The Company Daughters Samantha Rajaram.2020-10-30 'Blew my mind... so magically written and most of all that it is based on true events... a hard-hitting, soul-crushing book... I loved every moment of it... immersive, heart-wrenching, I feel emotional writing this review.' Goodreads reviewer, 5 stars Wanted: Company Daughters. Virtuous young ladies to become the brides of industrious settlers in a foreign land. The Company will pay the cost of the lady's dowry and travel. Returns not permitted, orphans preferred. Amsterdam, 1620. Jana Beil has learned that life rarely provides moments of joy. Having run away from a violent father, her days are spent searching for work in an effort to stay out of the city brothels, where desperate women trade their bodies for a mouthful of bread. But when Jana is hired as a servant for the wealthy and kind Master Reynst and his beautiful daughter Sontje, Jana's future begins to look brighter. Then Master Reynst loses his fortune on a bad investment, and everything changes. The house is sold to creditors, leaving Jana back on the street and Sontje without a future. With no other choice, Jana and Sontje are forced to sign with the East India Company as Company Daughters: sailing to a colonial Dutch outpost to become the brides of male settlers they know nothing about. With fear in their hearts, the girls begin their journey - but what awaits them on the other side of the world is nothing like what they've been promised... Angels and Demons in Art Rosa Giorgi.2005 This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, Angels and Demons in Art will delight readers with an interest in art or religious symbolism.

Handbook of Clinical Drug Data William G. Troutman.2002 This handbook, which in its early lustrous years served physicians, pharmacists, and pharmacy students, is unlike any other drug reference book in that it allows readers to compare and contrast various drugs within drug categories, thereby enabling them to make decisions on which drug to administer. All other drug reference books merely repeat the drug manufacturers' literature, with no analysis of that information. Nor are there any reports from the published literature concerning use and efficacy of the drugs listed. The clinical drug information with part II contains chapters on drug-induced diseases, drug interactions and interferences, drug use in special populations, immunization, medical emergencies, and nutrition support. There are also appendices that contain useful conversion factors,

anthropometrics, and laboratory indices. Unique Features: Comprehensive comparison charts of drugs by class for easy clinical decision making
Tables that help rapidly identify the cause of adverse drug effects in your patients
Guides to the optimal choice of drugs in special populations, such as pregnant and breastfeeding women, renal disease, and dialysis
The only referenced drug handbook—includes over 3,600 literature citations
Tabbing guide for easy location of drug categories
Extensive cross-referenced index that includes Canadian and British drug names

The Return of the Mother Andrew Harvey.2000-12-28 Here is Andrew Harvey's most complete statement on Mary and his vision of the Divine Mother as both a social and spiritual revolutionary.Perhaps the most radical aspect of Harvey's message is also the simplest: Only the transforming power of love can make the salvation of the human race possible. -Common Boundary In The Return of the Mother, acclaimed scholar and teacher Andrew Harvey unearths the sacred feminine in major world faiths and passionately calls on us to follow this path for an authentic and empowering relationship with the divine.

Joe Doupe Terence Moore.1989-01-01 In 1946, Winnipeg's struggling medical student received an injection of new life when scientist and army doctor Joe Doupe came home from the war. He assembled the school's first research group and in 1949, took over the physiology department. Doupe soon blended science and clinical teaching, objecting to their separation in the curriculum, which was usual at that time. He required Winnipeg medical students of the 1950s and early 1960s to take a critical look at the scientific knowledge they relied on and in their methods of scientific inquiry. From his student days Doupe was considered argumentative, forever asking colleagues, superiors or students why they believed what they took for granted. The outcome was a generation of Manitoba medical students with a perceptive and sceptical attitude towards both textbook knowledge and new medical discoveries. Doupe also showed that Winnipeg's medical students, though small and distant from the great medical centres, could become a first-rate teaching and research establishment; in doing so he became one of Canada's most distinguished medical educators.

Death Waits in the Dark Mark Edward Langley.2020-08-04 It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

Queer Space Aaron Betsky.1997-03-19 In *Building Sex*, architecture critic and curator Aaron Betsky looked at how traditional gender roles have influenced architecture. In *Queer Space*, he examines how same-sex desire is creating an entirely new architecture. Gay men and women are in the forefront of architectural innovation, reclaiming abandoned neighborhoods, redefining urban spaces, and creating liberating interiors out of hostile environments. Queer spaces have arisen out of the experiences of homosexuals in a straight culture. Often forced to hide their true nature, gay men and women have turned inward, playing with the norms of interior space and creating environments of stagecraft and celebration where they can define themselves with out fear. Their experiments point the way to an architecture that can free us all from the imprisoning structures and spaces of the modern city.

Just because you have an Ivy league education doesn't mean you're the smartest man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know. From, *Your Secret Not Admirer*
