Confessions of a Recovering Environmentalist and Other Essays Paul Kingsnorth.2017-08-01 A provocative and urgent essay collection that asks how we can live with hope in "an age of ecocide" Paul Kingsnorth was once an activist—an ardent environmentalist. He fought against rampant development and the depredations of a corporate world that seemed hell-bent on ignoring a looming climate crisis in its relentless pursuit of profit. But as the environmental movement began to focus on "sustainability" rather than the defense of wild places for their own sake and as global conditions worsened, he grew disenchanted with the movement that he once embraced. He gave up what he saw as the false hope that residents of the First World would ever make the kind of sacrifices that might avert the severe consequences of climate change. Full of grief and fury as well as passionate, lyrical evocations of nature and the wild, *Confessions of a Recovering Environmentalist* gathers the wave-making essays that have charted the change in Kingsnorth's thinking. In them he articulates a new vision that he calls "dark ecology," which stands firmly in opposition to the belief that technology can save us, and he argues for a renewed balance between the human and nonhuman worlds. This iconoclastic, fearless, and ultimately hopeful book, which includes the much-discussed "Uncivilization" manifesto, asks hard questions about how we've lived and how we should live.

Return to Wake Robin Marnie O. Mamma.2012-05-24 Five generations of Marnie O. Mamma's family have been rejuvenated by times together in Wisconsin's Northwoods. In a series of evocative remembrances accompanied by a treasure trove of vintage family photos, Mamma takes us to Wake Robin, the cabin her grandparents built in 1929 on Big Spider Lake near Hayward, on land adjacent to Moody's Camp. Along the way she preserves the spirit and cultural heritage of a vanishing era, conveying the heart of a place and the community that gathered there.

Bookended by the close of the logging era and the 1970s shift to modern lake homes, condos, and Jet Skis, the 1920s to 1960s period covered in these essays represents the golden age of Northwoods camps and cabins—a time when retreats such as Wake Robin were the essence of simplicity. In *Return to Wake Robin*, Mamminga describes the familiar cadre of fishing guides casting their charm, the camaraderie and friendships among resort workers and vacationers, the call of the weekly square dance, the splash announcing a perfectly executed cannonball, the lodge as gathering place. By tracing the history of one resort and cabin, she recalls a time and experience that will resonate with anyone who spent their summers Up North—or wishes they had.

Building a Log Cabin in Alaska in Four Months Charles Underwood.2012-01-19 This book should prove most helpful as a how to guide for a man working alone to build a strong, yet simple log cabin made to last. It can be a log cabin that a man can be proud to call his home or for a getaway home away from home on the weekend. I built the 13 by 41 foot cabin shell, including cutting down the trees and peeling off the bark, in three months while camping out in a tent. Cutting down the trees and peeling off the bark took more than half of the time in completing the shell of the

cabin. It was hard work, but by using the trees on my property I saved money and it gave me a more satisfying feeling of accomplishment as I lived my dream. After about three months work the cabin was up and we moved from our tents into the cabin, however, the electrical wiring, well and plumbing, septic system, interior walls, chimney, and 8 by 28 foot add-on, which are covered in varying details (less on the wiring and plumbing) in this book, were worked on as I got the time and money. Overall, to complete the cabin, it took about four to five months time. The 757 square foot cabin was completed in about four months by working long hours, six days a week. The long camping experience was an ordeal for my wife, but my son and I enjoyed it. We thank God for His help and guidance through it all. The plans contained in this book are designed to allow a man working alone to build a cabin in a short time that will last a life time. I include an additional chapter about building a pergola type patio cover out of red cedar. 48 pictures are included in this book. Happy trails!

Piecing together the records of buildings and homes and everything interesting that came after, Miss Cassette shares her observations of the property and its significance to Omaha. She scrutinizes land deeds, insurance maps, tax records, and old newspaper articles to uncover a property's singular story. Humble Homes, Simple Shacks, Cozy Cottages, Ramshackle Retreats, Funky Forts Dr Derek Diedricksen.2012-02-01 This Old House meets Wayne's World in this zany guide to designing and building tiny homes Derek Diedricksen has always had a love for small, modest houses ever since his father gave him the book *Tiny Tiny Houses* by Lester Walker for his tenth birthday. Combining his artistic abilities, wild imagination, and his passion for small houses, he self-published *Humble Homes, Simple Shacks, Cozy Cottages, Ramshackle Retreats, Funky Forts, and Whatever the Heck Else we could Squeeze in Here* in 2009. This book is a collection of Diedricksen's creative/imaginative sketches for building small houses, shacks, cottages, and forts. The sketches are accompanied with hand-written commentary, both instructive and comical. Derek's main purpose is to get your creative juices flowing and encourage you to get off the couch and use your hands. Believing that specific building plans squash creativity, he avoids too many detailed instructions, giving you the chance to put your own creative spin on your very own small abode (even if it is just in your imagination).
