Antonio Gramsci Renate Holub.2005-07-05 This book provides the first detailed account of Gramsci's work in the context of current critical and socio-cultural debates. Renate Holub argues that Gramsci was ahead of his time in offering a theory of art, politics and cultural production. Gramsci's achievement is discussed particularly in relation to the Frankfurt School (Adorno, Horkheimer, Benjamin, Bloch, Habermas), to Brecht's theoretical writings and to thinkers in the phenomenological tradition especially Merleau-Ponty. She argues for Gramsci's continuing relevance at a time of retreat from Marxist positions on the postmodern left. Antonio Gramsci is distinguished by its range of philosophical grasp, its depth of specialized historical scholarship, and its keen sense of Gramsci's position as a crucial figure in the politics of contemporary cultural theory.

Exploring Language Change Mari Jones,Ishtla Singh.2013-09-13 In this student-friendly text, Jones and Singh explore the phenomenon of language change, with a particular focus on the social contexts of its occurrence and possible motivations, including speakers' intentions and attitudes. Presenting new or little-known data, the authors draw a distinction between unconscious and deliberate change. The discussion on unconscious change considers phenomena such as the emergence and obsolescence of individual languages, whilst the sections on deliberate change focus on issues of language planning, including the strategies of language revival and revitalization

movements. There is also a detailed exploration of what is arguably the most extreme instance of deliberate change; language invention for real-world use. Examining an extensive range of language situations, *Exploring Language Change* makes a clear, but often ignored distinction between concepts such as language policy and planning, and language revival and revitalization. Also featured are a number of case studies which demonstrate that real-life language use is often much more complex than theoretical abstractions might suggest. This is a key text for students on a variety of courses, including sociolinguistics, historical linguistics and language policy and planning.

Javanese Gentry Umar Kayam.2013-01-01 In my mind rose a misty picture of a little girl in a floral

dress. As for her face: nothing. I could only hope that she had been pretty. I sat overcome. What a procession of developments in one day! Only that morning I had left Madiun; at midday I was wobbling on a buggy past an ocean of rice fields; tonight, suddenly, I had been renamed by my parents and handed a wife. Thus begins Sastrodarsono's life, returning to his village as a newly-appointed schoolteacher, and by virtue of that position, a member of the priyayi - functionary gentry awesomely elevated above the peasantry of his origins. From those most traditional of Javanese institutions - change of name and a virtually imposed marriage-he moves on with his bride to found a line of modernizing generations active across the whole span of recent Indonesian history: the 20th century late-colonial period, Japanese occupation, war of independence and two decades of social disorder ending in the mid-1960s with the rise of Suharto's authoritarian New Order government. The ideal of gentrification threads through this saga, both in the implicit concerns of a variety of characters and in the hopes of wretched villagers for whom the literacy necessary to approach that higher status is largely a forlorn dream.

The Power of Interest for Motivation and Engagement K Ann Renninger,Suzanne Hidi.2015-11-19 The Power of Interest for Motivation and Engagement describes the benefits of interest for people of all ages. Using case material as illustrations, the volume explains that interest can be supported to develop, and that the development of a person's interest is always motivating and results in meaningful engagement. This volume is written for people who would like to know more about the power of their interests and how they could develop them: students who want to be engaged, educators and parents wondering about how to facilitate motivation, business people focusing on ways in which they could engage their employees and associates, policy-makers whose recognition of the power of interest may lead to changes resulting in a new focus supporting interest development for schools, out of school activity, industry, and business, and researchers studying learning and motivation. It draws on research in cognitive, developmental, educational, and social psychology, as well as in the learning sciences, and neuroscience to demonstrate that there is power

for everyone in leveraging interest for motivation and engagement.

