**The Political Language of Islam** Bernard Lewis.2018-12-14 What does jihad really mean? What is the Muslim conception of law? What is Islam's stance toward unbelievers? Probing literary and historical sources, Bernard Lewis traces the development of Islamic political language from the time of the Prophet to the present. His analysis of documents written in Arabic, Persian, and Turkish illuminates differences between Muslim political thinking and Western political theory, and clarifies the perception, discussion, and practices of politics in the Islamic world. Lewis's own style, combining erudition with a simple elegance and subtle humor, continues to inspire. In an era of specialization and narrowing academic vision, he stands alone as one who deserves, without qualification, the title of historian of Islam.—Martin Kramer, *Middle East Review* A superb effort at synthesis that presents all the relevant facts of Middle Eastern history in an eminently lucid form. . . . It is a book that should prove both rewarding and congenial to the Muslim reader.—S. Parvez Manzor, *Muslim World Book Review* By bringing his thoughts together in this clear, concise and readable account, [Lewis] has placed in his debt scholars and all who seek to understand the Muslim world.—Ann K. S. Lambton, *Bulletin of the School of Oriental and African Studies* [Lewis] constructs a fascinating account of the ways in which Muslims have conceived of the relations between ruler and ruled, rights and duties, legitimacy and illegitimacy, obedience and rebellion, justice and oppression. And he shows how changes in political attitudes and concepts can be traced through changes in the political vocabulary.—Shaul Bakhash, *New York Review of Books*

**Collaborative Crisis Management** Fredrik Bynander,Daniel Nohrstedt.2019-11-27 Public organizations are increasingly expected to cope with crisis under the same resource constraints and mandates that make up their normal routines, reinforced only through collaboration. Collaborative Crisis Management introduces readers to how collaboration shapes societies' capacity to plan for, respond to, and recover from extreme and unscheduled events. Placing emphasis on five conceptual dimensions, this book teaches students how this panacea works out on the ground and in the boardrooms, and how insights on collaborative practices can shed light on the outcomes of complex inter-organizational challenges across cases derived from different problem areas, administrative cultures, and national systems. Written in a concise, accessible style by experienced teachers and scholars, it places modes of collaboration under an analytical microscope by assessing not only the collaborative tools available to actors but also how they are used, to what effect, and with which adaptive capacity. Ten empirical chapters span different international cases and contexts discussing: Natural and man-made hazards: earthquakes, hurricanes, wildfires, terrorism, migration flows, and violent protests Different examples of collaborative institutions, such as regional economic communities in Africa, and multi-level arrangements in Canada, the Netherlands, Turkey, and

Switzerland Application of a multimethod approach, including single case studies, comparative case studies, process-tracing, and large-n designs. Collaborative Crisis Management is essential reading for those involved in researching and teaching crisis management.

**A Critic Writes** Reyner Banham.2023-09-01 Few twentieth-century writers on architecture and design have enjoyed the renown of Reyner Banham. Born and trained in England and a U.S. resident starting in 1976, Banham wrote incisively about American and European buildings and culture. Now readers can enjoy a chronological cross-section of essays, polemics, and reviews drawn from more than three decades of Banham's writings. The volume, which includes discussions of Italian Futurism, Adolf Loos, Paul Scheerbart, and the Bauhaus as well as explorations of contemporary architecture by Frank Gehry, James Stirling, and Norman Foster, conveys the full range of Banham's belief in industrial and technological development as the motor of architectural evolution. Banham's interests and passions ranged from architecture and the culture of pop art to urban and industrial design. In brilliant analyses of automobile styling, mobile homes, science fiction films, and the American predilection for gadgets, he anticipated many of the preoccupations of contemporary cultural studies. Los Angeles, the city that Banham commemorated in a book and a film, receives extensive attention in essays on the Santa Monica Pier, the Getty Museum, Forest Lawn cemetery, and the ubiquitous freeway system. Eminently readable, provocative, and entertaining, this book is certain to consolidate Banham's reputation among architects and students of contemporary culture. For those acquainted with his writing, it offers welcome surprises as well as familiar delights. For those encountering Banham for the first time, it comprises the perfect introduction.

