**The Ancient Nasca World** Rosa Lasaponara,Nicola Masini,Giuseppe Orefici.2017-01-20 This book presents outstanding chapter contributions on the Nasca culture in a variety of artistic expressions such as architecture, geoglyphs, ceramics, music, and textiles. The approach, based on the integration of science with archaeology and anthropology, sheds new light on the Nasca civilization. In particular the multidisciplinary character of the contributions and earth observation technologies provide new information on geoglyphs, the monumental ceremonial architecture of Cahuachi, and the adaptation strategies in the Nasca desert by means of sophisticated and effective aqueduct systems. Finally, archaeological looting and vandalism are covered. This book will be of interest to students, archaeologists, historians, scholars of Andean civilizations, scientists in physical anthropology, remote sensing, geophysics, and cultural heritage management.

Mankind in Amnesia Immanuel Velikovsky. Immanuel Velikovsky called this book the fulfillment of his oath of Hippocrates - to serve humanity. In this book he returns to his roots as a psychologist and psychoanalytical therapist, yet not with a single person as his patient but with humanity as a whole. After an extremely revealing overview of the foundations of the various psychoanalytical systems he makes the step into crowd psychology and reopens the case of Worlds in Collision from a totally different point of view: as a psychoanalytical case study. This way he shows that the blatant reactions to his theories (which are still going on today) have not been surprising but are actually inevitable from a psychological perspective - which equally holds for those who have defined our view of the world. At the same time he is able to reclassify the theories of Siegmund Freud and of C. G. Jung by finding a common basis for them. A journey through history, religion, mythology and art shows the overall range of the collective trauma and gives us - the patients - a message of extraordinary urgency and importance for the future.

**Places of Power and Memory in Mesoamerica's Past and Present** Daniel Graña Behrens.2016  
La quatrième de couverture indique : This book provides a fresh look at the principles of power and the memory of places in Mesoamerica. Toponyms, boundaries and landscapes play an important role in shaping local politics and peoples life's throughout past and present. Beyond structural and conceptual similarities in calendar, rituals and religion, Mesoamerica shares a devote preference for places, sites or urban centers as distinguishable feature for collectiveness, constantly reshaped and transformed according to the historical circumstances either political, economical or religious. Thus, more than a coincidence, the importance of places over recognizable or by natives documented cultural regions in Mesoamerica seems to be a cultural pattern with deep roots lasting until today.

**100 Birds and How They Got Their Names** Diana Wells.2001-10-30 How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in *The Ancient Mariner* to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the bald eagle on our National Seal because of its bad moral character, (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means unmarried, are called bachelor birds because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration

because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into 100 Birds and you'll never look at a sparrow, an ostrich, or a wren in quite the same way.

**Inside the Space Ships** George Adamski.2018-03-12 What has happened to George Adamski since he wrote the famous incidents in *Flying Saucers Have Landed*? Since the memorable November 20, 1952, when he first made personal contact with a man from another world? Since December 13, 1952 when he was able to make photographs within 100 feet of the same saucer that had brought his original visitor? *Inside The Space Ships* is Adamski's own story of what has happened to him since then. It begins with his first meeting, a few months later, with a second man from another world—his first meeting with one who speaks to him. This second visitor brings him to a Venusian Scout (flying saucer) and this, in turn, brings him to a mother ship. Later he is conveyed in both a Saturnian Scout and a Saturnian mother ship. Adamski tells us what transpires in these space craft and what the men and women from other worlds have told him. Adamski's photographs of flying saucers, originally published in *Flying Saucers Have Landed*, have since become world-famous as other witnesses in other parts of the world have succeeded in taking photographs identical with his. Now, however, in *Inside The Space Ships*, Adamski gives us 16 photographs and illustrations, no

longer of Scouts (flying saucers) mostly, but of the great space ships from which they are launched. The main group of these photographs was taken in April, 1955, and neither the photographs nor a description of them has ever been published before.

God Bless you!

*Tacky* Rax King.2021-11-02 An irreverent and charming collection of deeply personal essays about the joys of low pop culture and bad taste, exploring coming of age in the 2000s in the age of Hot Topic, Creed, and frosted lip gloss—from the James Beard Award-nominated writer of the Catapult column *Store-Bought Is Fine*—Tacky is about the power of pop culture—like any art—to imprint itself on our lives and shape our experiences, no matter one's commitment to good taste. These fourteen essays are a nostalgia-soaked antidote to the millennial generation's obsession with irony, putting the aesthetics we hate to love—snakeskin pants, *Sex and the City*, Cheesecake Factory's gargantuan menu—into kinder and sharper perspective. Each essay revolves around a different maligned (and yet, Rax would argue, vital) cultural artifact, providing thoughtful, even romantic meditations on desire, love, and the power of nostalgia. An essay about the gym-tan-laundry exuberance of Jersey Shore morphs into an excavation of grief over the death of her father; in *You Wanna Be On Top*, Rax writes about friendship and early aughts girlhood; in another, Guy Fieri helps her heal from an abusive relationship. The result is a collection that captures the personal and generational experience of finding joy in caring just a little too much with clarity, heartfelt honesty, and Rax