Language Assessment H. Douglas Brown. 2018-03-16 *Language Assessment: Principles and Classroom Practices* is designed to offer a comprehensive survey of essential principles and tools for second language assessment. Its first and second editions have been successfully used in teacher-training courses, teacher certification curricula, and TESOL master of arts programs. As the third in a trilogy of teacher education textbooks, it is designed to follow H. Douglas Brown's other two books, *Principles of Language Learning and Teaching* (sixth edition, Pearson Education, 2014) and *Teaching by Principles* (fourth edition, Pearson Education, 2015). References to those two books are made throughout the current book. *Language Assessment* features uncomplicated prose and a systematic, spiraling organization. Concepts are introduced with practical examples, understandable explanations, and succinct references to supportive research. The research literature on language assessment can be quite complex and assume that readers have technical knowledge and experience in testing. By the end of *Language Assessment*, however, readers will have gained access to this not-so-frightening field. They will have a working knowledge of a number of useful, fundamental principles of assessment and will have applied those principles to practical classroom contexts. They will also have acquired a storehouse of useful tools for evaluating and designing practical, effective assessment techniques for their classrooms.

Turn Down the Heat A Report for the World Bank by the Potsdam Institute for Climate Impact Research and Analytics..2013-06-19 This report focuses on the risks of climate change to development in Sub-Saharan Africa, South East Asia and South Asia. Building on the 2012 report, Turn Down the Heat: Why a 4°C Warmer World Must be Avoided, this new scientific analysis examines the likely impacts of present day, 2°C and 4°C warming on agricultural production, water resources, and coastal vulnerability. It finds many significant climate and development impacts are already being felt in some regions, and that as warming increases from present day (0.8°C) to 2°C and 4°C, multiple threats of increasing extreme heat waves, sea-level rise, more severe storms, droughts and floods are expected to have further severe negative implications for the poorest and most vulnerable. The report finds that agricultural yields will be affected across the three regions, with repercussions for food security, economic growth, and poverty reduction. In addition, urban areas have been identified as new clusters of vulnerability with urban dwellers, particularly the urban poor, facing significant vulnerability to climate change. In Sub-Saharan Africa, under 3°C global warming, savannas are projected to decrease from their current levels to approximately one-seventh of total land area and threaten pastoral livelihoods. Under 4°C warming, total hyper-arid and arid areas are projected to expand by 10 percent. In South East Asia, under 2°C warming, heat extremes that are virtually absent today would cover nearly 60-70 percent of total land area in northern-hemisphere summer, adversely impacting ecosystems. Under 4°C warming, rural populations would face mounting pressures from sea-level rise, increased tropical cyclone intensity, storm surges, saltwater intrusions, and loss of marine ecosystem services. In South Asia, the potential sudden onset of disturbances to the monsoon system and rising peak temperatures would

put water and food resources at severe risk. Well before 2°C warming occurs, substantial reductions in the frequency of low snow years is projected to cause substantial reductions in dry season flow, threatening agriculture. Many of the worst climate impacts could still be avoided by holding warming below 2°C, but the window for action is closing rapidly. Urgent action is also needed to build resilience to a rapidly warming world that will pose significant risks to agriculture, water resources, coastal infrastructure, and human health.

New Historicism and Cultural Materialism John Brannigan.2016-02-12 New historicism and cultural materialism emerged in the early 1980s as prominent literary theories and came to represent a revival of interest in history and in historicising literature. Their proponents rejected both formalist criticism and earlier attempts to read literature in its historical context and defined new ways of thinking about literature in relation to history. This study explains the development of these theories and demonstrates both their uses and weaknesses as critical practices. The potential future direction for the theories is explored and the controversial debates about their validity in literary studies are discussed.

