Carrying on the Tradition: A Social and Intellectual History of Hadith Transmission across a Thousand Years Garrett Davidson.2020-07-20 In *Carrying on the Tradition* Garrett Davidson employs a variety of largely unutilized print, as well as archival sources collected from the Near East, North Africa, India, Europe, and North America. He analyses these sources to excavate the fundamental reinvention of the conceptions and practices of hadith transmission that resulted from the establishment of the hadith canon. Further, the book examines how hadith scholars reimagined the transmission of hadith, not as a scholarly tool, as it had originally been, but instead as, among other things, an act of pious emulation of the forefathers. It demonstrates the emergence of new genres and subgenres of hadith literature, as a result of this shift, examining them as artefacts of the cultural, social, and intellectual history of Muslim religiosity from the tenth to twentieth centuries.

The Spice Islands Voyage Timothy Severin.1998 *The Spice Islands Voyage* is about a journey and a quest: a journey among the Spice Islands of equatorial Indonesia aboard a traditional native sailing vessel; a quest to rediscover Alfred Russel Wallace, the brilliant and intrepid naturalist who jointly proposed, with Charles Darwin, the theory of natural selection, and whose travels founded the science of zoo geography. Navigating through sparkling coral seas to remote shorelines, Tim Severin and his crew retraced the explorer's journeys, encountering green turtles and flying foxes, observing the smuggling of rare birds and rainforest destruction, but also witnessing the emergence of a new sense of environmental awareness. Ethics In Social Science Research In Indonesia Mayling Oey- Gardiner, Fandi Rahardi, dan Canyon Keanu Can.2021-04-08 There are not many books on ethics that are currently available, especially in Indonesia. This book comes to fill that gap. A commendable book that researchers should read, especially when there is more and more research on human behavior. It is a stupendous work. □ M. Chatib Basri, Executive Director, IBER Minister of Finance of the Republic of Indonesia 2013-2014 "This book addresses an important set of issues in the context of Indonesia, a large developing country in Southeast Asia. Most work on research ethics has originated in the developed world; the strength of this book is that it relates the large international literature to the specific problems which Indonesian researchers are likely to face, especially in the social sciences. It deserves a wide readership both in Indonesia and in other parts of the world." □ Anne Booth,

Professor Emeritus, SOAS, University of London In a world full of fake news, corrupt bureaucracies, and inequitable judgements it is vital that the training of rising generations of social scientists contains thorough grounding in ethics. This volume should be required reading in all teaching programs, and a valuable addition on the desk of all graduates wishing to pursue a career in the social research professions.” □ Terence H. Hull, Emeritus Professor of Demography, The Australian National University “Reading this book is an eye-opening experience. Mayling Oey Gardiner presents novelty by discussing ethics in social science research on current issues such as big data, internet-based research, and environmental research. This book can guide academics and decision-makers to define boundaries and consider the impact of social research.” □ Rhenald Kasali Ph.D, Founder Rumah Perubahan Professor of Management, University of Indonesia

Sufi Hermeneutics Annabel Keeler.2017-10-12 This is the first major study in a Western language of Rashid al-Din Maybudi's Persian commentary on the Qur'an *Kashf al-asrar wa 'uddat al-abrar* (Unveiling of Mysteries and Provision of the Righteous). Annabel Keeler explores the interplay between scriptural exegesis and mystical doctrine in a twelfth-century Sufi commentary on the Qur'an. Previously little-known outside the Persian-speaking world, it is increasingly recognized as a key work in the development of Sufi Qur'anic interpretation. This volume provides invaluable background for anyone wanting to gain a deeper understanding of Persian mystical poetry and prose, and other major works of Sufi literature. Over a decade since this book's first publication, the bibliography and notes have been updated.

Eva Goes Solo Evangeline Neo.2016-10-02 Eva has always wanted to experience life in Japan. But upon her arrival there to pursue a master's degree, she soon finds that it's not entirely like what

she'd gleaned from reading manga and watching anime. From dirty dorms and Japanese bureaucracy to natural disasters and hay fever-inducing pollen, Eva's stay in Japan was no walk in the cherry blossom park. She was also there during the 3/11 earthquake, among the worst quakes in recent history. In this follow-up to *Eva, Kopi and Matcha*, follow Eva's footsteps as she experiences some of the best and not-quite-the-best Japan has to offer during her postgraduate adventure. Her accounts in *Eva Goes Solo* - humorous, sometimes harrowing and informative - show that her fondness for all things Japanese has not waned, despite everything.

Sentiment Analysis and Opinion Mining Bing Liu.2022-05-31 Sentiment analysis and opinion mining is the field of study that analyzes people's opinions, sentiments, evaluations, attitudes, and emotions from written language. It is one of the most active research areas in natural language processing and is also widely studied in data mining, Web mining, and text mining. In fact, this research has spread outside of computer science to the management sciences and social sciences due to its importance to business and society as a whole. The growing importance of sentiment analysis coincides with the growth of social media such as reviews, forum discussions, blogs, micro-blogs, Twitter, and social networks. For the first time in human history, we now have a huge volume of opinionated data recorded in digital form for analysis. Sentiment analysis systems are being applied in almost every business and social domain because opinions are central to almost all human activities and are key influencers of our behaviors. Our beliefs and perceptions of reality, and the choices we make, are largely conditioned on how others see and evaluate the world. For this reason, when we need to make a decision we often seek out the opinions of others. This is true not only for individuals but also for organizations. This book is a comprehensive introductory and survey text. It

covers all important topics and the latest developments in the field with over 400 references. It is suitable for students, researchers and practitioners who are interested in social media analysis in general and sentiment analysis in particular. Lecturers can readily use it in class for courses on natural language processing, social media analysis, text mining, and data mining. Lecture slides are also available online. Table of Contents: Preface / Sentiment Analysis: A Fascinating Problem / The Problem of Sentiment Analysis / Document Sentiment Classification / Sentence Subjectivity and Sentiment Classification / Aspect-Based Sentiment Analysis / Sentiment Lexicon Generation / Opinion Summarization / Analysis of Comparative Opinions / Opinion Search and Retrieval / Opinion Spam Detection / Quality of Reviews / Concluding Remarks / Bibliography / Author Biography