**Commercial Law** M. A. Clarke,R. J. A. Hooley,R. J. C. Munday,L. S. Sealy,A. M. Tettenborn,P. G. Turner.2017 Commercial Law: Text, Cases, and Materials provides students with an extensive and valuable range of extracts from key cases and writings in this most dynamic field of law. The authors' expert commentary and questions enliven each topic while emphasizing the practical application of the law in its business context. Len Sealy and Richard Hooley have been joined by four renowned experts in the field for the preparation of this edition. The authors have captured the essence of this fascinating topic at a time of significant legislative, regulatory, and political change.

**Power-Sharing in Europe** Soeren Keil,Allison McCulloch.2020-12-15 This book evaluates the performance of consociational power-sharing arrangements in Europe. Under what conditions do consociational arrangements come in and out of being? How do consociational arrangements work in practice? The volume assesses how consociationalism is adopted, how it functions, and how it reforms or ends. Chapters cover early adopters of consociationalism, including both those which moved on to other institutional designs (the Netherlands, Austria) as well as those that continue to use consociational processes to manage their differences (Belgium, Switzerland, South Tyrol). Also analysed are 'new wave' cases where consociationalism was adopted after violent internal conflict (Bosnia and Herzegovina, Kosovo, North Macedonia, Northern Ireland) and cases of unresolved conflict where consociationalism may yet help mediate ongoing divisions (Cyprus, Spain). Soeren Keil is Reader in Politics and International Relations, Canterbury Christ Church University, United Kingdom. Allison McCulloch is Associate Professor in Political Science, Brandon University, Canada.

**Federalism and the Response to COVID-19** Rupak Chattopadhyay,Felix Knüpling,Diana Chebenova,Liam Whittington,Phillip Gonzalez.2021-11-29 The COVID-19 pandemic bared the inadequacies in existing structures of public health and governance in most countries. This book provides a comparative analysis of policy approaches and planning adopted by federal governments across the globe to battle and adequately respond to the health emergency as well as the socio-economic fallouts of the pandemic. With twenty-four case studies from across the globe, the book critically analyzes responses to the public health crisis, its fiscal impact and management, as well as decision-making and collaboration between different levels of government of countries worldwide. It explores measures taken to contain the pandemic and to responsibly regulate and manage the

health, socio-economic welfare, employment, and education of its people. The authors highlight the deficiencies in planning, tensions between state and local governments, politicization of the crisis, and the challenges of generating political consensus. They also examine effective approaches used to foster greater cooperation and learning for multi-level, polycentric innovation in pandemic governance. One of the first books on federalism and approaches to the COVID-19 pandemic, this volume is an indispensable reference for scholars and researchers of comparative federalism, comparative politics, development studies, political science, public policy and governance, health and wellbeing, and political sociology.

Portals to the Past and to the Future Jürgen Seefeldt, Ludger Syr . 2017 The advent of the digital era has raised questions on the future course of library development. The challenge of maintaining a balance between their educational, cultural and service roles has presented libraries with new challenges - challenges which their rich and varied media holdings, modern technical infrastructure and information specialist competence well equip them to face. This fourth revised and updated English edition of *Portals to the Past and to the Future* by J rgen Seefeldt and Ludger Syr , now in its fifth German edition, is an in-depth state-of-the-art report on current German librarianship. Lavishly illustrated, the book traces the history of libraries in Germany, portrays the various types of library and cites many examples of the outstanding achievements of nationwide library cooperation in the Federal Republic of Germany. The reader will gain both a revealing insight into the cultural and educational policy underlying the German library system and an outline of the profession. Special attention has been paid to current developments such as the preservation and presentation of the common cultural heritage and the emergence of the digital library. This book has been translated not only into English but also into Arabic, Italian, Japanese, Spanish, Russian and Turkish and is now the standard work on libraries and librarianship in Germany. Because of the interest it has generated internationally, it was decided to publish the German and English versions of this new edition simultaneously. The book provides trainee librarians and non-librarians alike with a clear picture of the way in which libraries were able to cooperate in the aftermath of the Second World War to overcome the vagaries of the federal system and create an effective decentralized library network more than a match for the challenges of the third millennium.

