**From Dust to Digital** Maja Kominko. 2015-02-16 Much of world's documentary heritage rests in vulnerable, little-known and often inaccessible archives. Many of these archives preserve information that may cast new light on historical phenomena and lead to their reinterpretation. But such rich collections are often at risk of being lost before the history they capture is recorded. This volume celebrates the tenth anniversary of the Endangered Archives Programme at the British Library, established to document and publish online formerly inaccessible and neglected archives from across the globe. *From Dust to Digital* showcases the historical significance of the collections identified, catalogued and digitised through the Programme, bringing together articles on 19 of the 244 projects supported since its inception. These contributions demonstrate the range of materials documented — including rock inscriptions, manuscripts, archival records, newspapers, photographs and sound archives — and the wide geographical scope of the Programme. Many of the documents are published here for the first time, illustrating the potential these collections have to further our understanding of history.

**Makam Music Magazine** Mehmet Serif Sagiroglu. 2020-07-01 We are happy to embrace you with our rich new edition. Undoubtedly, one of the most negatively-affected elements of the coronavirus precautions is the musical events. Maybe the concerts had to be cancelled but artists continued to reach us thanks to the digital platforms. We enhanced our souls with the power of music. We are appreciated for all of these artists. You are going to notice that, in this edition apart from Turkey there are also precious music producers from Iran, Greece, Netherlands and Canada. Introducing you various musical colours from different regions of the world and witnessing that our periodical is one of the worldwide ones in its field is an additional satisfaction. Music is an energy source for a nation. We fervently emphasise the necessity of supporting these labourers who produce music and assisting them with solid steps. Having the belief that we have overtaken the hard times, we wish all of you fresh and healthy summers with plenty of music.

**The Garland Encyclopedia of World Music** Virginia Danielson, Dwight Reynolds, Scott Marcus. 2017-09-25 Expert writers present the major traditions of North Africa, the Middle East, and Central Asia, together with personal accounts of performers, composers, teachers, and ceremonies. A special feature of this volume is the inclusion of dozens of brief snap-shot essays that offer lifestories of typical musicmakers and their art, as well as first-person descriptions of specific music performances and events. Also includes maps and music examples.

*Iranian Classical Music* Laudan Nooshin. 2017-03-02 Questions of creativity, and particularly the processes which underlie creative performance or

'improvisation', form some of the central areas of interest in current musicology. Yet the predominant discourses on which musicological thought in this area are based have rarely been challenged. In this book Laudan Nooshin interrogates musicological discourses of creativity from the perspective of critical theory and postcolonial studies, examining their ideological underpinnings, the relationships of alterity which they sustain, and the profound implications for our understanding of creative processes in music. The repertoire which forms the book's main focus is Iranian classical music, a tradition in which the performer plays a central creative role. Addressing a number of issues regarding the nature of musical creativity, the author explores both the discourses through which ideas about creativity are constructed, exchanged and negotiated within this tradition, and the practice by which new music comes into being. For the latter she compares a number of performances by musicians playing a range of instruments and spanning a period of more than 30 years, focusing on one particular section of repertoire, *dastgāh Segāh*, and providing transcriptions of the performances as the basis for analytical exploration of the music's underlying compositional principles. This book is about understanding musical creativity as a meaningful social practice. It is the first to examine the ways in which ideas about tradition, authenticity, innovation and modernity in Iranian classical music form part of a wider social discourse on creativity, and in particular how they inform debates regarding national and cultural identity.

**Iranian Music and Popular Entertainment** GJ Breyley, Sasan Fatemi. 2015-11-19 The word *motreb* finds its roots in the Arabic verb *taraba*, meaning 'to make happy.' Originally denoting all musicians in Iran, *motrebi* came to be associated, pejoratively, with the cheerful vulgarity of the lowbrow entertainer. In *Iranian Music and Popular Entertainment*, GJ Breyley and Sasan Fatemi examine the historically overlooked *motrebi* milieu, with its marginalized characters, from *luti* to *gardan koloft* and *mashti*, as well as the tenacity of *motreb* who continued their careers against all odds. They then turn to *losanjelesi*, the most pervasive form of Iranian popular music that developed as *motrebi* declined, and related musical forms in Iran and its diasporic popular cultural centre, Los Angeles. For the first time in English, the book makes available musical transcriptions, analysis and lyrics that illustrate the complexities of this history. As it presents the findings of the authors' years of ethnographic work with the history's protagonists, from senior *motreb* to pop-rock stars, the book reveals parallels between the decline of *motrebi* and the rise of 'modernity.' In the twentieth century, the fate of Tehran's *motrebi* music was shaped by the social and urban polarization that ensued from the modern market economy, and *losanjelesi* would be similarly affected by transnational relations, revolution, war and migration. Through its detailed and informed examination of Iranian popular music, this study reveals much about the values and anxieties of Iranian society, and is a valuable resource for students and scholars of Iranian society and history.

