorites and many more outside-the-box creations. You'll get recipes for all the great regional barbecue sauces; rubs for meats and vegetables; Last Meal Ribs, Simon & Garfunkel Chicken; Schmancy Smoked Salmon; The Ultimate Turkey; Texas Brisket; Perfect Pulled Pork; Sweet & Sour Pork with Mumbo Sauce; Whole Hog; Steakhouse Steaks; Diner Burgers; Prime Rib; Brazilian Short Ribs; Rack Of Lamb Lollipops; Huli-Huli Chicken; Smoked Trout Florida Mullet -Style; Baja Fish Tacos; Lobster, and many more.

Edible Insects Arnold van Huis, Food and Agriculture Organization of the United Nations. 2013 Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Although the majority of consumed insects are gathered in forest habitats, mass-rearing systems are being developed in many countries. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. It shows the many traditional and potential new uses of insects for direct human consumption and the opportunities for and constraints to farming them for food and feed. It examines the body of research on issues such as insect nutrition and food safety, the use of insects as animal feed, and the processing and preservation of insects and their products. It highlights the need to develop a regulatory framework to govern the use of insects for food security. And it presents case studies and examples from around the world. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. To fully realize this potential, much work needs to be done by a wide range of stakeholders. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

Texas BBQ, Small Town to Downtown Wyatt McSpadden. 2018-06-01 In *Texas BBQ*, Wyatt McSpadden immortalized the barbecue joints of rural Texas in richly authentic photographs that made the people and places in his images appear as timeless as barbecue itself. The book found a wide, appreciative audience as barbecue surged to national popularity with the success of young urban pitmasters such as Austin's Aaron Franklin, whose Franklin Barbecue has become the most-talked-about BBQ joint on the planet. Succulent, wood-smoked "old school" barbecue is now as easy to find in Dallas as in DeSoto, in Houston as in Hallettsville. In *Texas BBQ, Small Town to Downtown*, Wyatt McSpadden pays homage to this new urban barbecue scene, as well as to top-rated country joints, such as Snow's in Lexington, that were under the radar or off the map when *Texas BBQ* was published. *Texas BBQ, Small Town to Downtown* presents crave-inducing images of both the new—and the old—barbecue universe in almost every corner of the state, featuring some two dozen joints not included in the first book. In addition to Franklin and Snow's, which have both occupied the top spot in Texas Monthly's barbecue ratings, McSpadden portrays urban joints such as Dallas's Pecan Lodge and Cattleack Barbecue and small-town favorites such as Whup's Boomerang Bar-B-Que in Marlin. Accompanying his images are barbecue reflections by James Beard Award-winning pitmaster Aaron Franklin and Texas Monthly's barbecue editor Daniel Vaughn. Their words and McSpadden's photographs underscore how much has changed—and how much remains the same—since *Texas BBQ* revealed just how much good, old-fashioned 'cue there is in Texas.

The Challenge Alan Drake. 2023-12-28 God invites you to cast your cares on Him, because He cares for you (1 Peter 5:7). It is natural to seek first to meet our own needs and the needs of our family members, but God invites us to make an exchange. He invites us to cast our concerns on Him, and He promises to care for us better than we could take care of ourselves. In exchange, He desires for us to take on His concerns, His priorities, and seek His Kingdom first.

Salt of a Sailor Annie Dike. 2015-02-04 If you're thinking about buying your first sailboat and making it your own, you need to read this refreshingly honest tale. -- Ed Robinson, author of *Poop, Booze & Bikinis Had I ever sailed? No. Did I think that mattered? No. I felt I had whatever grit and guile I needed to handle this silly sailing stuff. I parachuted with a sheet, drove a car that started with a screwdriver, swished with hydrogen*

peroxide. I rode horses, climbed rocks, leapt off cliffs. I spent summers in the sleeper of a big rig. I ate Malt-o-Meal. Surely these were excellent traits of a sailor. Surely I was salty enough. I fancied I was. Either way, we were going to find out. The time to go was now. All we needed was a boat. Follow all of Annie's adventures at www.havewindwilltravel.com.
