Imam Hussain and Yazid English Edition Sultan ul Ashiqeen Hazrat Sakhi Sultan Mohammad Najib-ur-Rehman. "Imam Hussain And Yazid" the English version of the book "Syed-ul-Shuhada Hazrat Imam Hussain Aur Yazidiyat" by Sultan-ul-Ashiqeen Hazrat Sakhi Sultan Mohammad Najib-ur-Rehman sheds light on those aspects of the battle of Karbala which have been concealed by the other writers. It tells the difference between two systems, Hussainism and Yazidism, apart from the description of the valour and heroism of the sacred progeny of Prophet Mohammad and their Companions. The author has highlighted Hussain's Faqr, the essence of the whole philosophy, which has been untouched by the tellers of the significance of the battle. It also debates upon the advocacy on Yazid by his advocates, logically and with authentic references. Lost Islamic History Firas Alkhateeb.2017-11-15 Islam has been one of the most powerful religious, social and political forces in history. Over the last 1400 years, from origins in Arabia, a succession of Muslim polities and later empires expanded to control territories and peoples that ultimately stretched from southern France to East Africa and South East Asia. Yet many of the contributions of Muslim thinkers, scientists and theologians, not to mention rulers, statesmen and soldiers, have been occluded. This book rescues from oblivion and neglect some of these personalities and institutions while offering the reader a new narrative of this lost Islamic history. The Umayyads, Abbasids, and Ottomans feature in the story, as do Muslim Spain, the savannah kingdoms of West Africa and the Mughal Empire, along with the later European colonization of Muslim lands and the development of modern nation-states in the Muslim world. Throughout, the impact of Islamic belief on scientific advancement, social structures, and cultural development is given due prominence, and the text is complemented by portraits of key personalities, inventions and little known historical nuggets. The history of Islam and of the world's Muslims brings together diverse peoples, geographies and states, all interwoven into one narrative that begins with Muhammad and continues to this day.

Outlines of Islamic Jurisprudence Imran Ahsan Khan Nyazee.2016-12-16 Outlines of Islamic jurisprudence covers a number of topics of usul al-fiqh, sometimes in abridged form, that have been covered in the title on the subject of Islamic Jurisprudence by the same author. The significance of this book can only be understood through a comparison with that book. Islamic jurisprudence focuses on the discipline of usul al-fiqh and deals with it in an exhaustive way. It, thus, covers the different aspects of interpretation and theories of Islamic law. The present book includes some of the topics covered in that book. The bulk of Outlines of Islamic Jurisprudence, however, summarizes the entire law of Islam presenting it in a concise yet effective way. Property, contracts, evidence, procedure, constitutional matters and issues of Muslim personal law (family law) are dealt with efficiently. The last part of the book also includes information on the schools of law and their history. Due to the treatment of the entire Islamic law in a comprehensive way, the book is like a short encyclopedia. The book was first published in 1998 and is now in its sixth edition. It is very popular among law students, lawyers and even the general readers. Minor improvements to the book have been made over the years and it is constantly updated. Parts of the book dealing with property and contracts are taught independently as a one semester course on contracts, in particular for Islamic banking. The section on the history of the schools serves as a brief introduction to the law of Islam.
