*French and Russian in Imperial Russia* Derek Offord.2015-06-29 This volume explores the impact of French on Russian language attitudes, especially among the literary community. It examines the ways in which perceptions of Russian francophonie helped to shape social, political and cultural identity as Russia began to seek space of its own in the European cultural landscape.

**Studies in Romanesque Sculpture** George Zarnecki.1979 Professor Zarnecki is the leading authority on English medieval sculpture. The present volume has assembled his major articles on Romanesque art published before 1979. These studies are primarily concerned with the changes that took place in English sculpture during the eleventh and twelfth centuries, and attempt to set developments in English art over this period within a European context. The volume also deals with Romanesque sculpture in France and Italy, together with metalwork and woodcarving in England, and includes a number of important iconographical studies. The author has up-dated his earlier studies to incorporate the results of subsequent research, and has augmented several studies with added bibliographical notes or references to more recent discoveries. Additional illustrations have been added where necessary, including photographs of a number of monuments which were previously unpublished.

Eyeseas Raymond Queneau.2008 In the United States, Raymond Queneau (1903-1976) is known mainly for his novel *Zazie dans le metro*, which was made into a film by Louis Malle, for *Exercises in Style*, and for being the founder and one of the most important members of the literary movement known as Oulipo. In France and much of Europe Queneau is known for his prolific and wide ranging writings. During his lifetime some 18 novels, 10 volumes of poetry, 7 volumes of essays, and countless published writings, commentaries, and reviews kept him in public view (and continue to do so today as much of his writing is still in print in France). His reputation as a writer continues to grow with new biographies, critical writings, and anthologies appearing every year. An explorer of linguistics as well as a mathematician, he often combined his love of both subjects such that the essence of his writings resides not in its content but in the sounds and the form of the text. He often argued that the real subject of his work is language itself. Because of this many of his novels, and especially his poems, are virtually impossible to translate into English as they are based on spoken versus literary French, puns, street slang, and complex variations of word play and spelling. *Les Ziaux* (Eyeseas) presents a survey of his poems as written from his early Surrealist days of the 1920's through to 1943 and is representative of Queneau's range of poetic voices.--BOOK JACKET.

**Canoes** Maylis De Kerangal.2024-10-01 From the author of *Eastbound*, a New York Times Top 10 Book of 2023 A colorful cast of female characters contends with UFOs, sonic waves, and the legend of Buffalo Bill in a spellbinding novella and 7 short stories about the mysteries of place and language “The translation of any of Maylis de Kerangal’s books is a gift.” — Lauren Oyler, *The New Yorker* Ricocheting off of the book’s exhilarating central novella and 7 short stories, the women we meet in *Canoes* are by turns indelibly witty, insightful, intimate, bracing, and profoundly interconnected. “When did I start placing myself in the fable?” a young Parisian wonders as she tells her son the legend of Buffalo Bill, a spectral presence atop the mountain in their small Colorado town. She has just moved to the United States and everything disorients her - suburbs stretching along reptilian highways, a new house rigged like a studio set, but most of all, the sound of her husband’s voice. Sam speaks with a different tone in

English, not the soft and swift timbre of his native French. From a voice made new, Maylis de Kerangal opens up a torrent of curiosities, hauntings, and questions about place and language. The women of these stories are mad about: stones, molds of human jaws, voicemail recordings, sonic waves, UFOs, and always how the texture of human voice entwines with their obsessions. With cosmic harmonics, vivid imagery, and a revelatory composition, *Canoes* will leave readers forever altered.

**Planning Cultures in Europe** Frank Othengrafen.2016-12-05 Bringing together an interdisciplinary team from across the EU, this book connects elements of cultural and planning theories to explain differences and peculiarities among EU member states. A 'culturized planning model' is introduced to consider the 'rules of the game': how culture affects planning practices not only on an explicit 'surface' but also on a 'hidden' implicit level. The model consists of three analytical dimensions: 'planning artifacts', 'planning environment' and 'societal environment'. This book adopts these dimensions to compare planning cultures of different European countries. This sheds light not only on the organizational or institutional structure of planning, but also the influence of deeper cultural values and layers on planning and implementation processes.

**Antiquarianism and the Visual Histories of Louis XIV** Dr Robert Wellington.2015-10-28 This revisionary study provides a new interpretation of objects and images commissioned by Louis XIV (1638-1715) to document his reign for posterity. Robert Wellington uncovers a numismatic sensibility throughout the iconography of Louis XIV. He looks beyond the standard political reading of the works of art made to document the Sun King's history, to argue that they are the results of a creative process wedded to antiquarianism, an intellectual culture that provided a model for the production of history in the grand siècle.