**Eminent Persians** Abbas Milani. 2022-08-01 As the 25th anniversary of the Islamic Revolution approached, Abbas Milani realized that very little, if any, attention had been given to the entire prerevolutionary generation. Political upheavals and a tradition of neglecting the history of past regimes have resulted in a cultural memory loss, erasing the contributions of a generation of individuals. *Eminent Persians* seeks to rectify that loss. Milani's groundbreaking portrait of modern Iran reveals the country's rich history through the lives of the men and women who forged it. Consisting of 150 profiles of the most important innovators in Iran between World War II and the Islamic Revolution, the book includes politicians, entrepreneurs, poets, artists, and thinkers who brought Iran into the modern era with brilliant success and sometimes terrible consequences. The biographies and

essays weave a richly textured tapestry of lives, ideas, and events that reveals the true story of these decades in the life of a nation. The two volumes are divided into sections on politics, economics, and culture, each accompanied by an introductory essay that places the individual stories in their broader historical context. Drawn from interviews, extensive archival material, and private correspondence, *Eminent Persians* is a treasure trove of original documents, many appearing in print for the first time. Detailed sketches of personalities and personal foibles offer a compelling and highly readable account of this remarkable period of history on a human scale.

Transportation & Technology in Iran, 1800-1940: : Chapar, Carts, Carriages, Automobiles, Bicycles, Motor Cycles, Lodgings, Sewing Machines, Typewriters & Pianos Willem Floor.2023-08-21 Only 100 years ago the main means of transportation in Iran was by quadruped. *Transportation & Technology in Iran, 1800-1940*, by renowned Iranian studies scholar Willem Floor is an in-depth, illustrated, four-part study of the subject. Until the 1920s Iran had no more than 700 kilometers of roads suitable for motor vehicles, which situation greatly impeded Iran's economic development. Caravans traveled 40 km/day, though travelers in a hurry could cover 150 km/day when using the courier system (chapar), which is the subject of part 1. Wheeled transportation, (in part 2 of the books) was rare and limited to only a few parts of country due to the lack of roads. This situation underwent change when carriages became popular in urban areas and on the few modern roads after 1890. Motorized transportation grew in importance after 1921 and really took off in the 1930s, with the construction of a new road network. As a result, newer, more powerful trucks reduced the cost of transportation significantly, thus lowering the cost of retail goods. The increase of motorized transport also meant that car dealers, import rules, mechanics, garages, supply of spare parts, and gasoline distribution as well as traffic regulations had to be created ex nihilo; All these processes are detailed in the book. Like cars, bicycles and motorcycles also were increasingly used as of the 1920s, thus increasing choice in people's mobility. More road traffic also implied that travelers needed places to spend the night and eat. The change from caravanserais to guest-houses and hotels is discussed in part 3. These changes in transportation methods did not come alone, for other modern tools of change such as the sewing machine and the typewriter also made their appearance and had a major impact on people's availability and use of time. Finally, the piano made its entry onto the Iranian musical scene, and although not perfectly in tune with the traditional Iranian musical system, it is now as much part of music making in Iran as the tar and santur (part 4 of the book). All these changes and new technologies did not happen overnight or without problems, and slow adoption initially was limited to the upper-class. However, with falling prices and changing needs and policies these new technologies eventually reached a larger public and the idea that they once were 'exotic' and 'out of reach' is now inconceivable to Iranians. The studies in this book provide a new vantage point and understanding of the transfer of modern technology for scholars of the social-economic and cultural history of the Middle East.

*Music, Math, and Mind* David Sulzer.2021-04-27 Why does a clarinet play at lower pitches than a flute? What does it mean for sounds to be in or out

of tune? How are emotions carried by music? Do other animals perceive sound like we do? How might a musician use math to come up with new ideas? This book offers a lively exploration of the mathematics, physics, and neuroscience that underlie music in a way that readers without scientific background can follow. David Sulzer, also known in the musical world as Dave Soldier, explains why the perception of music encompasses the physics of sound, the functions of the ear and deep-brain auditory pathways, and the physiology of emotion. He delves into topics such as the math by which musical scales, rhythms, tuning, and harmonies are derived, from the days of Pythagoras to technological manipulation of sound waves. Sulzer ranges from styles from around the world to canonical composers to hip-hop, the history of experimental music, and animal sound by songbirds, cetaceans, bats, and insects. He makes accessible a vast range of material, helping readers discover the universal principles behind the music they find meaningful. Written for musicians and music lovers with any level of science and math proficiency, including none, Music, Math, and Mind demystifies how music works while testifying to its beauty and wonder.