Federalism George Anderson. 2008 *Federalism: An Introduction* provides students of political science as well as practitioners and scholars with a concise, jargon-free overview of the various forms of federal government found around the world as well as the basic principles, practices, benefits, and challenges characteristic of the federal form of government. The book defines federalism and examines the constitutional, legal, financial, and philosophical underpinnings of federal systems, incorporating examples not only from well-known and long-established federations such as US and Canada but countries that have only recently adopted a federal form of government.

**The Shiites** Heinz Halm. 2007 The author highlights the three main aspects of Shi'a Islam: its historical development, especially the history of the Imams; the rituals, including flagellation and passion plays; and the rule of the mullahs, known as the government of experts. Shi'ism is as old as Islam. It began as an exclusively Arab political issue of succession to Muhammad, and was later embraced by the Iranians. At the core of Shi'i religious practice are rituals of mourning and atonement.--Publisher description.

**Swiss Public Administration** Andreas Ladner, Nils Soguel, Yves Emery, Sophie Weerts, St phane Nahrath. 2018-08-07 Swiss citizens approve of their government and the way democracy is practiced; they trust the authorities and are satisfied with the range of services Swiss governments provide. This is quite unusual when compared to other countries. This open access book provides insight into the organization and the functioning of the Swiss state. It claims that, beyond politics, institutions and public administration, there are other factors which make a country successful. The authors argue that Switzerland is an interesting case, from a theoretical, scientific and a more practice-oriented perspective. While confronted with the same challenges as other countries, Switzerland offers different solutions, some of which work astonishingly well.

*Fritz Haber* Dietrich Stoltzenberg. 2004 This long-awaited biography of Fritz Haber, now abridged by

the author and translated into English, illuminates the life of one of the most gifted yet controversial figures of the 20th century. Haber was a pioneer in electrochemistry and thermodynamics and won the Nobel Prize for his synthesis of ammonia, a process essential for both fertilizer and explosives. His dedication to work spurred his efforts to increase support for scientific study in Germany; yet it also helped cause the breakdown of his two marriages. His ardent patriotism led him to develop chemical weapons for World War I and to try to extract gold from seawater, to help pay for Germany's huge war reparations. Yet Haber, a Jew by birth, was exiled from his homeland in 1933 by the Nazi party and died shortly after.

*Monet to Picasso, the Batliner Collection* Graphische Sammlung Albertina, Susanne Berchtold. 2007 In 2007, the Albertina in Vienna, Austria announced the acquisition of the Batliner collection, one of the most important collections of modern art in the world. Comprising more than 500 pieces, the Batliner collection includes a wide range of pieces covering virtually aspect of modern painting, including French impressionism, German expressionism, Fauvism, the Russian avantgarde, and surrealism. This new book, which highlights the most important artists in the collection, provides an excellent overview of international classic modernism.

**Managing Interdependencies in Federal Systems** Johanna Schnabel. 2020-02-18

Intergovernmental councils have emerged as the main structures through which the governments of a federation coordinate public policy making. In a globalized and complex world, federal actors are increasingly interdependent. This mutual dependence in the delivery of public services has important implications for the stability of a federal system: policy problems concerning more than one government can destabilize a federation, unless governments coordinate their policies. This book argues that intergovernmental councils enhance federal stability by incentivizing governments to coordinate, which makes them a federal safeguard. By comparing reforms of fiscal and education policy in Australia, Canada, Germany, and Switzerland, this book shows that councils' effectiveness as one of federalism's safeguards depends on their institutional design and the interplay with other political institutions and mechanisms. Federal stability is maintained if councils process contentious policy problems, are highly institutionalized, are not dominated by the federal government, and are embedded in a political system that facilitates intergovernmental compromising and consensus-building.

Habitat Tom Hegen. 2018-11 The work of photographer Tom Hegen (b. 1991) deals with human interventions in natural habitats. His photographs document the strong impact human beings' have on our environment and show how we have altered our landscape through our actions. Including many impressive aerial photos, this photo book invites viewers to discover their environment from a new perspective, to comprehend the scale of human interventions on our earth's surface, and, ultimately, to assume responsibility. English and German text.

