Geography and Social Justice in the Classroom Todd W. Kenreich.2013-05-02 The rise of critical discourses in the discipline of geography has opened up new avenues for social justice. *Geography and Social Justice in the Classroom* brings together contemporary research in geography and fresh thinking about geography's place in the social studies curriculum. The book's main purposes are to introduce teachers and teacher educators to new research in geography, and to provide theoretical and practical examples of geography in the curriculum. The book begins with the premise that power and inequality often have spatial landscapes. With the tools and concepts of geography, students can develop a critical geographic literacy to explore the spatial expressions of power in their lives, communities, and the wider world. The first half of the book introduces new research in the field of geography on diverse topics including the social construction of maps as instruments of power and authority. The second half of the book turns the readers' attention to geography in the P-12 classroom, and it highlights how geography can enable teachers and students to explore issues of power and social justice in the classroom. Through critical geographic literacy, educators can boldly position themselves and their students as advocates for a more just world.

World Regional Geography Lydia Mihelic Pulsipher,Ola B Johansson.2020-06-15 Pulsipher's *World Regional Geography* shows the rich diversity of human life and demystifies global issues by representing the daily lives of men, women, and children in the various regions of our globe. The eighth edition continues to make these global issues accessible to students through a thematic framework, new learning outcomes and new end of chapter support for students. This text comes with homework help SaplingPlus, an online solution that combines an e-book of the text, Pulsipher's powerful multimedia resources, and the robust problem bank of Sapling Learning. Every problem entered by a student will be answered with targeted feedback, allowing your students to learn with every question they answer.

180 Days of Geography for Fifth Grade Kristin Kemp.2018-03-01 Supplement your social studies curriculum with 180 days of daily geography practice! This essential classroom resource provides teachers with weekly geography units that build students' geography knowledge, and are easy to incorporate into the classroom. In a world that is becoming more connected and globalized, 21st century students must have the skills necessary to understand their world and how geography affects them and others. Students will develop their map and spatial skills, learn how to answer text- and photo-dependent questions, and study the 5 themes of geography. Each week covers a particular topic and introduces students to a new place or type of map. The first two weeks consist of a mini-unit that focuses entirely on map skills. For additional units, students will study various places, and how culture and geography are related. With a focus on the six populated continents, students will explore various types of maps including physical maps, political maps, topographic maps, thematic maps, climate maps, regional maps, and various topics including scale, legends, cardinal directions, latitude and longitude, and more. Aligned to state standards and National Geography Standards, this resource includes digital materials.

Critical Thinking about GeographyUnited States, Canada, and Greenland Jayne Freeman.2010-02-28 Critical Thinking about Geography: United States, Canada, and Greenland has 15 lessons that engage students in opportunities to practice and apply the geography skills and concepts they are learning. Sample topics include Reading a Political Map The Effects of Human Activity on Salmon Populations Exploring Economic Resources Connections between Culture and Geography Geographic Factors Affecting the Population Density The 29 maps in the book serve as a springboard for discussion, classroom activities, and further research. Activities are designed to take 20-30 minutes each. A debriefing discussion after each map lesson provides an opportunity for students to reflect on their experiences and synthesize their thinking. It also provides an additional opportunity for informal assessment to assist instructional planning. Each book includes a fully searchable CD-ROM of the contents. For geography classes, or to complement social studies, world culture, and world history curricula

World Geography, Grades 6 - 12 Wendi Silvano.2007-12-01 Featuring two short, reproducible activities per page, this book contains enough lessons for an entire school year.