**Art and Gentrification in the Changing Neoliberal Landscape** Tijen Tunali.2021-05-30 *Art and Gentrification in the Changing Neoliberal Landscape* brings together various disciplinary perspectives and diverse theories on art's dialectical and evolving relationship with urban regeneration processes. It engages in the accumulated discussions on art's role in gentrification, yet changes the focus to the growing phenomenon of artistic protests and resistance in the gentrified neighborhoods. Since the 1980s, art and artists' roles in gentrification have been at the forefront of urban geography research in the subjects of housing, regeneration, displacement and new urban planning. In these accounts the artists have been noted to contribute at all stages of gentrification, from triggering it to eventually being displaced by it themselves. The current presence of art in our neoliberal urban spaces illustrates the constant negotiation between power and resistance. And there is a growing need to recognize art's shifting and conflicting relationship with gentrification. The chapters presented here share a common thesis that the aesthetic reconfiguration of the neoliberal city does not only allow uneven and exclusionary urban redevelopment strategies but also facilitates the growth of anti-gentrification resistance. The book will be of interest to scholars working in art history, urban cultures, cultural geography and urban studies as well as contemporary art practitioners and policymakers.

**Discovering Impressionism** Pierre Assouline.2004-11-09 Drawing on unpublished letters and other documents, a leading French historian/biographer traces the life and times of art dealer Durand-Ruel (1831-1921). Ruel supported the careers of most of the major Impressionist artists including Degas, Manet, Monet, Morisot, Pissarro, Renoir, and Sisley. Photos feature the artists and art championed by Ruel.

*Post-Western Sociology - From China to Europe* Laurence Roulleau-Berger, Li Peilin. 2018-05-15 This book is rooted in an epistemological approach to sociology in which the boundaries between Western and non-Western sociologies are acknowledged and built on. It argues that knowledge is organised in conceptual spaces linked to paradigms and programmes which in turn are linked to ethnocentred knowledge processes; that until recently Western approaches, including Post-Colonial, French Social Science and American approaches, have dominated non-Western theories; and that Western theories have sometimes seemed incapable of explaining phenomena produced in other societies. It goes on to argue that the blurring of boundaries between Western and non-Western sociologies is very important; and that such a Post-Western approach will mean co-production and co-construction of common knowledge, the recognition of ignored or forgotten scientific cultures and a global change in sociology which imposes theoretical and methodological detours, displacements, reversals and conversions. The book brings together a wide range of Western and Chinese sociologists who explore the consequences of this new approach in relation to many different issues and aspects of sociology.

**Byzantium after Byzantium** Nicolae Iorga. 2023-01-24 Although Constantinople fell to the Turks in 1453, bringing an end to the Eastern Roman Empire which had survived its predecessor in the West by nearly one thousand years, this important book argues that Byzantium did not die, but continued to influence European history all the way up to the beginning of the nineteenth century. The author's formula "Byzantium after Byzantium" defines several centuries of world history. Iorga points out the great contributions of Byzantine civilization to the Western world, especially during the Renaissance. He demonstrates that Byzantium survived through its people and local autonomies, as well as through its exiles. They continued the Byzantine ideas, aspirations, education, and way of life. All of this allows us to speak of a Byzantium after Byzantium.

*The Armourer and His Craft* Charles John Ffoulkes. 2008-12-01 As soon as the armed man realized that iron and steel were the best defences for his body, he would naturally insist that some sort of a guarantee should be given him of the efficacy of the goods supplied by his armourer. This system of proving armour would be effected by using those weapons commonly in use, and these, in the early times, were the sword, the axe, the lance, the bow, and the crossbow. The latter seems to have been the more common forms of proof, though as late as the seventeenth century we have evidence that armour was proved with the estremaon or sword blow. -from *The Proof of Armour* Not a history of defensive armor but rather a guide to the actual making of armor, as well as the regulations that governed the artisans who made it, this is a fascinating-and practical-handbook on the production, selling, and wearing metal traditional medieval body armor. First published in 1912, this classic book-by British historian and author CHARLES JOHN FFOULKES (1868-1947), curator of London's Royal Armouries-draws on records of the time to detail the tools and appliances of the

trade, the decoration and cleaning of armor, the use of leather and fabrics, and much more to offer a complete reference for readers of period fiction and history, wargamers, costumers, and anyone fascinated by the craft of the armorer. This replica of the 1912 edition is complete with all of the original diagrams, illustrations, and photos.