Theory and Methods in Comparative Policy Analysis Studies Iris Geva-May, B. Guy Peters, Joselyn Muhleisen. 2020-06-09 Volume One of the Classics of Comparative Policy Analysis, *Theory and Methods in Comparative Policy Analysis Studies* includes chapters that apply or further theory and methodology in the comparative study of public policy, in general, and policy analysis, in particular. Throughout the volume the chapters engage in theory building by assessing the relevance of theoretical approaches drawn from the social sciences, as well as some which are distinctive to policy analysis. Other chapters focus on various comparative approaches based on developments and challenges in the methodology of policy analysis. Together, this collection provides a comprehensive scholastic foundation to comparative policy analysis and comparative policy studies. *Theory and Methods in Comparative Policy Analysis Studies* will be of great interest to scholars and learners of public policy and social sciences, as well as to practitioners considering what can be learned or facilitated through methodologically and theoretically sound approaches. The chapters were originally published as articles in the *Journal of Comparative Policy Analysis* which in the last two decades has pioneered the development of comparative public policy. The volume is part of a four-volume series, the Classics of Comparative Policy Analysis including *Theories and Methods*,

Institutions and Governance, Regional Comparisons, and Policy Sectors. Each volume showcases a different new chapter comparing domains of study interrelated with comparative public policy: political science, public administration, governance and policy design, authored by the JCPA co-editors Giliberto Capano, Iris Geva-May, Michael Howlett, Leslie A. Pal and B. Guy Peters.

**Deliberation Across Deeply Divided Societies** Jürg Steiner.2017-03-16 This analysis of deliberative transformative moments gives deliberative research a dynamic aspect, opening practical applications in deeply divided societies.

Comparative Civil Service Systems in the 21st Century Frits M. Van der Meer,J. Raadschelders,T. Toonen.2015-02-06 This revised and expanded edition of a benchmark collection compares how civil services around the world have adapted to cope with managing public services in the 21st century. The volume provides insights into multi-level governance, juridification and issues of efficiency and responsiveness as well as exploring the impact of fiscal austerity.

Comparative Law Uwe Kischel.2019-02-21 Uwe Kischel's comprehensive treatise on comparative law offers a critical introduction to the central tenets of comparative legal scholarship. The first part of the book is dedicated to general aspects of comparative law. The controversial question of methods, in particular, is addressed by explaining and discussing different approaches, and by developing a contextual approach that seeks to engage with real-world issues and takes a practical perspective on contemporary comparative legal scholarship. The second part of the book offers a detailed treatment of the major legal contexts across the globe, including common law, civil law systems (based on Germany and France, and extended to Eastern Europe, Scandinavia, and Latin America, among others), the African context (with an emphasis on customary law), different contexts in Asia, Islamic law and law in Islamic countries (plus a brief treatment of Jewish law and canon law), and transnational contexts (public international law, European Union law, and *lex mercatoria*). The book offers a coherent treatment of global legal systems that aims not only to describe their varying norms and legal institutions but to propose a better way of seeking to understand how the overall context of legal systems influences legal thinking and legal practice.

The SAGE Handbook of Research Methods in Political Science and International Relations Luigi Curini,Robert Franzese.2020-04-09 The SAGE Handbook of Research Methods in Political Science and International Relations offers a comprehensive overview of research processes in social science — from the ideation and design of research projects, through the construction of theoretical arguments, to conceptualization, measurement, & data collection, and quantitative & qualitative empirical analysis — expositied through 65 major new contributions from leading international methodologists. Each chapter surveys, builds upon, and extends the modern state of the art in its area. *Moon Sisters, Krishna Mothers, Rajneesh Lovers* Susan J. Palmer.1994 A study of women's roles and alternative patterns of sexuality in seven contemporary communal and millenarian movements. Based almost exclusively on interviews and first-hand data, this book will be of interest to scholars and students in communal and utopian studies, American religious history, and new religious movements. 10 illustrations. Index.

**The Holocaust** Wolfgang Benz.1999 The history of the Holocaust keeps being written and rewritten in ever greater detail, but almost always by Jews. Wolfgang Benz's book makes an important contribution by bringing the German perspective to this horrific event. A masterpiece of compression, the books covers all the major topics and issues, from the Wannsee Conference of January 20, 1942, to stripping Jews of their civil rights, from the establishment of ghettos to the

creation of killing centers and the development of an efficient system for extermination. The book also includes a chapter on The Other Genocide: The Persecution of the Sinti and Roma, detailing the crusade against the Gypsies. From the Foreword by Arthur Hertzberg: Benz's account is the necessary 'first course' for anyone who wants to know about the Holocaust and to think further about its meaning for humanity. It is of particular importance that the historian who has written this book is a German. This account is trustworthy because its author combines within himself the rare authority of someone who belongs to the past of his nation. He has both understood and transcended its history in this century. The subject of the book, the Holocaust, is somber beyond words, but this account in Benz's words is a cause for hope.