Hana's Suitcase Karen Levine.2002-08-07 New edition with foreword by Nobel Peace Prize winner Desmond Tutu: “How extraordinary that this humble suitcase has enabled children all over the world to learn through Hana’s story the terrible history of what happened and that it continues to urge them to heed the warnings of history.” In the spring of 2000, Fumiko Ishioka, the curator of a small Holocaust education centre for children in Tokyo, received a very special shipment for an exhibit she was planning. She had asked the curators at the Auschwitz museum if she could borrow some artifacts connected to the experience of children at the camp. Among the items she received was an

empty suitcase. From the moment she saw it, Fumiko was captivated by the writing on the outside that identified its owner - Hana Brady, May 16, 1931, Waisenkind (the German word for orphan). Children visiting the centre were full of questions. Who was Hana Brady? Where did she come from? What was she like? How did Hana become an orphan? What happened to her? Fueled by the children's curiosity and her own need to know, Fumiko began a year of detective work, scouring the world for clues to the story of Hana Brady. Writer Karen Levine follows Fumiko in her search through history, from present-day Japan, Europe and North America back to 1938 Czechoslovakia and the young Hana Brady, a fun-loving child with a passion for ice skating. Together with Fumiko, we learn of Hana's loving parents and older brother, George, and discover how the family's happy life in a small town was turned upside down by the invasion of the Nazis. Based on an award-winning CBC documentary, *Hana's Suitcase* takes the reader on an incredible journey full of mystery and memories, which come to life through the perspectives of Fumiko, Hana and later Hana's brother, who now lives in Canada. Photographs and original wartime documents enhance this extraordinary story that bridges cultures, generations and time. Ideal for young readers aged 9 and up. *Hana's Suitcase* is part of the award-winning Holocaust Remembrance Series for Young Readers.

Strategies for Teachers Paul D. Eggen, Donald P. Kauchak. 2001 This K-12 teaching methods text opens each chapter with case studies illustrating the model in actual classroom practice and translates cognitive principles of learning into teaching strategies. As in past editions, the fourth edition of *Strategies for Teachers* continues to focus on instruction, using a models approach, linking prescriptive teaching strategies to specific content and thinking goals. This edition is composed of two main parts: the first two chapters outline advances in effective teaching and the teaching of thinking. The remaining chapters offer detailed coverage of the individual models, including suggestions for modifications that make them adaptable to a variety of teaching-learning situations. The text focuses on active learning, the use of research, psychology and experience, and emphasizes the teacher's central role in the learning process. Durga/Umayi Y. B. Mangunwijaya.2004 This first English edition of the satirical Indonesian novel (1991) affords an overview of the Sukarno and Suharto eras and insight into the postcolonial condition This scathingly satirical and hilarious novel, first published in Indonesia in 1991, affords both a blithely irreverent overview of Indonesian history in the Sukarno and Suharto eras, and brilliant insights into the postcolonial condition. Mangunwijaya (1929-2001) was a well-known

Indonesian political activist and writer, as well as a Catholic priest, engineer, and architect. Framed by the world of ritual shadow plays - the realm of witches like Durga and the goddess Umayi - Mangunwijaya's novel gives an unblinking but remarkably compassionate account of people caught up in the great nationalist maelstrom of Indonesia's recent history.

World Development Report 2020 World Bank. 2019-11-19 Global value chains (GVCs) powered the surge of international trade after 1990 and now account for almost half of all trade. This shift enabled an unprecedented economic convergence: poor countries grew rapidly and began to catch up with richer countries. Since the 2008 global financial crisis, however, the growth of trade has been sluggish and the expansion of GVCs has stalled. Meanwhile, serious threats have emerged to the model of trade-led growth. New technologies could draw production closer to the consumer and reduce the demand for labor. And trade conflicts among large countries could lead to a retrenchment or a segmentation of GVCs. *World Development Report 2020: Trading for Development in the Age of Global Value Chains* examines whether there is still a path to development through GVCs and trade. It concludes that technological change is, at this stage, more a boon than a curse. GVCs can continue to boost growth, create better jobs, and reduce poverty provided that developing countries implement deeper reforms to promote GVC participation; industrial countries pursue open, predictable policies; and all countries revive multilateral cooperation.
