When Breath Becomes Air Paul Kalanithi. 2016-01-12 #1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. When *Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student "possessed," as he wrote, "by the question of what, given that all organisms die, makes a virtuous and meaningful life" into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. "I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything," he wrote. "Seven

Melonhead and the Big Stink Katy Kelly.2011-05-10

Melonhead is back in action, filled with curiosity, stirring up a little trouble (even though he doesn't mean to), and determined to have a summer of fun! In this second book in the Melonhead chapter book series, Melonhead is still pals with Lucy Rose, but he's not going to Parks & Rec camp this summer. He ruined one of Mrs. Wilkins's favorite garden plants, so his parents have loaned him to her to do chores. This is going to mess up his summer plans if he doesn't figure something out. He and Sam need to find a way to get to New York City to see the titan arum bunga bangkai plant. It's supposed to be twelve feet tall, weigh a hundred pounds, and smell like dead mammals, plus rot, plus spoiled food. It only blooms once every seven years, and even then only for two days and then it keels over dead. It's the Big Stink of a Lifetime! But Melonhead has to get a few more good deeds out of the way first, and doing chores for Mrs. Wilkins is a good start, even if it wasn't in the plan to begin with!

Tales from the Colony Room Darren Coffield.2020-04-16

'Entertaining, shocking, uproarious, hilarious . . . like eavesdropping on a wake, as the mourners get gradually more drunk and tell ever more outrageous stories' Sunday Times This is the definitive history of London's most notorious drinking den, the Colony Room Club in Soho. It's a hair-raising romp through the underbelly of the post-war scene: during its sixty-year history, more romances, more deaths, more horrors and more sex scandals took place in the Colony than anywhere else. Tales from the Colony Room is an oral biography, consisting of previously unpublished and long-lost interviews with the characters who were central to the scene, giving the reader a flavour of what it was like to frequent the Club. With a glass in hand you'll move through the decades listening to personal reminiscences, opinions and vitriol, from the authentic voices of those who were actually there. On your voyage through Soho's lost bohemia, you'll be served a drink by James Bond, sip champagne with Francis Bacon, queue for the loo with Christine Keeler, go racing with Jeffrey Bernard, get laid with Lucian Freud, kill time with Doctor Who, pick a fight with Frank Norman and pass out with Peter Langan. All with a stellar supporting cast including Peter O'Toole, George Melly, Suggs, Lisa Stansfield, Dylan Thomas, Jay Landesman, Sarah Lucas, Damien Hirst and many, many more.

Little Soldiers Lenora Chu.2017-09-19 New York Times Book Review Editor's Choice; Real Simple Best of the Month; Library Journal Editors' Pick In the spirit of Battle Hymn of the Tiger Mother, Bringing up Bébé, and The Smartest Kids in the World, a hard-hitting exploration of China's widely acclaimed yet insular education system that raises important questions for the future of American parenting and education When students in Shanghai rose to the top of international rankings in 2009, Americans feared that they were being out-educated by the rising super power. An American journalist of Chinese descent raising a young family in Shanghai, Lenora Chu noticed how well-behaved Chinese children were compared to her boisterous toddler. How did the Chinese create their academic super-achievers? Would their little boy benefit from Chinese school? Chu and her husband decided to enroll three-year-old Rainer in China's state-run public school system. The results were positive—her son quickly settled down, became fluent in Mandarin, and enjoyed his friends—but she also began to notice troubling new behaviors. Wondering what was happening behind closed classroom doors, she embarked on an exploratory journey, interviewing Chinese parents, teachers, and education professors, and following students at all stages of their education. What she discovered is a military-like education system driven by high-stakes testing, with

teachers posting rankings in public, using bribes to reward students who comply, and shaming to isolate those who do not. At the same time, she uncovered a years-long desire by government to alleviate its students' crushing academic burden and make education friendlier for all. The more she learns, the more she wonders: Are Chinese children—and her son—paying too high a price for their obedience and the promise of future academic prowess? Is there a way to appropriate the excellence of the system but dispense with the bad? What, if anything, could Westerners learn from China's education journey? Chu's eye-opening investigation challenges our assumptions and asks us to consider the true value and purpose of education.