**Down from Olympus** Suzanne L. Marchand.2020-06-30 Since the publication of Eliza May Butler's Tyranny of Greece over Germany in 1935, the obsession of the German educated elite with the ancient Greeks has become an accepted, if severely underanalyzed, cliché. In Down from Olympus, Suzanne Marchand attempts to come to grips with German Graecophilia, not as a private passion but as an institutionally generated and preserved cultural trope. The book argues that nineteenth-century philhellenes inherited both an elitist, normative aesthetics and an ascetic, scholarly ethos from their Romantic predecessors; German neohumanists promised to reconcile these intellectual commitments, and by so doing, to revitalize education and the arts. Focusing on the history of classical archaeology, Marchand shows how the injunction to imitate Greek art was made the basis for new, state-funded cultural institutions. Tracing interactions between scholars and policymakers that made possible grand-scale cultural feats like the acquisition of the Pergamum Altar, she underscores both the gains in specialized knowledge and the failures in social responsibility that were the distinctive products of German neohumanism. This book discusses intellectual and institutional aspects of archaeology and philhellenism, giving extensive treatment to the history of prehistorical archaeology and German orientalism. Marchand traces the history of the study, excavation, and exhibition of Greek art as a means to confront the social, cultural, and political consequences of the specialization of scholarship in the last two centuries.

**Power Diffusion and Democracy** Julian Bernauer,Adrian Vatter.2019-05-08 Departing from the established literature connecting the political-institutional patterns of democracy with the quality of democracy, this book acknowledges that democracies, if they can be described as such, come in a wide range of formats. At the conceptual and theoretical level, the authors make an argument based on deliberation, redrawing power diffusion in terms of the four dimensions of proportionality, decentralisation, presidentialism and direct democracy, and considering the potential interactions between these aspects. Empirically, they assemble data on sixty-one democracies between 1990 and 2015 to assess the performance and legitimacy of democracy. Their findings demonstrate that while, for example, proportional power diffusion is associated with lower income inequality, there is no simple institutional solution to all societal problems. This book explains contemporary levels of power diffusion, their potential convergence and their manifestation at the subnational level in democracies including the United States, Switzerland, Germany and Austria.

**The Palgrave Handbook of Public Administration and Management in Europe** Edoardo Ongaro,Sandra Van Thiel.2017-11-27 This Handbook offers a systematic review of state-of-the-art knowledge on public administration in Europe. Covering the theoretical, epistemological and practical aspects of the field, it focuses on how public administration operates and is studied in European countries. In sixty-three chapters, written by leading scholars, this Handbook considers the uniqueness of the European situation through an interdisciplinary and comparative lens, focusing on the administrative diversity which results from the multiplicity of countries, languages, schools of thought and streams of investigation across Europe. It addresses issues such as multi-level administration and governance, intensive cross country cooperation in administrative reform policy, and public accountability under different systems. It also considers the issue of welfare service delivery, at a time of major economic and societal challenges, as well as understudied

emerging issues like Islamic Public Administration and the dynamics of public sector negotiations. With contributions from key experts in Public Administration and Public Management, this cutting edge Handbook offers a significant contribution to the field of comparative public administration, policy and management.

**Trends in International Migration 2003** Organisation for Economic Co-operation and Development.2004 This report analyzes recent trends in migration movements and policies in all OECD member countries and in selected non-member countries. It includes a detailed description of the flows, the different channels of immigration and the diversity of nationalities involved. The report also underscores the contribution of immigration to population and labor force growth and reports on the changes in the sectoral distribution of foreign workers. In addition, it reviews selection policies in relation to labor migration, especially those regarding skilled foreign workers, and examines limits to these policies. The report also presents measures aimed at improving the management of migration flows, recalling that cooperation with origin countries remains a priority for migration policies. Particular attention is given to the integration of immigrants, with a focus on policies that improve the knowledge of the host country's language, the recognition of migrants' diplomas and qualifications and access to vocational training for low-skilled migrants. The report also includes details about the ongoing process in developing common migration policies within Europe.