*John of Ibelin* Peter Edbury.2003-12-01 This is a new critical edition of the legal treatise by John of Ibelin, count of Jaffa and Ascalon (died 1266). John was a leading magnate in the Latin East, and his first-hand experience of the courts meant that he was well-placed to write authoritatively on his subject. His work is in French and describes in detail the procedures of the High Court of the kingdom of Jerusalem, and the law as administered there. The treatise has long been recognized as being of fundamental importance for the legal, institutional and social history of the Latin settlements in the Levant, and this is the first edition to take into account all the surviving medieval manuscripts and the first to be published since 1841.

**Producing Non-Simultaneity** Eike-Christian Heine,Christoph Rauhut.2017-10-31 Producing Non-Simultaneity discusses how the processes of modernisation, driven by globalisation and market forces, change the political, economic and technological conditions under which architecture is realised. The book looks beyond the rhetoric of revolutionary innovation, often put forward by architects and engineers. It shows how technological change during the last 200 years was only possible because traditional skills and older materials persisted. The volume argues that building sites have long been showcases of non-simultaneities. Shedding light on construction of the past and exploring what may impact construction in the future, this book would be a valuable addition for students, researchers and academics in architecture, architectural history and theory.

Covering the key components of the discipline, this book is a comprehensive, discipline-defining text suited for students and seasoned planners alike.

**Le Havre** Collectif.2017-10-13 Dans les années qui suivent la fondation de la ville en 1517, Le Havre ne pense qu'à la mer. Les négociants ne soignent pas leurs demeures. Les maisons de commerce sont construites sans prétention et l'utile l'emporte sur le décor et le faste. Mais à partir de 1852, Le Havre naît une deuxième fois : après la destruction des remparts, l'habitat se déploie en quartiers diversifiés vers l'est et le nord. La séparation entre le port et la ville s'amorce, tandis que Sainte-Adresse développe une vocation balnéaire et devient un lieu de villégiature réputé. Après les bombardements de 1944 qui détruisent les villes neuves des 16e et 18e siècles, Auguste Perret, l'un des architectes majeurs du courant moderne, est chargé de la Reconstruction. Il met alors en oeuvre une nouvelle manière d'habiter : le logement sera fonctionnel, conditionné par la structure en béton. Son travail, exemplaire, vaudra à la ville reconstruite l'inscription au Patrimoine Mondial de l'Humanité. Consacré aux demeures du Havre, ce livre est le fruit d'une étude exceptionnelle menée à partir des années 1990 par le service de l'Inventaire du patrimoine culturel de la Région Normandie. Il succède à celui paru en 2005, Le Havre : un port, des villes neuves, qui présentait l'urbanisme et les édifices publics, religieux et portuaires.

*Literary Translation, Reception, and Transfer* Norbert Bachleitner.2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of 'travelling' and imitation or adaptation of entire texts, genres, forms or contents. Transfer comprises all sorts of 'travelling', with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.

*Paul's Mistress* Guy de Maupassant.2018-05-31 *Paul's Mistress* By Guy de Maupassant In 1880 he published what is considered his first great work, 'Boule de Suif', (translated as 'Dumpling', 'Butterball', 'Ball of Fat', or 'Ball of Lard') which met with a success that was both instant and overwhelming. Flaubert at once acknowledged that it was 'a masterpiece that will endure.' Maupassant had used his talents and experiences in the war to create something unique. This decade from 1880 to 1891 was to be the most pivotal of his career. With an audience now made available by the success of 'Boule de Suif' Maupassant organised himself to work methodically and relentlessly to produce between two and four volumes of work a year. The melding of his talents and business sense and the continual hunger of sources for his works made him wealthy. In his later years he developed a desire for solitude, an obsession for self-preservation, and a fear of death as well as a paranoia of persecution caused by the syphilis he had contracted in his youth. On January 2nd, 1892, Maupassant tried to commit suicide by cutting his throat. Unsuccessful he was committed to the private asylum of Esprit Blanche at Passy, in Paris. It was here on July 6th, 1893 that Henri René Albert Guy de Maupassant died at the age of only 42. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. When she arrives in the States, most of all she misses her grandmother and the cherry blossom trees, under which she and her grandmother used to play and picnic. She wonders how she'll ever feel at home in this new place, with its unfamiliar language and landscape. One day, she meets her neighbor, a boy named Luke, and begins to feel a little more settled. When her grandmother becomes ill, though, her family takes a trip back to Japan. Sakura is sad when she returns to the States and once again reflects on all she misses. Luke does his best to cheer her up - - and tells her about a surprise he knows she'll love, but she'll have to wait till spring. In the meantime, Sakura and Luke's friendship blooms and finally, when spring comes, Luke takes her to see the cherry blossom trees flowering right there in her new neighborhood. **Beyond the Public Sphere** Massimo Rospocher.2012

**The Rejection of Consequentialism** Samuel Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.