King's trademark humor. A VINTAGE ORIGINAL

*Affective Health and Masculinities in South Africa* Hans Reihling.2020-04-03 *Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

**The Archaeology and Pottery of Nazca, Peru** Alfred Louis Kroeber, Donald Collier. 1998

Submitted a little late for spring term, Kroeber's report remains the only complete analysis and seriation of the beautiful painted pottery of the important site, with over 400 photographs and drawings. It remained unfinished when he died in 1960; colleagues have edited and completed it, adding some color photographs, a background preface, and a survey of research since 1926. The report now also provides a glimpse into the methods and mentality of early American archaeology. Annotation copyrighted by Book News, Inc., Portland, OR

**Carol Twombly** Nancy Stock-Allen. 2016 This study is a fascinating inside look at digital type design, the rather mysterious career of one of its most important practitioners, and the history and culture of Adobe Type, with additional insight into other type designers of the digital era. It is difficult to imagine a graphic designer in the last quarter century who is not familiar with at least some of Carol Twombly's typefaces. Yet many of those who use her fonts today would be hard pressed to name their designer. Twombly studied at the Rhode Island School of Design under professor Charles Bigelow, and she also studied at the Bigelow & Holmes studio. She joined Adobe Systems in 1988, when the company was hiring young designers for the newly launched type department. During her ten years at Adobe, she designed some of the most recognizable and popular typefaces on the market today, including Trajan (1989), Charlemagne (1989), Lithos (1989), Adobe Caslon (1990), Myriad (1991, with Robert Slimbach), Viva (1993), Nueva (1994), and Chaparral

(1997). In 1994, Twombly won the Prix Charles Peignot, given by the Association Typographique Internationale (ATypI) the first woman, and second American, to receive the award. Having achieved international recognition, Twombly was uncomfortable being in the public eye at conferences and in Adobe marketing materials. She also grew dissatisfied with changes at Adobe and with her evolving role at the company. In 1999 she left both Adobe and her career to pursue other artistic interests. Nancy Stock-Allen is a graphic designer and a blogger on subjects related to design, type, and women in design history. She was formerly Professor of Graphic Design and department chair at the Moore College of Art and Design. She interviewed and corresponded extensively with Carol Twombly and many of her associates and colleagues in writing this profile of a woman who rose to the top of a field historically dominated by men, at a time of barrier-breaking and technological revolution.

**Lost Languages of the Peruvian North Coast** Matthias Urban.2019 Dieses Buch behandelt die indigenen Sprachen der peruanischen Nordküste, die vor der Ankunft der Spanier gesprochen wurden. Sie gingen mit dem Untergang der präkolumbischen Gesellschaften der Küstenregion verloren: Sechura und Tallán in Piura, Mochica in Lambayeque und La Libertad, und weiter südlich Quingnam. Der Autor rekonstruiert die Verbreitung dieser Sprachen bis in die frühe Kolonialzeit anhand der spärlichen Quellen und diskutiert die Prozesse des Sprachverlustes zugunsten des Spanischen. Soweit möglich werden Lexikon, Grammatik und phonologisches System jeder Sprache dargestellt und mögliche Rückschlüsse auf Sprachkontakte und Sprachgrenzen gezogen. Eine grosse Bedeutung kommt der Diskussion zu, inwieweit die koloniale Sprachsituation an der Nordküste in die präkolumbianische Vergangenheit projiziert werden kann.--

A Sourcebook of Nasca Ceramic Iconography Donald A. Proulx.2009-08 For almost eight hundred years (100 BC-AD 650) Nasca artists modeled and painted the plants, animals, birds, and fish of their homeland on Peru's south coast as well as numerous abstract anthropomorphic creatures whose form and meaning are sometimes incomprehensible today. In this first book-length treatment of Nasca ceramic iconography to appear in English, drawing upon an archive of more than eight thousand Nasca vessels from over 150 public and private collections, Donald Proulx systematically describes the major artistic motifs of this stunning polychrome pottery, interprets the major themes displayed on this pottery, and then uses these descriptions and his stimulating interpretations to analyze Nasca society. After beginning with an overview of Nasca culture and an explanation of the style and chronology of Nasca pottery, Proulx moves to the heart of his book: a detailed classification and description of the entire range of supernatural and secular themes in Nasca iconography along with a fresh and distinctive interpretation of these themes. Linking the pots and their iconography to the archaeologically known Nasca society, he ends with a thorough and accessible examination of this ancient culture viewed through the lens of ceramic iconography. Although these static images can never be fully understood, by animating their themes and meanings Proulx reconstructs the lifeways of this complex society.
