This book doesn't just teach you how to be a standout applicant; it show's how to pick agencies, what Departments look for, and how to plan out your selections so that it benefits not only you but your family as well. The Trivium in College Composition and Reading Sister Miriam Joseph.2014-08-27 2014 Reprint of 1948 Third Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. The Trivium is a systematic method of critical thinking for deriving certainty from any information coming into the mind via the five senses. In medieval universities, the Trivium comprised the three subjects that were taught first, specifically in this order: grammar, logic and rhetoric. While most textbooks are lucky to enjoy a shelf life of three or four years, The Trivium followed a different path. In 1947, when Columbia University Press published her celebrated dissertation, Shakespeare's Use of the Arts of Language, Sister Miriam Joseph's previously published textbook gained wider notice. And since then, The Trivium continues to be rediscovered by new generations of writers and teachers. This dense, authoritative textbook takes all of Aristotle's teachings on logic, grammar, and rhetoric, and some of his teachings of poetics, adds some of the insights gained in the subsequent centuries, and presents it in a well-organized flow.

Florida Law Enforcement Academy Performance and State Certification Examination

Scores John Michael Dwyer.2015 ABSTRACT: For decades, Florida law enforcement training academies have been teaching basic law enforcement practitioner skills. No researchers have conducted a study to determine if any statistical correlation exists between scores on the academy admission test, known as the Criminal Justice Basic Abilities Test (CJBAT), the scores achieved by students during training, and the scores those same students achieved on the State Officer Certification Examination (SOCE). The purpose of this study was to determine if a statistical correlation exists between the test scores achieved by students during training and their scores achieved on the SOCE. The following were the research questions of this study: 1. How do the demographics of the academy students, such as age, gender, ethnicity, and military experience, relate to performance on the SOCE? 2. How do performance indicators of the CJBAT and subject matter tests relate to student scores on the SOCE? 3. What combination from all the performance indicators explains the unique variance in the SOCE? The results supported a hypothesized relationship between the CJBAT scores, the academy subject matter test scores, and the SOCE. Additionally, a relationship existed between gender, ethnicity, prior military service, and test performance. This study indicated a relationship existed between higher scores on the CJBAT and academy test scores. In particular, two academy tests, Introduction to Law Enforcement and Vehicle Operations, had a significant relationship to performance on the SOCE. Although this study primarily involved investigating any correlation between test scores and performance on the SOCE, the findings indicated older, White males with prior military experience tended to perform better on the SOCE than others.