*I Wish I Were a Jew* Ashkan Tashakkori.2014-07-11 Author Ashkan Tashakkori was born to a Muslim family in Iran in 1958. However, he became disillusioned with religion when he observed the parasitic lives of the mullahs. He hated their hypocrisy and came to believe that Islamic ideology was the main cause of backwardness in Persian society. In *I Wish I Were a Jew*, Tashakkori explains the roots of the enmity with Israel and the Jewish nation in various countries, particularly the Muslim world. After offering an objective appraisal of achievements of the Jews and the key part they've played in the elevation of civilization and progress of human society, he presents insights into the common misconceptions about the Jewish people and lists a number of carefully worked out solutions for overcoming them. It also examines the historical and cultural roots of the deep-seated friendship that ties the fates of the Persian and Jewish nations together. Providing a new perspective on a crucial issue, *I Wish I Were a Jew* delves into the historical and political problems that have plagued this age. It can help the two sides, which have been locked in an unending feud, free themselves of their prejudices and reach a mutual understanding that guarantees a long-lasting peace in the world.

Music and Song in Persia (RLE Iran B) Lloyd Miller.2012-05-04 This book is the first full-length analysis of the theory and practice of Persian singing, demonstrating the centrality of Persian elements in the music of the Islamic Middle Ages, their relevance to both contemporary and traditional Iranian music and their interaction with classical Persian poetry and metrics.

Music of a Thousand Years Ann E. Lucas.2019-10-22 A free open access ebook is available upon publication. Learn more at [www.lumino.org](http://www.lumino.org). Iran's particular system of traditional Persian art music has been long treated as the product of an ever-evolving, ancient Persian culture. In *Music of a Thousand Years*, Ann E. Lucas argues that this music is a modern phenomenon indelibly tied to changing notions of Iran's national history. Rather than considering a single Persian music history, Lucas demonstrates cultural dissimilarity and discontinuity over time, bringing to light two different notions of music-making in relation to premodern and modern musical norms. An important corrective to the history of Persian music, *Music of a Thousand Years* is the first work to align understandings of Middle Eastern music history with current understandings of the region's political history.

**Present Past** Hormoz Farhat.2019-09-19 This is a selective *mémoire*, as the author, well known Iranian musicologist and composer Hormoz Farhat, calls it. His rich life is divided into four distinct phases: being born in and growing up in Iran; studying and later teaching in the United States; returning to Iran during the boom of the seventies; and finally escaping the tumultuous 1979 Iranian Revolution to Ireland, a country that we love and admire, a green and gentle land with warm and charming people, where he taught and still lives. The author was born in Persia during the transformative years of the nineteen thirties and forties. He remembers Reza Shah's forceful reforms and secularization, the upheaval of the Second World War, the Allied invasion and later, the Shah's abdication. During this period he becomes enchanted with Western classical music. In 1949, Farhat moves to America, not knowing much English, where he is a stranger in a strange land and was so out of step as to wear a suit and tie to his university classes. He eventually finishes his doctorate, becomes a composer, and teaches at a university. In 1968, a time when a great deal of reform and progress were underway, he returns to Persia. During that period, he heads the Music Department at the University of Tehran and the Music Council for the Iranian National Television network. He also relates his role in planning the annual Shiraz{/Persepolis} Arts Festival. In the final section, Persian and Western music are compared and contrasted. The history and substance of the urban musical tradition of Persia are discussed, as well as the problems that music faces in Islamic society. He assesses the musical trends of the past one hundred years in contemporary Western musical composition.

Each chapter highlights concepts as taught in lower-level anthropology courses, and includes teaching and learning tools. Chapters range from a memoir-like social biography of a single instrument to explorations of violins in relation to technology, labor, the environment, migration, globalization, childhood, cultural understandings of talent and virtuosity, and prestige.

*Music and Coexistence* Osseily Hanna.2014-12-11 *Music and Coexistence: A Journey across the World in Search of Musicians Making a Difference* is both study and travelogue, as author Osseily Hanna explores the courageous work of musicians who compose and perform with their ostensible enemies or in extraordinary social situations. He documents the political and economic constraints faced by musicians, from the wall that encloses a refugee camp in Jerusalem, to the tensions among KFOR and Carabinieri peacekeepers who keep Serbs and Kosovar Albanians apart, to the cultural and linguistic suppression that afflicts minority communities in Turkey.

You won't find fiction here - like Wikipedia, Wikibooks is devoted entirely to

the sharing of knowledge. It's disappointing that there's no convenient menu that lets you just browse freebies. Instead, you have to search for your preferred genre, plus the word 'free' (free science fiction, or free history, for example). It works well enough once you know about it, but it's not immediately obvious. You can search for free Kindle books at Free-eBooks.net by browsing through fiction and non-fiction categories or by viewing a list of the best books they offer. You'll need to be a member of Free-eBooks.net to download the books, but membership is free.