**Enhancing Evaluation Use** Marlene Laubli Loud, Marlène Läubli Loud, John Mayne.2013-04-17 This book is valuable to those involved in the evaluation of public organisations. Particularly insightful is the realization that similar challenges faced in various organizations are addressed with very different solutions.

**Social Media and Democracy** Brian D. Loader, Dan Mercea.2012-06-12 This book critically investigates the complex interaction between social media and contemporary democratic politics, and provides a grounded analysis of the emerging importance of Social media in civic engagement. Social media applications such as Facebook, Twitter, and YouTube, have increasingly been adopted by politicians, political activists and social movements as a means to engage, organize and communicate with citizens worldwide. Drawing on Obama's Presidential campaign, opposition and protests in the Arab states, and the mobilization of support for campaigns against tuition fee increases and the UK Uncut demonstrations, this book presents evidence-based research and analysis. Renowned international scholars examine the salience of the network as a metaphor for understanding our social world, but also the centrality of the Internet in civic and political networks. Whilst acknowledging the power of social media, the contributors question the claim it is a utopian tool of democracy, and suggests a cautious approach to facilitate more participative democracy is necessary. Providing the most up-to-date analysis of social media, citizenship and democracy, Social Media and Democracy will be of strong interest to students and scholars of Political Science, Social Policy, Sociology, Communication Studies, Computing and Information and Communications Technologies.

**Managing Work in the Digital Economy** Stefan Güldenber, Ekkehard Ernst, Klaus North.2021-03-22 This book provides well-founded insights and guidance to (self-)manage work in a globalized and digitalized knowledge economy with a perspective of the year 2030. International researchers and practitioners draw a picture of how, when, and where we will work most probably in 10 years. Many cases and examples make this work a compendium for learning and for implementing new leadership and management practices. The book assists managers, knowledge workers, human resource professionals, consultants, trainers, coaches in business, public administration, and non-profit organizations to shape the future of work. Drawing on the authors' more than twenty years of research, teaching, and consulting experience, this is one of the first professional guidebooks to analyze and discuss strategies for digital and disruptive changes at the workplace.

**Networks in Water Governance** Manuel Fischer, Karin Ingold.2020-08-19 With the consequences of climate change and biodiversity loss becoming more and more apparent, both the protection of

water resources and water-related ecosystems as well as protection from water, that is flood protection policies, have become increasingly important. This book explores the latest applications of network analysis concepts and measures to the study and practice of water governance. Given the holistic complexity of water governance, it covers individual water governance aspects such as flood protection and fisheries, as well as overarching concepts like integrated water management and social-ecological interactions. The book provides an overview of current water governance issues, network analytic concepts as well as implications for practice. The main body of the text is made up of eight case studies by world-leading environmental governance scholars, each of which addresses one water-related challenge by applying a variety of network approaches. The first part of the book highlights network dispersion and fragmentation, the second focuses on how such fragmentation in networks can be overcome and the third deals with specific roles of actors in networks. This collection is a key resource for scholars and practitioners interested in water governance all over the world. It provides readers with an overview of the potential of network analytic concepts for research on complex governance problems.

Climate Governance across the Globe Rüdiger K.W. Wurzel, Mikael Skou Andersen, Paul Tobin. 2020-12-30 This book takes an innovative approach to studying international climate governance by providing a critical analysis of climate leadership, pioneership and followership across the globe. The volume assesses the interactions between climate leaders, pioneers and followers, across multilevel and/or polycentric climate governance contexts. Examining the state and sub-state levels in both the Global South and Global North, as well as regional, supranational EU and international climate governance levels, the authors explore 16 countries across Asia, Australasia, Europe, and Central and North America, plus the European Union. Each chapter employs a comprehensive and consistent framework for analyzing leadership and pioneership, as well as followership. The findings provide new insights into the strategies and actions of sub-state, state-level, and supranational leaders and pioneers. This book will be of key interest to scholars, students and practitioners in environmental politics and climate change governance, as well as those interested in political elites, EU studies and, more broadly, comparative politics and international relations.