Introducing the Qur'an John Kaltner. 2011 Award-winning professor John Kaltner's new work offers a general introduction and orientation to the Qur'an. It surveys the origin, structure, contents, study, and use of Islam's sacred text. Offering selective rather than comprehensive coverage, the work allows for discussion and analysis of specific themes and issues of interest to modern readers. Following an introduction that describes and situates how the Qur'an is both studied and experienced, Kaltner's book takes up the following themes by chapter to foster a contemporary

understanding and appreciation of the Qur'an: the natural environment, Muslim life, gender and sexuality, non-Muslims and the Other, jihad, war and peace, and life after death. Significant passages from the Qur'an are identified and analyzed, with a special focus on how modern scholars, both Muslim and non-Muslim, understand them. Kaltner intersperses his book with numerous photographs and textboxes to emphasize and highlight important elements of the Qur'an, its history, and its relevance to contemporary life -- Publisher description.

Spiritual Capital Danah Zohar.2011-11-07 In their new book Danah Zohar and Ian Marshall envisage two scenarios. The first is business as we know it today - all short-term interest, short-term gain, isolationist thinking, with the material bottom line as king. The second envisages a business culture driven by fundamental values and a deep sense of purpose in which wealth is accumulated to generate a decent profit while acting to raise the common good. The emphasis is on 'stake-holder value', where stake-holders include the human race, present and future, and the planet itself. These are the values of Spiritual Capital. The crucial question, which Zohar and Marshall address, is: How we can move from one scenario to the other? They show how we need to consider three types of capital to make the leap. Rational Intelligence (IQ) and Emotional Intelligence (EQ) are needed to diagnose the current state, and then the twelve qualities of Spiritual Intelligence (SQ) can be used to bring about the final transformation. The ultimate goal is sustainable capitalism within a framework of a more meaningful working life.

Sons of Abraham Rabbi Marc Schneier, Imam Shamsi Ali. 2015-06-16 A prominent rabbi and imam, each raised in orthodoxy, overcome the temptations of bigotry and work to bridge the chasm between Muslims and Jews. Rabbi Marc Schneier, the eighteenth generation of a distinguished rabbinical dynasty, grew up deeply suspicious of Muslims, believing them all to be anti-Semitic. Imam Shamsi Ali, who grew up in a small Indonesian village and studied in Pakistan and Saudi Arabia, believed that all Jews wanted to destroy Muslims. Coming from positions of mutual mistrust, it seems unthinkable that these orthodox religious leaders would ever see eye to eye. Yet in the aftermath of 9/11, amid increasing acrimony between Jews and Muslims, the two men overcame their prejudices and bonded over a shared belief in the importance of opening up a dialogue and finding mutual respect. In doing so, they became not only friends but also defenders of each other's religion, denouncing the twin threats of anti-Semitism and Islamophobia and promoting interfaith cooperation. In *Sons of Abraham*, Rabbi Schneier and Imam Ali tell the story of how they became friends and offer a candid look at the contentious theological and political issues that frequently divide Jews and Muslims, clarifying erroneous ideas that extremists in each religion use to justify harmful behavior. Rabbi Schneier dispels misconceptions about chosenness in Judaism, while Imam Ali explains the truth behind concepts like jihad and Shari'a. And on the Israeli-Palestinian conflict, the two speak forthrightly on the importance of having a civil discussion and the urgency of reaching a peaceful solution. As Rabbi Schneier and Imam Ali show, by reaching a fuller understanding of one another's faith traditions, Jews and Muslims can realize that they are actually more united than divided in their core beliefs. Both traditions promote kindness, service, and responsibility for the less fortunate—and both religions call on their members to extend compassion to those outside the faith. In this sorely needed book, Rabbi Schneier and Imam Ali challenge Jews and Muslims to step out of

their comfort zones, find common ground in their shared Abrahamic traditions, and stand together and fight for a better world for all.

The Land of Five Towers (English Edition) A. Fuadi.2013-12-17 Alif had never set foot outside of West Sumatra. He passed his childhood days searching for fallen durian fruit in the jungle, playing soccer on rice paddies, and swimming in the blue waters of Lake Maninjau. His mother wants him to attend an Islamic boarding school, a pesantren, while he dreams of public high school.

Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful phrase *man jadda wajada*. He who gives his all will surely succeed.

United by punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like

America and Europe. Where would these dreams take them? They didn't know. What they did know was: never underestimate dreams, no matter how high they may be. God truly is The Listener. The Land of Five Towers is the first book in a trilogy written by A. Fuadi—a former TEMPO & VOA reporter, photography buff, and a social entrepreneur. He went to George Washington University and Royal Holloway, University of London for his masters.
